

PRODUCT SPECS

40" ALUMINIZED PARA-ARAMID BLEND JACKET

Foundry / High Heat Protection • Part #601-AKV-SIZE

GARMENT FEATURES

- 40" length (approximately 101.6 cm)
- Made from 19 oz. / sq. yd. aluminized para-aramid blend
- Protects from radiant heat up to 2000°F and high contact heat (400-600°F)
- Snap front closure with split leather tabs
- Adjustable snap wrist closure
- Unlined
- Sewn with Kevlar® thread for seam strength and heat resistance
- Part #601-AKV-SIZE

ABOUT ALUMINIZED PARA-ARAMID BLEND

Aluminized para-aramid blend provides protection from radiant heat temperatures up to 2000°F, and from contact / working heat temperatures of 400°F to 600°F. It is a very durable fabric, and provides excellent abrasion resistance in addition to its thermal protective properties.
