Glossary of Terms:

- **MultiDock** - The main mounting station consisting of 6 Charging Docks for IPORT CONNECT iPad or iPhone Cases.
- **Charging Cradle** - The removable back portion of each Charging Dock interchangeable for different sized iPhone or iPad devices.
- **Charging LED** - The LED indicating the current charge status of the iPhone or iPad: red for charging, green for fully charged.
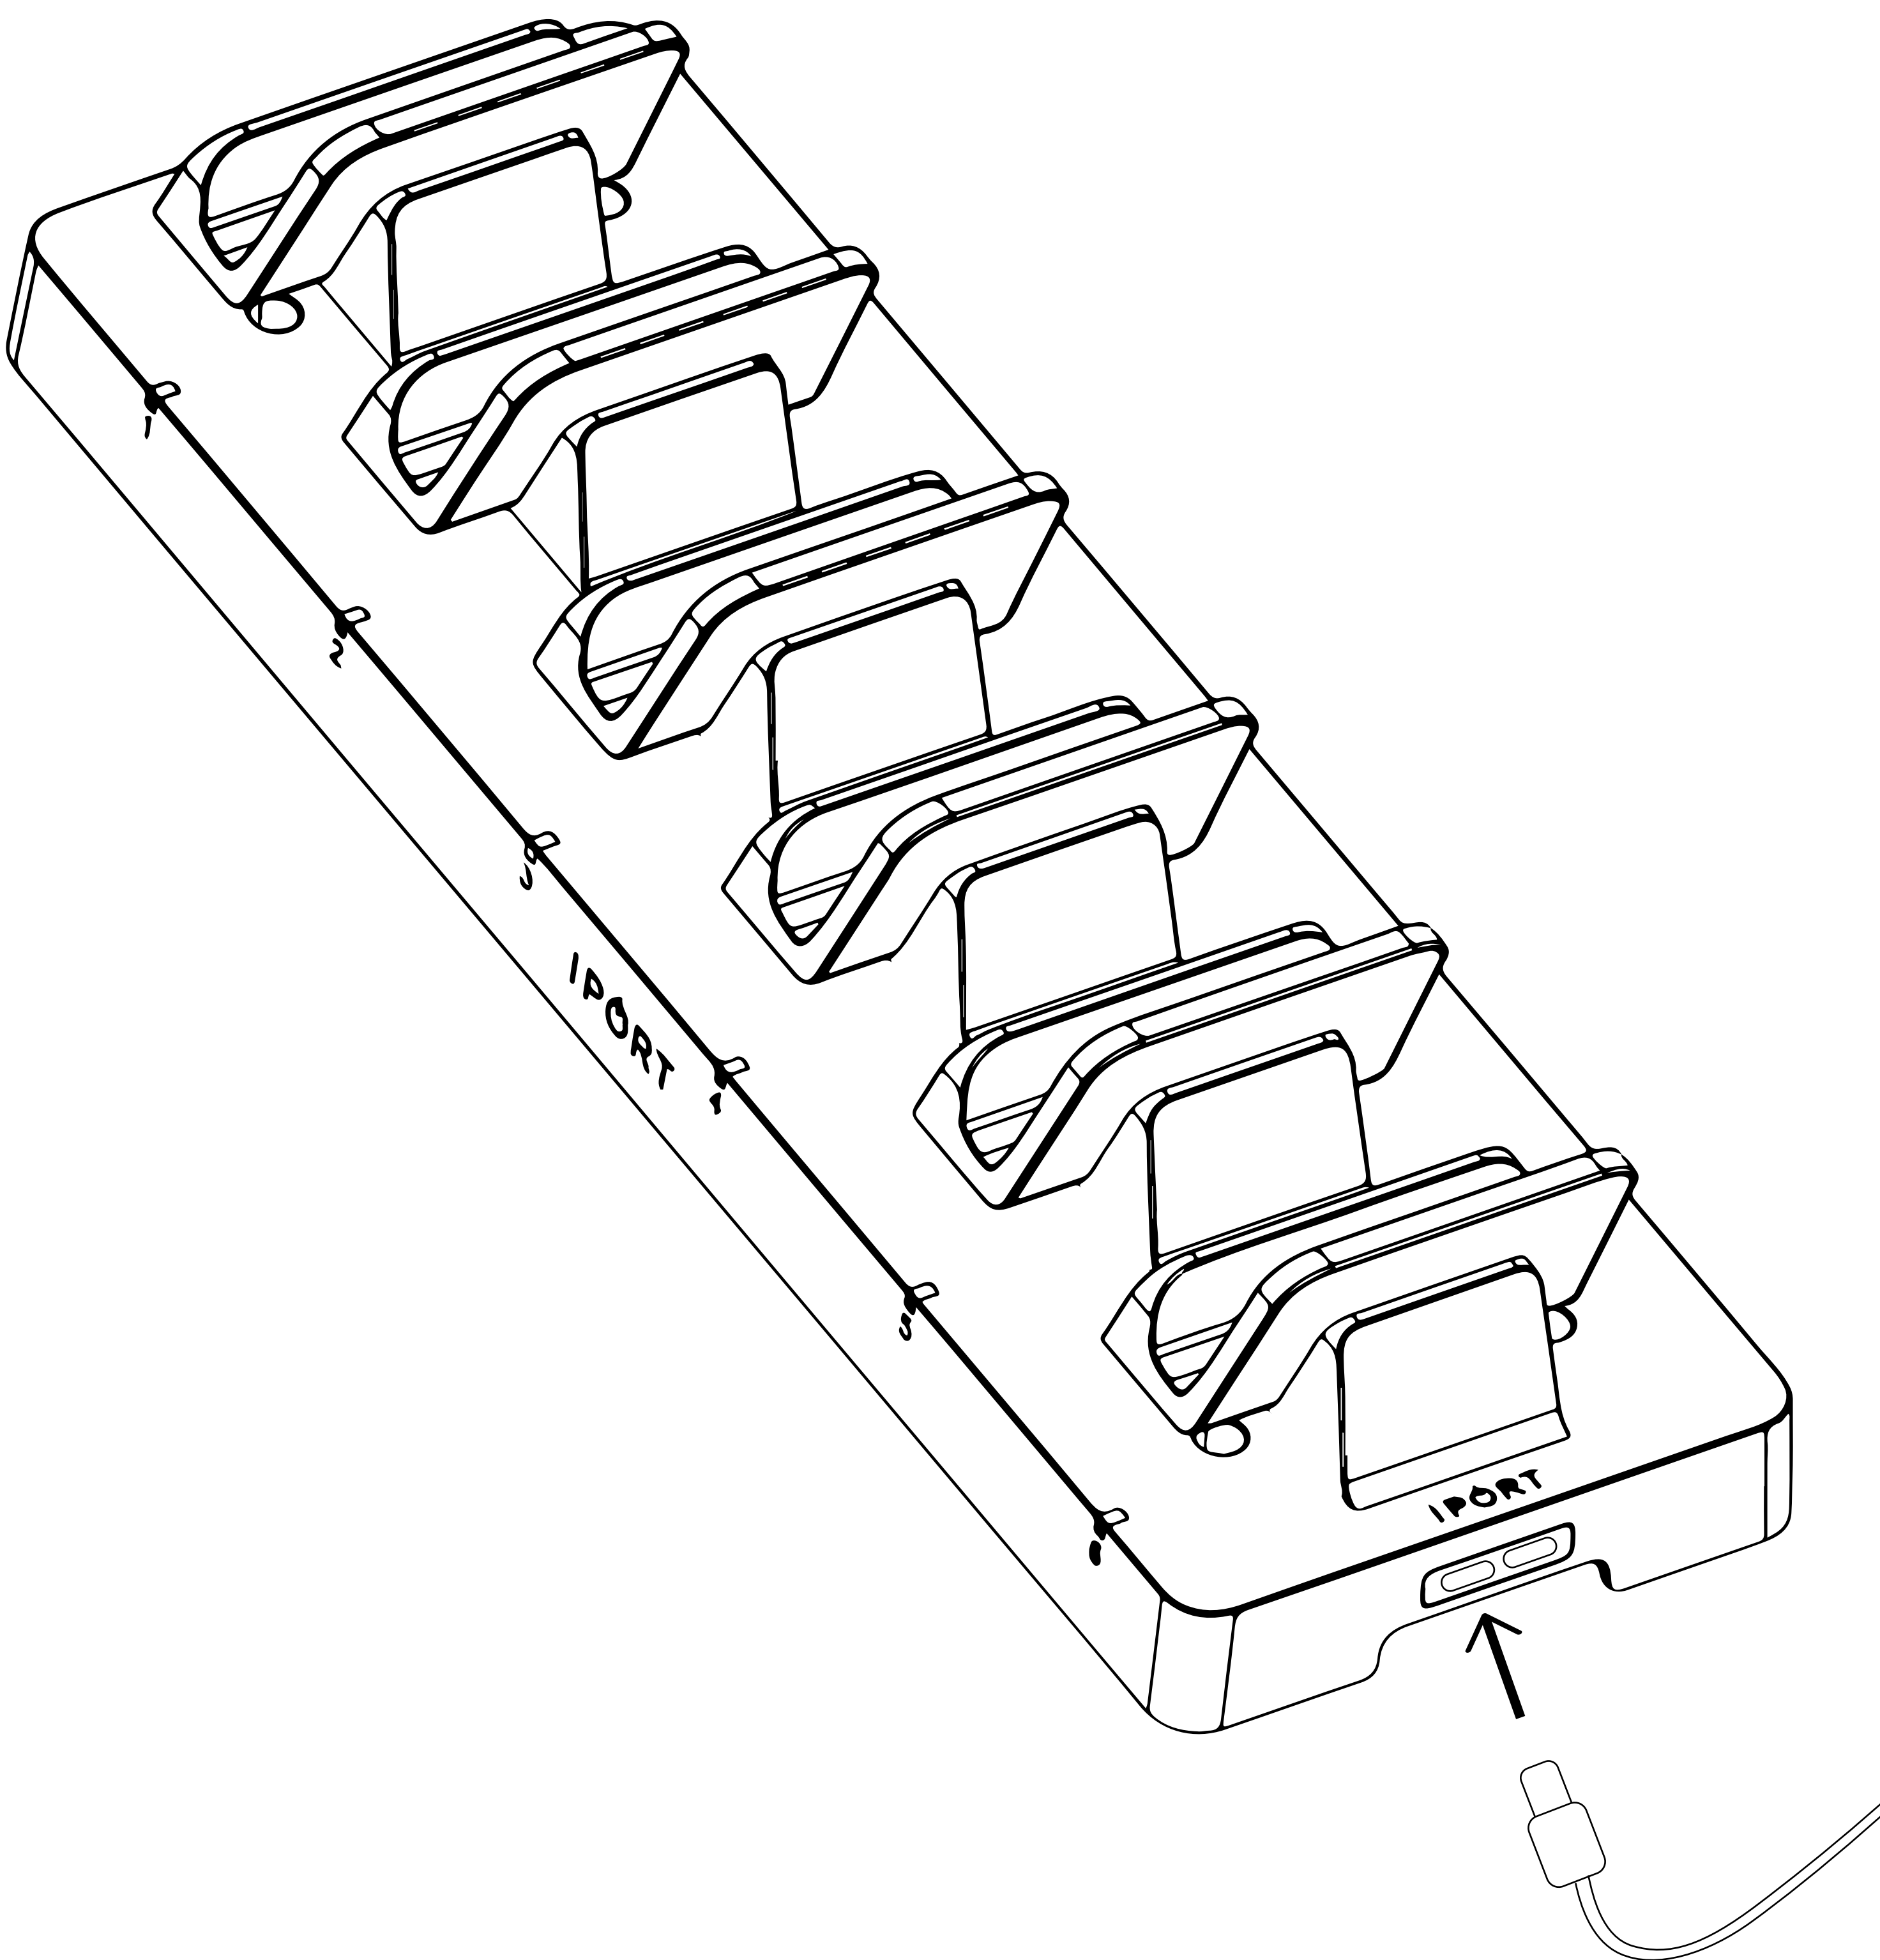

IPORT CONNECT

1. **Remove the Multidock and Power Supply from the box and place on a table.**

