INSTALLATION INSTRUCTIONS

Please read carefully and save these instructions as you may need them a later date.

CAUTION

Turn off the main power at the circuit breaker before installing the fixture in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustration.

ASSEMBLY AND INSTALLATION

1. Pass the wires of the fixture body (11) through the central rod of canopy (9), and then install the central rod of canopy (9) to the fixture body (11).
2. Loosen mounting screw (10) to remove mounting plate (6) from canopy (9).
3. Secure the round mounting plate (6) to the outlet box (1) with box screws (8).
4. Pull out the wires and ground wire from the Outlet Box (1).
Make wire connections with wire nut (5)
---White wire from light to White Wire (3) from power source.
---Black wire from light to Black Wire (2) from power source.
---Tie the ground wire (4) from fixture and from outlet box (1) to the ground screw (7) on the mounting plate (6).
5. Align the Back plate (9) to the Outlet box (1), then secure it to the round mounting plate (6) with the mounting screws (10).
6. Install bulbs: (bulbs not included)⚡
(Don't exceed the maximum capacity recommended on the Sockets).⚡
7. Install stem (12) to the bottom of the fixture body (11). Place the glass shade (13), plastic washer (14), metal washer (15), hex nut (16) and cap (17) over the thread of stem (12), then secure them together with finial (18).

INSTALLATION IS NOW COMPLETED
