Care and use

Please retain these instructions for future reference. Before first use, ensure that you hand-wash the ovenware thoroughly. This product is suitable for domestic oven use only, with a maximum temperature of 220 ºC or Gas Mark 7. To prevent sticking, lightly coat the inner surface of the ovenware with grease. For enhanced longevity, it is advisable to use silicone, wooden, or nylon utensils, as metal utensils should be avoided. Take care not to overheat the ovenware and never leave it unattended while in use. When it comes to cleaning and storing, always allow the ovenware to cool before cleaning, as it is not dishwasher safe. Hand-wash with a mild detergent and a non-abrasive sponge, then rinse and dry thoroughly. Ensure that the ovenware is not stored while wet. Exercise caution by using heat-resistant oven gloves when handling the ovenware, and never expose hot ovenware to cold liquid. If you notice any signs of damage, dispose of the ovenware carefully.