2. **Insert the DC Power plug into the bottom of the MultiDock and press the cable into the cable retention holders.**
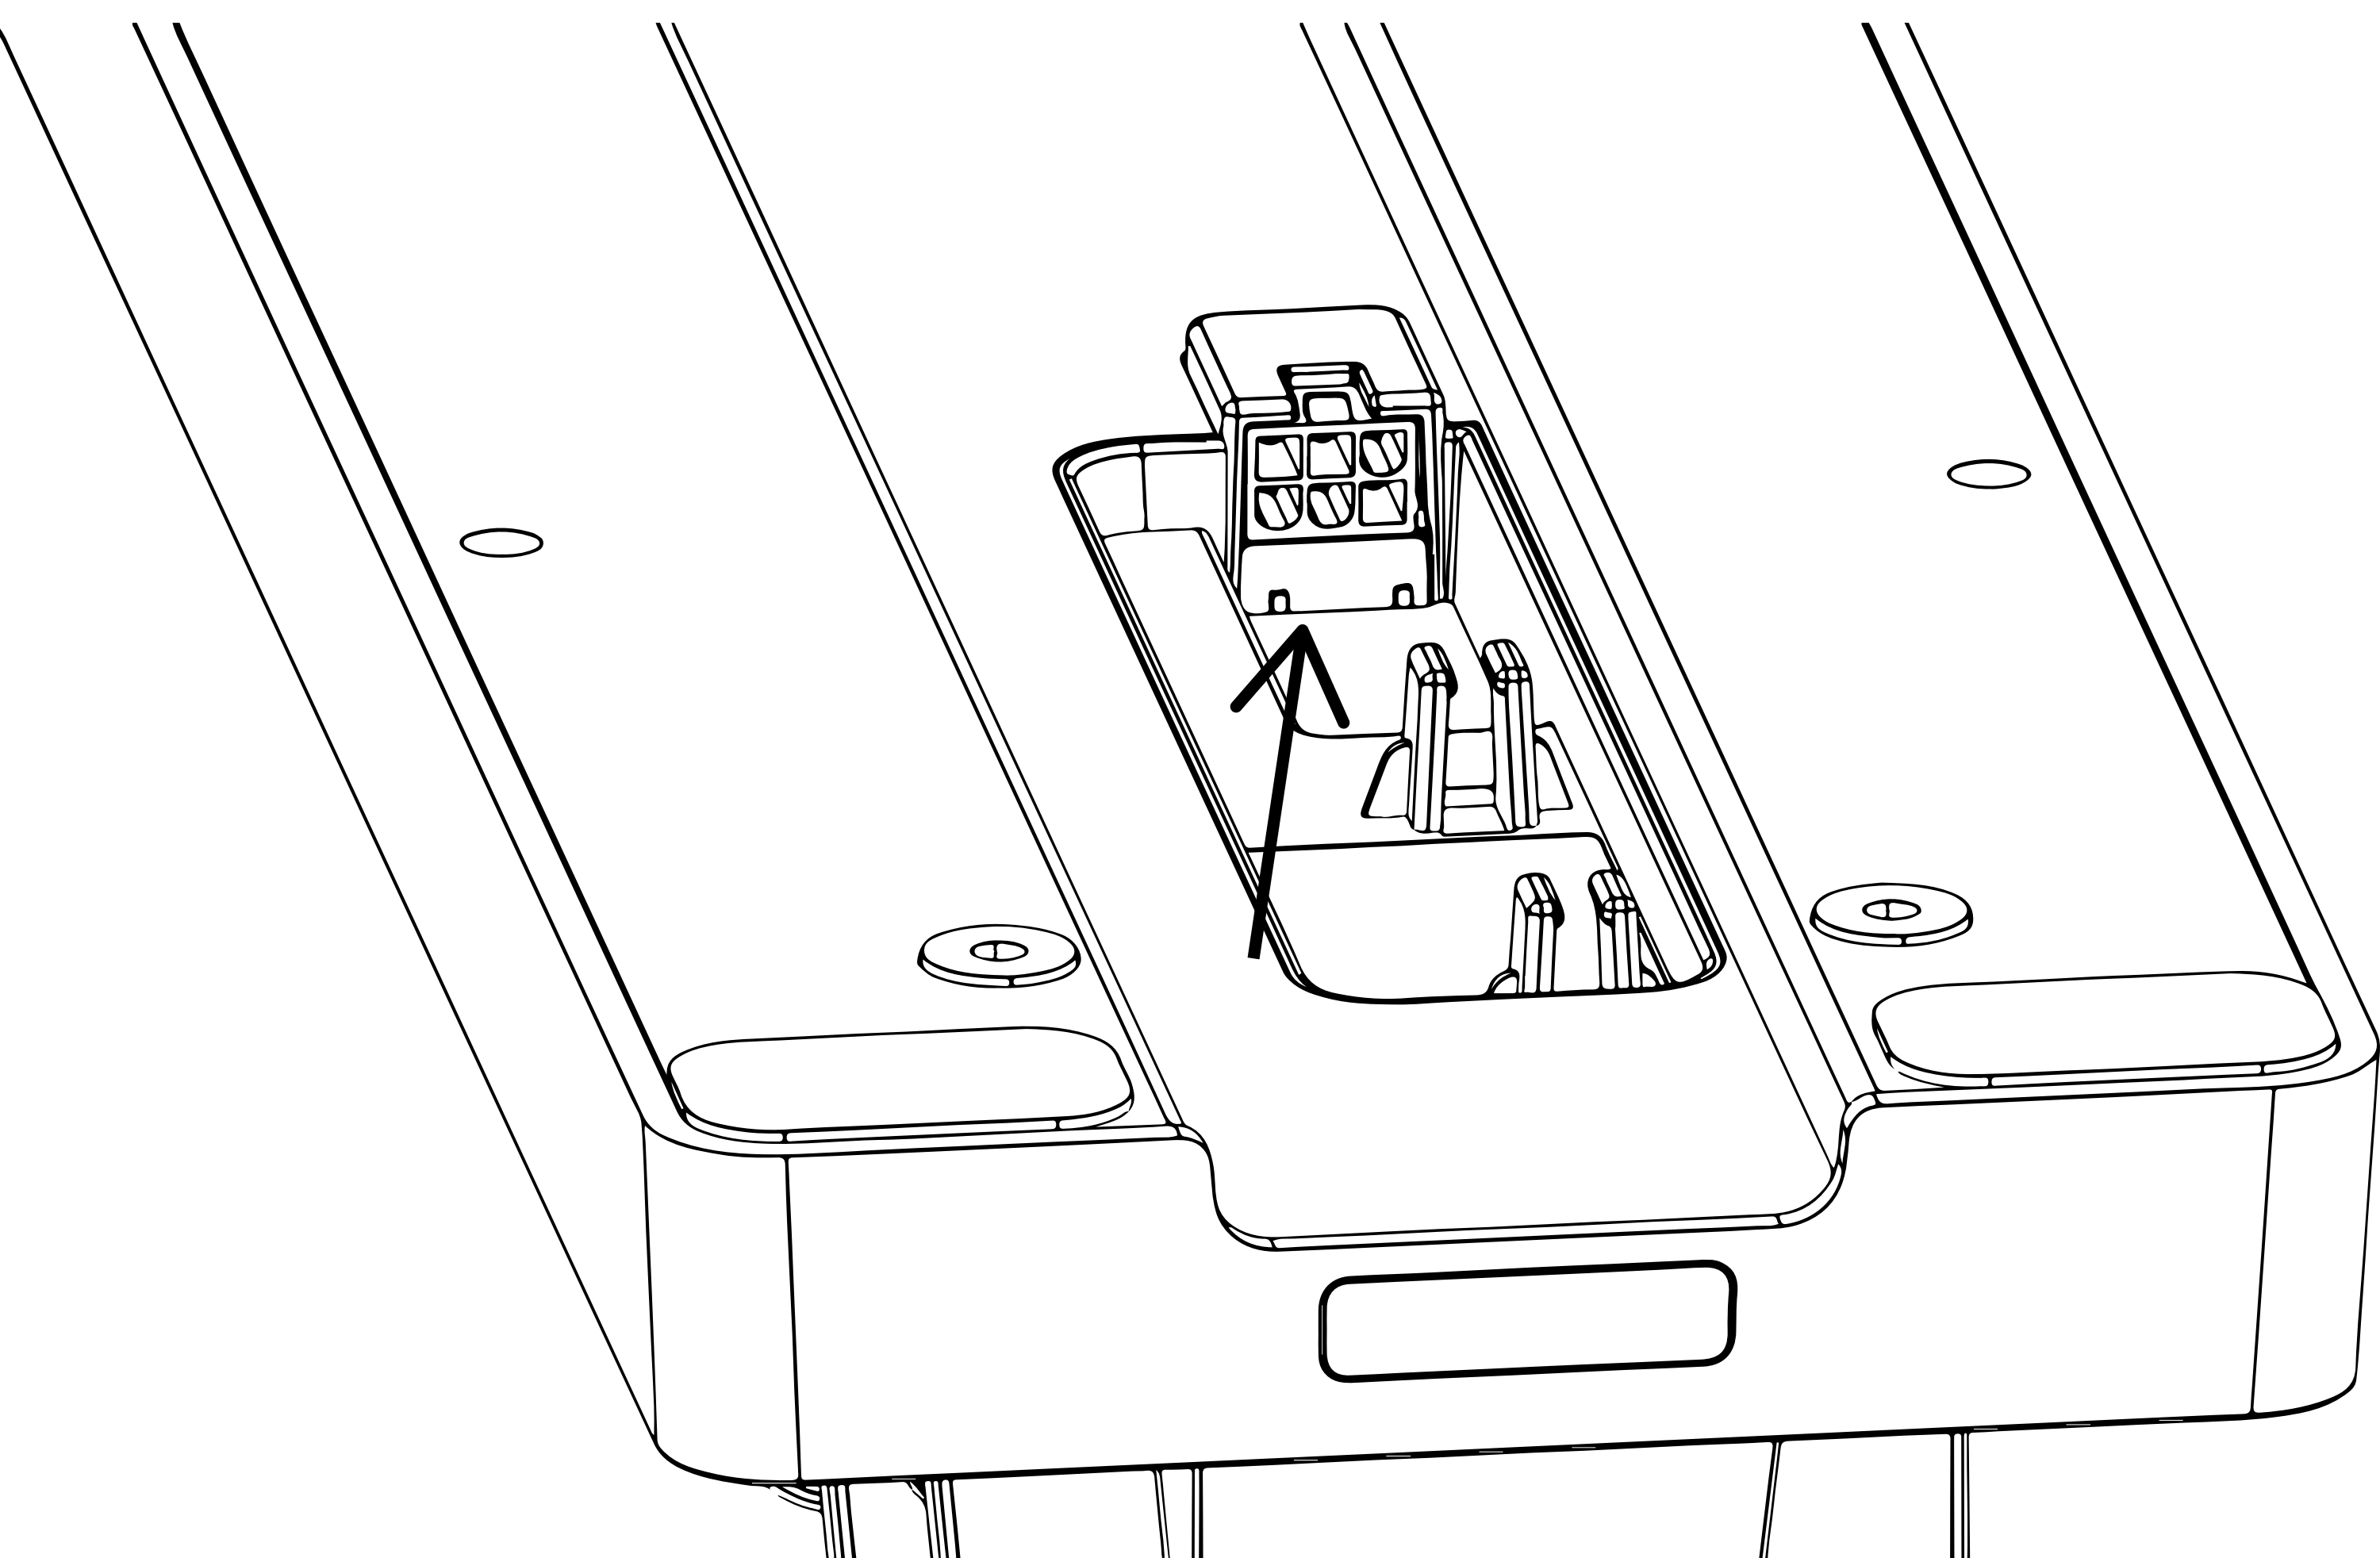

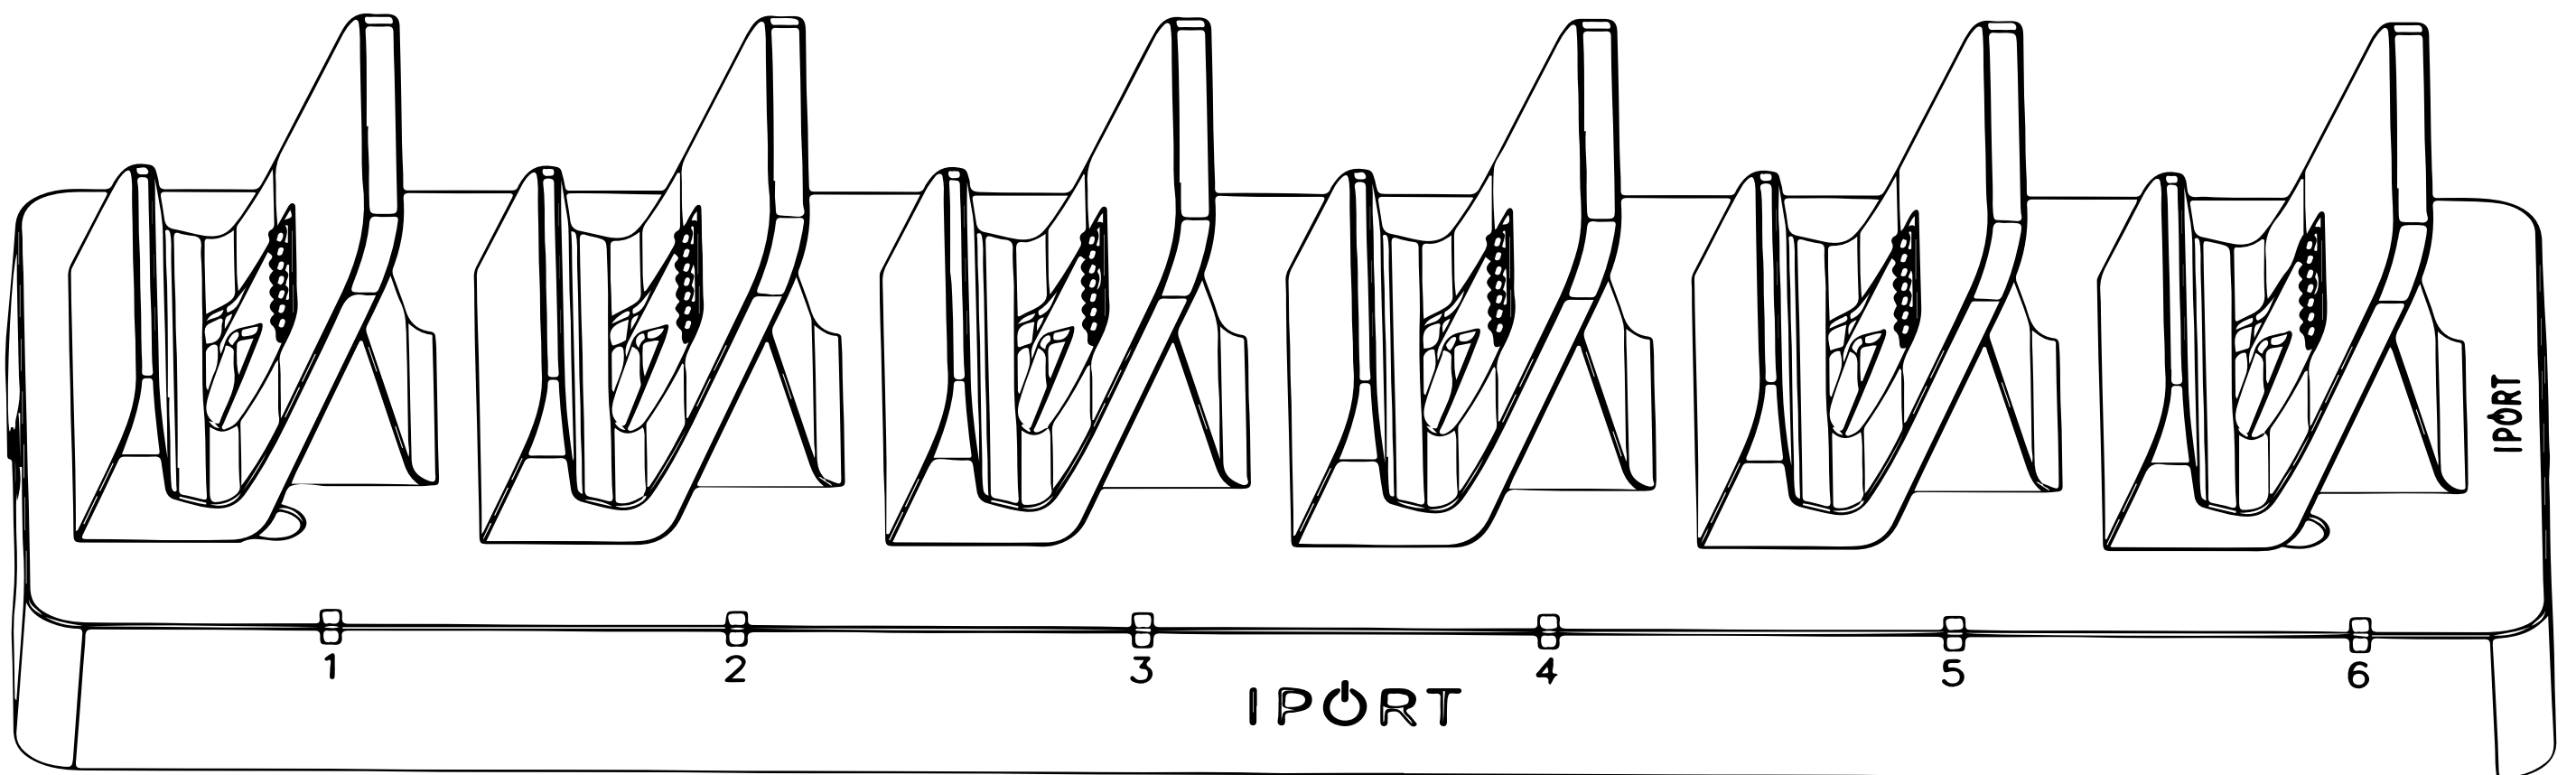

