Tools Required:

Allen Wrench (Included)
Furniture Polish and Soft Cloth
Carpenters Level
Phillips Screw Driver

ASSEMBLY TIPS

Make sure you understand the following tips before you begin to assemble your game table.

1. Start all bolts by hand before tightening.
2. An electric screwdriver is helpful in assembly. However, please set at low torque and use extreme caution with an electric screwdriver because you could overtighten the hardware and strip the screws.
3. Some drawings or images in this manual may not look exactly like your product. Please read and understand the text before starting each assembly step.
4. Assembly can be made both simpler and less timely by first unpacking all parts, and matching and organizing them to the Parts Identifier. This will greatly help you become familiar with the parts before and during assembly.
5. Some of this assembly can be made easier – by placing the parts and building the assembly on a pair of saw horses. A table can be used also as long as the top is well protected from any scratches that could occur. The table or saw horses would need to be structurally strong enough to support this weight.

Congratulations! You have now assembled your table. Please note the Care and Use instructions below to insure many years of trouble free use of your game table.

CARE AND USE FOR YOUR PRODUCT

- 1. Use only a suitable 120v AC household outlet, and insure the cord is not a trip hazard.
- 2. For long life and best play from your air hockey table, apply spray furniture polish to a clean cloth and wipe down the playfield with air motor running to make the best play and frequently thereafter.
- 3. This product is intended for **INDOOR** use only.
- 4. **DO NOT** operate the motor if the cord is damaged in any way.
- 5. **DO NOT** sit, climb or lean on the table.
- 6. **DO NOT** drag the table when moving it. This will damage the legs.
- 7. **DO NOT** set drinks on the table.
- 8. It is suggested that this table be placed close to wall thus allowing the air motor cord to **NOT** be a trip hazard. Always turn air motor off when table is not in use.
- 9. Use a carpenters level to properly level table using the leg levelers.
- 10. If possible, cover table with a pool table cover or sheet when not used to keep playfield clean preventing any dust build up.