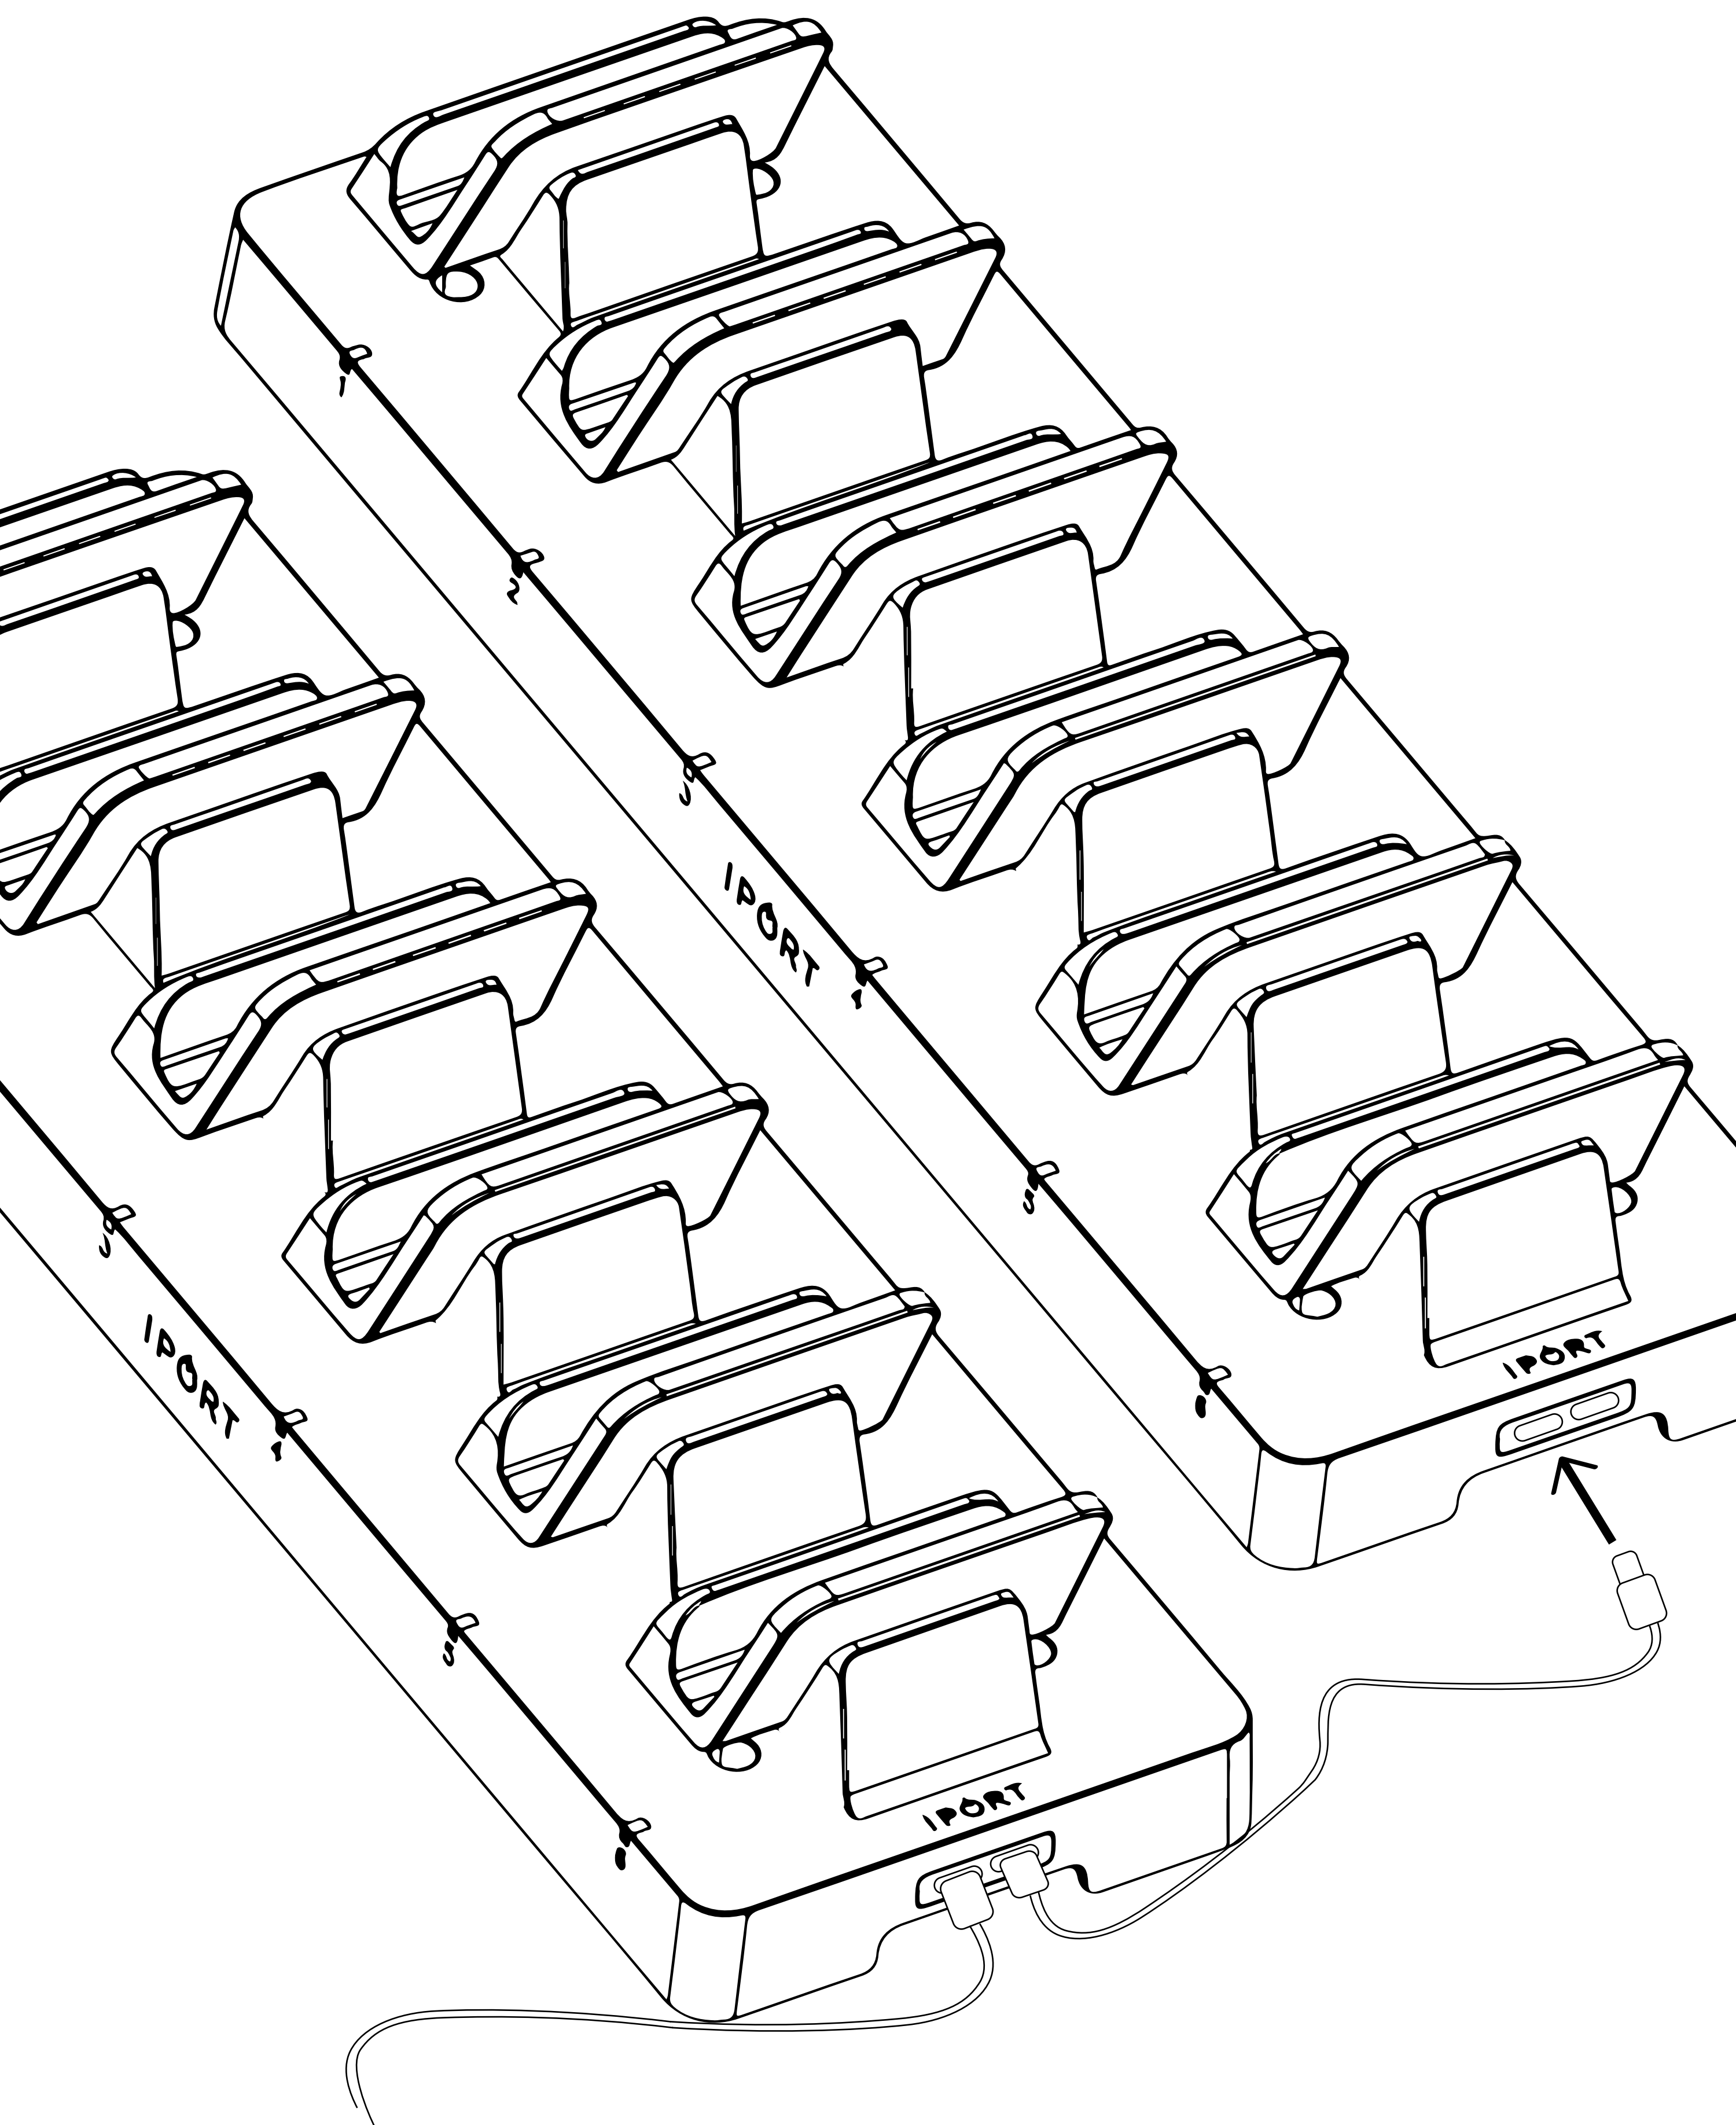

3. **Optional for 72300 - MultiDock SYNC 6: To enable syncing, con nect one end of a USB-C cable to the USB-C port on the MultiDock and the other end to a computer. This allows syncing of the iPads.**

4. Additionally use the second USB-C Port to plug in a second 72309 to link the two together. You can link up to 3 additional MultiDocks.
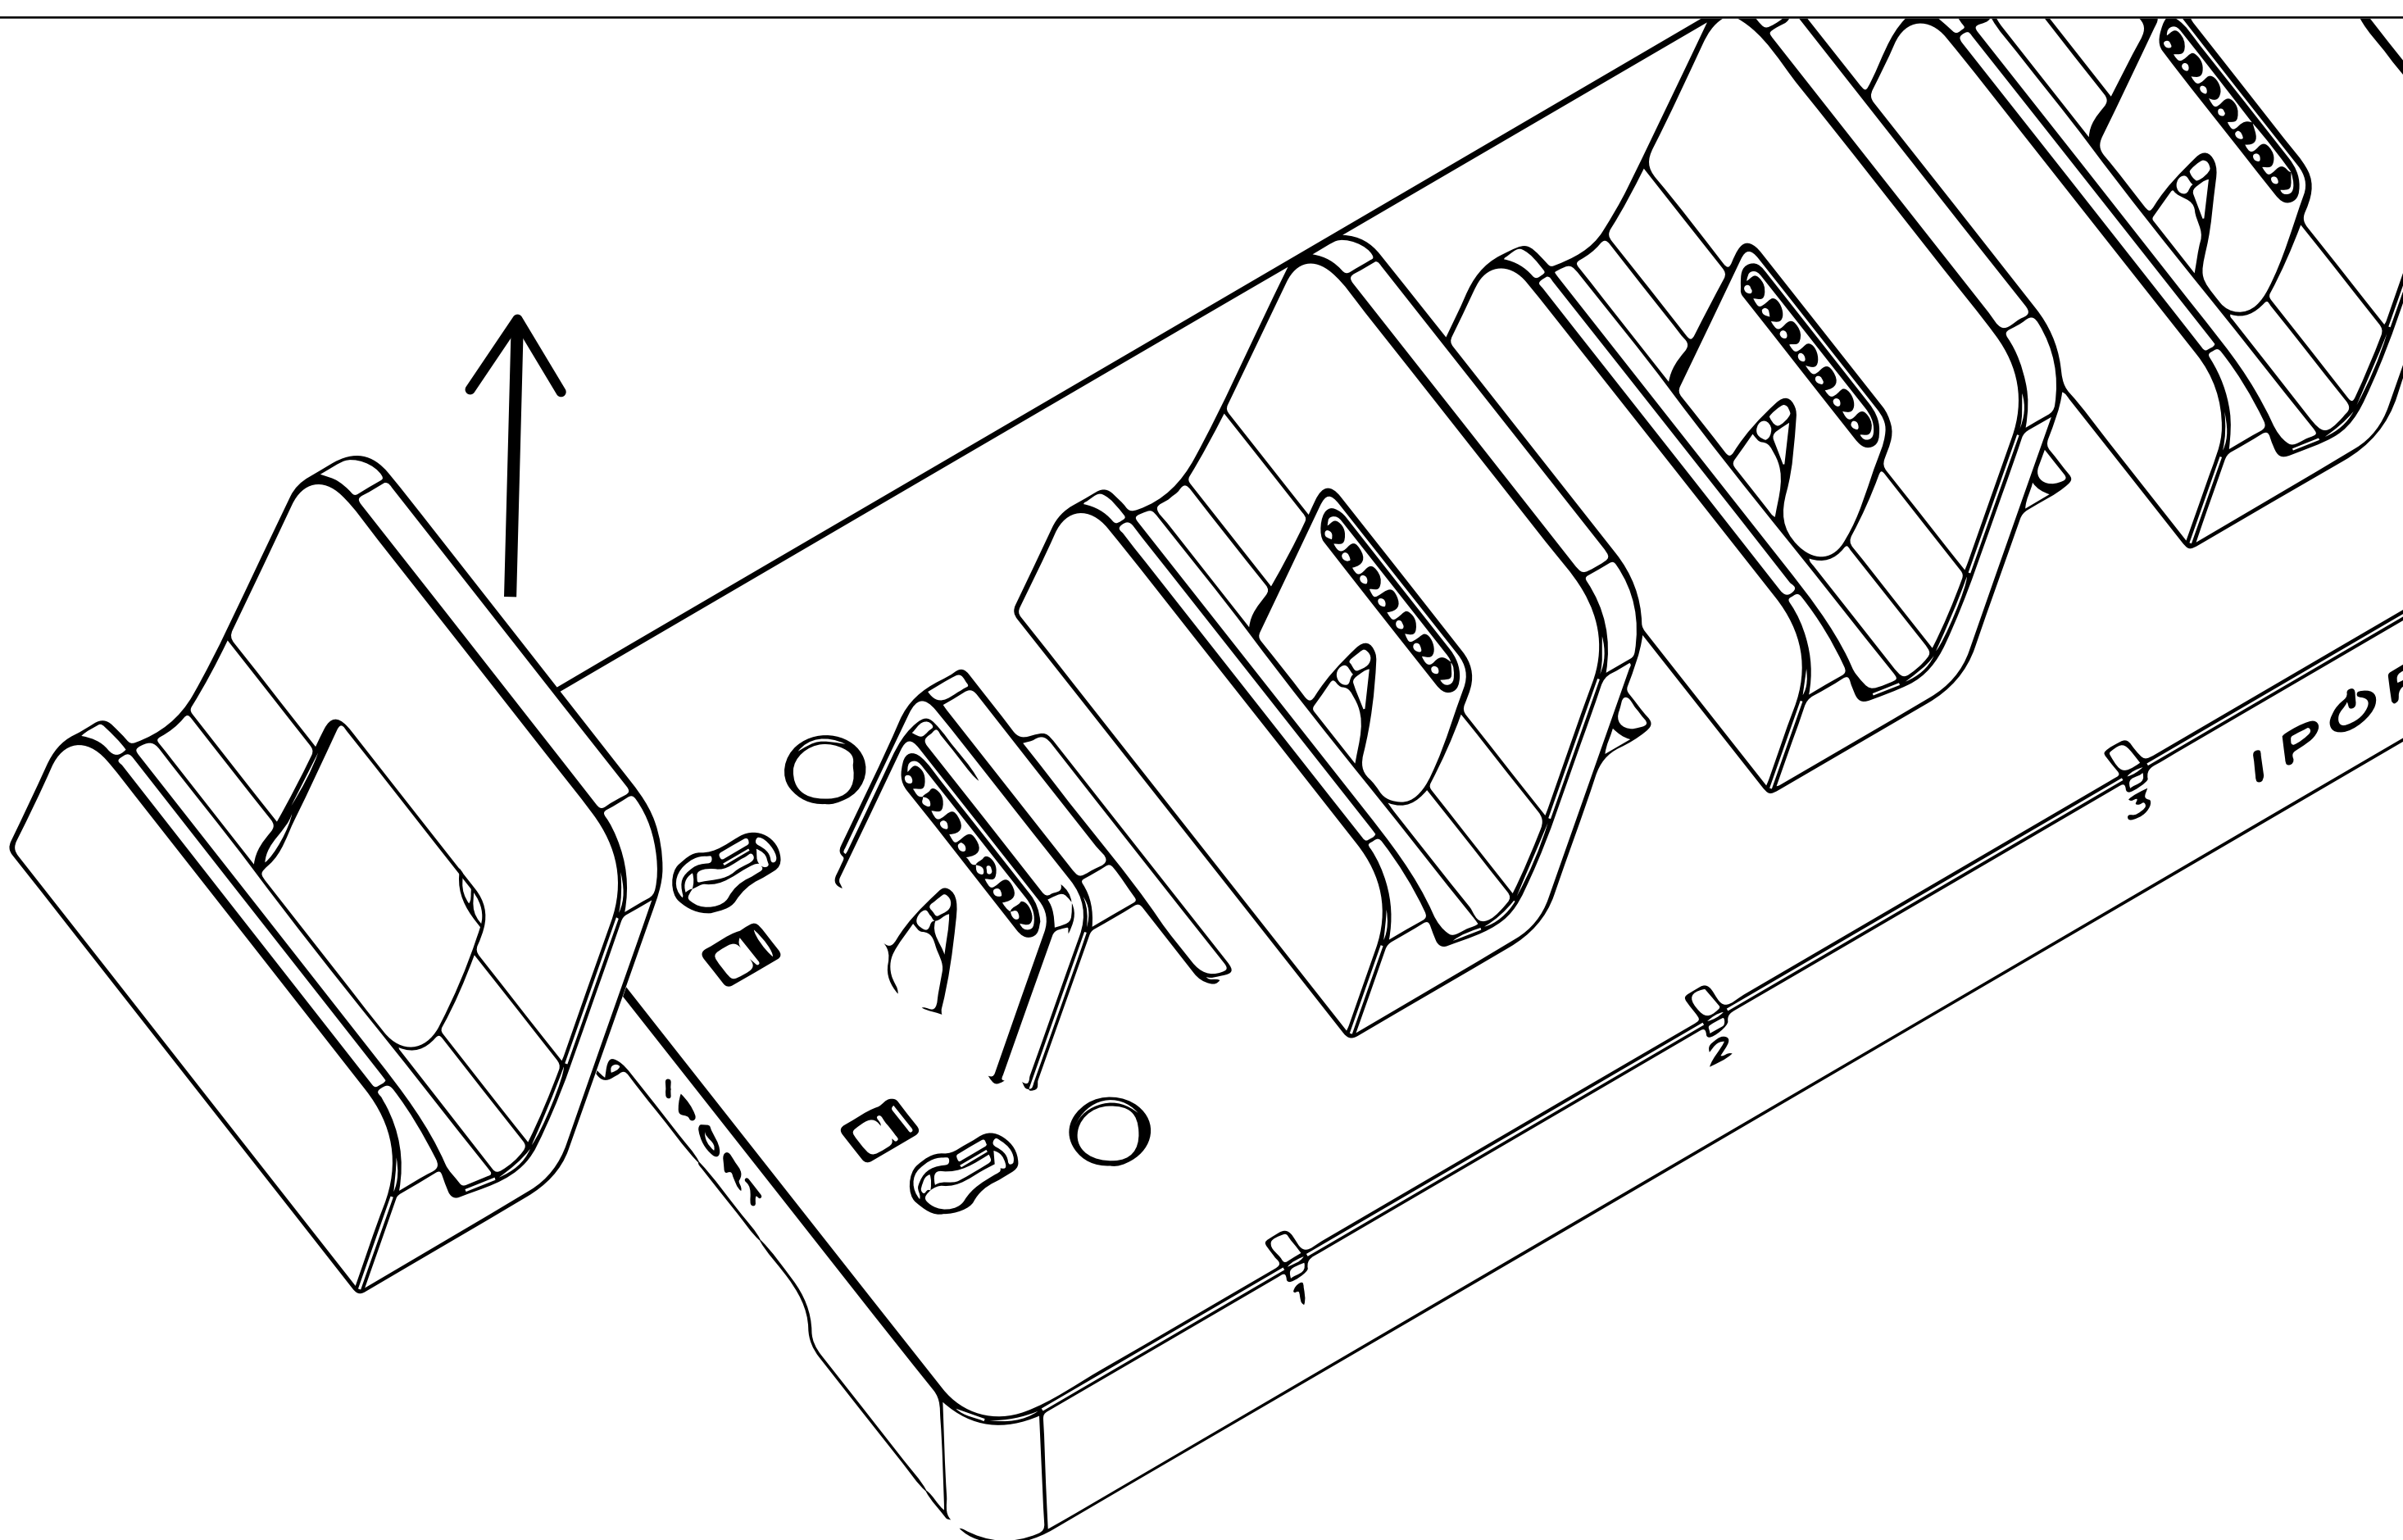

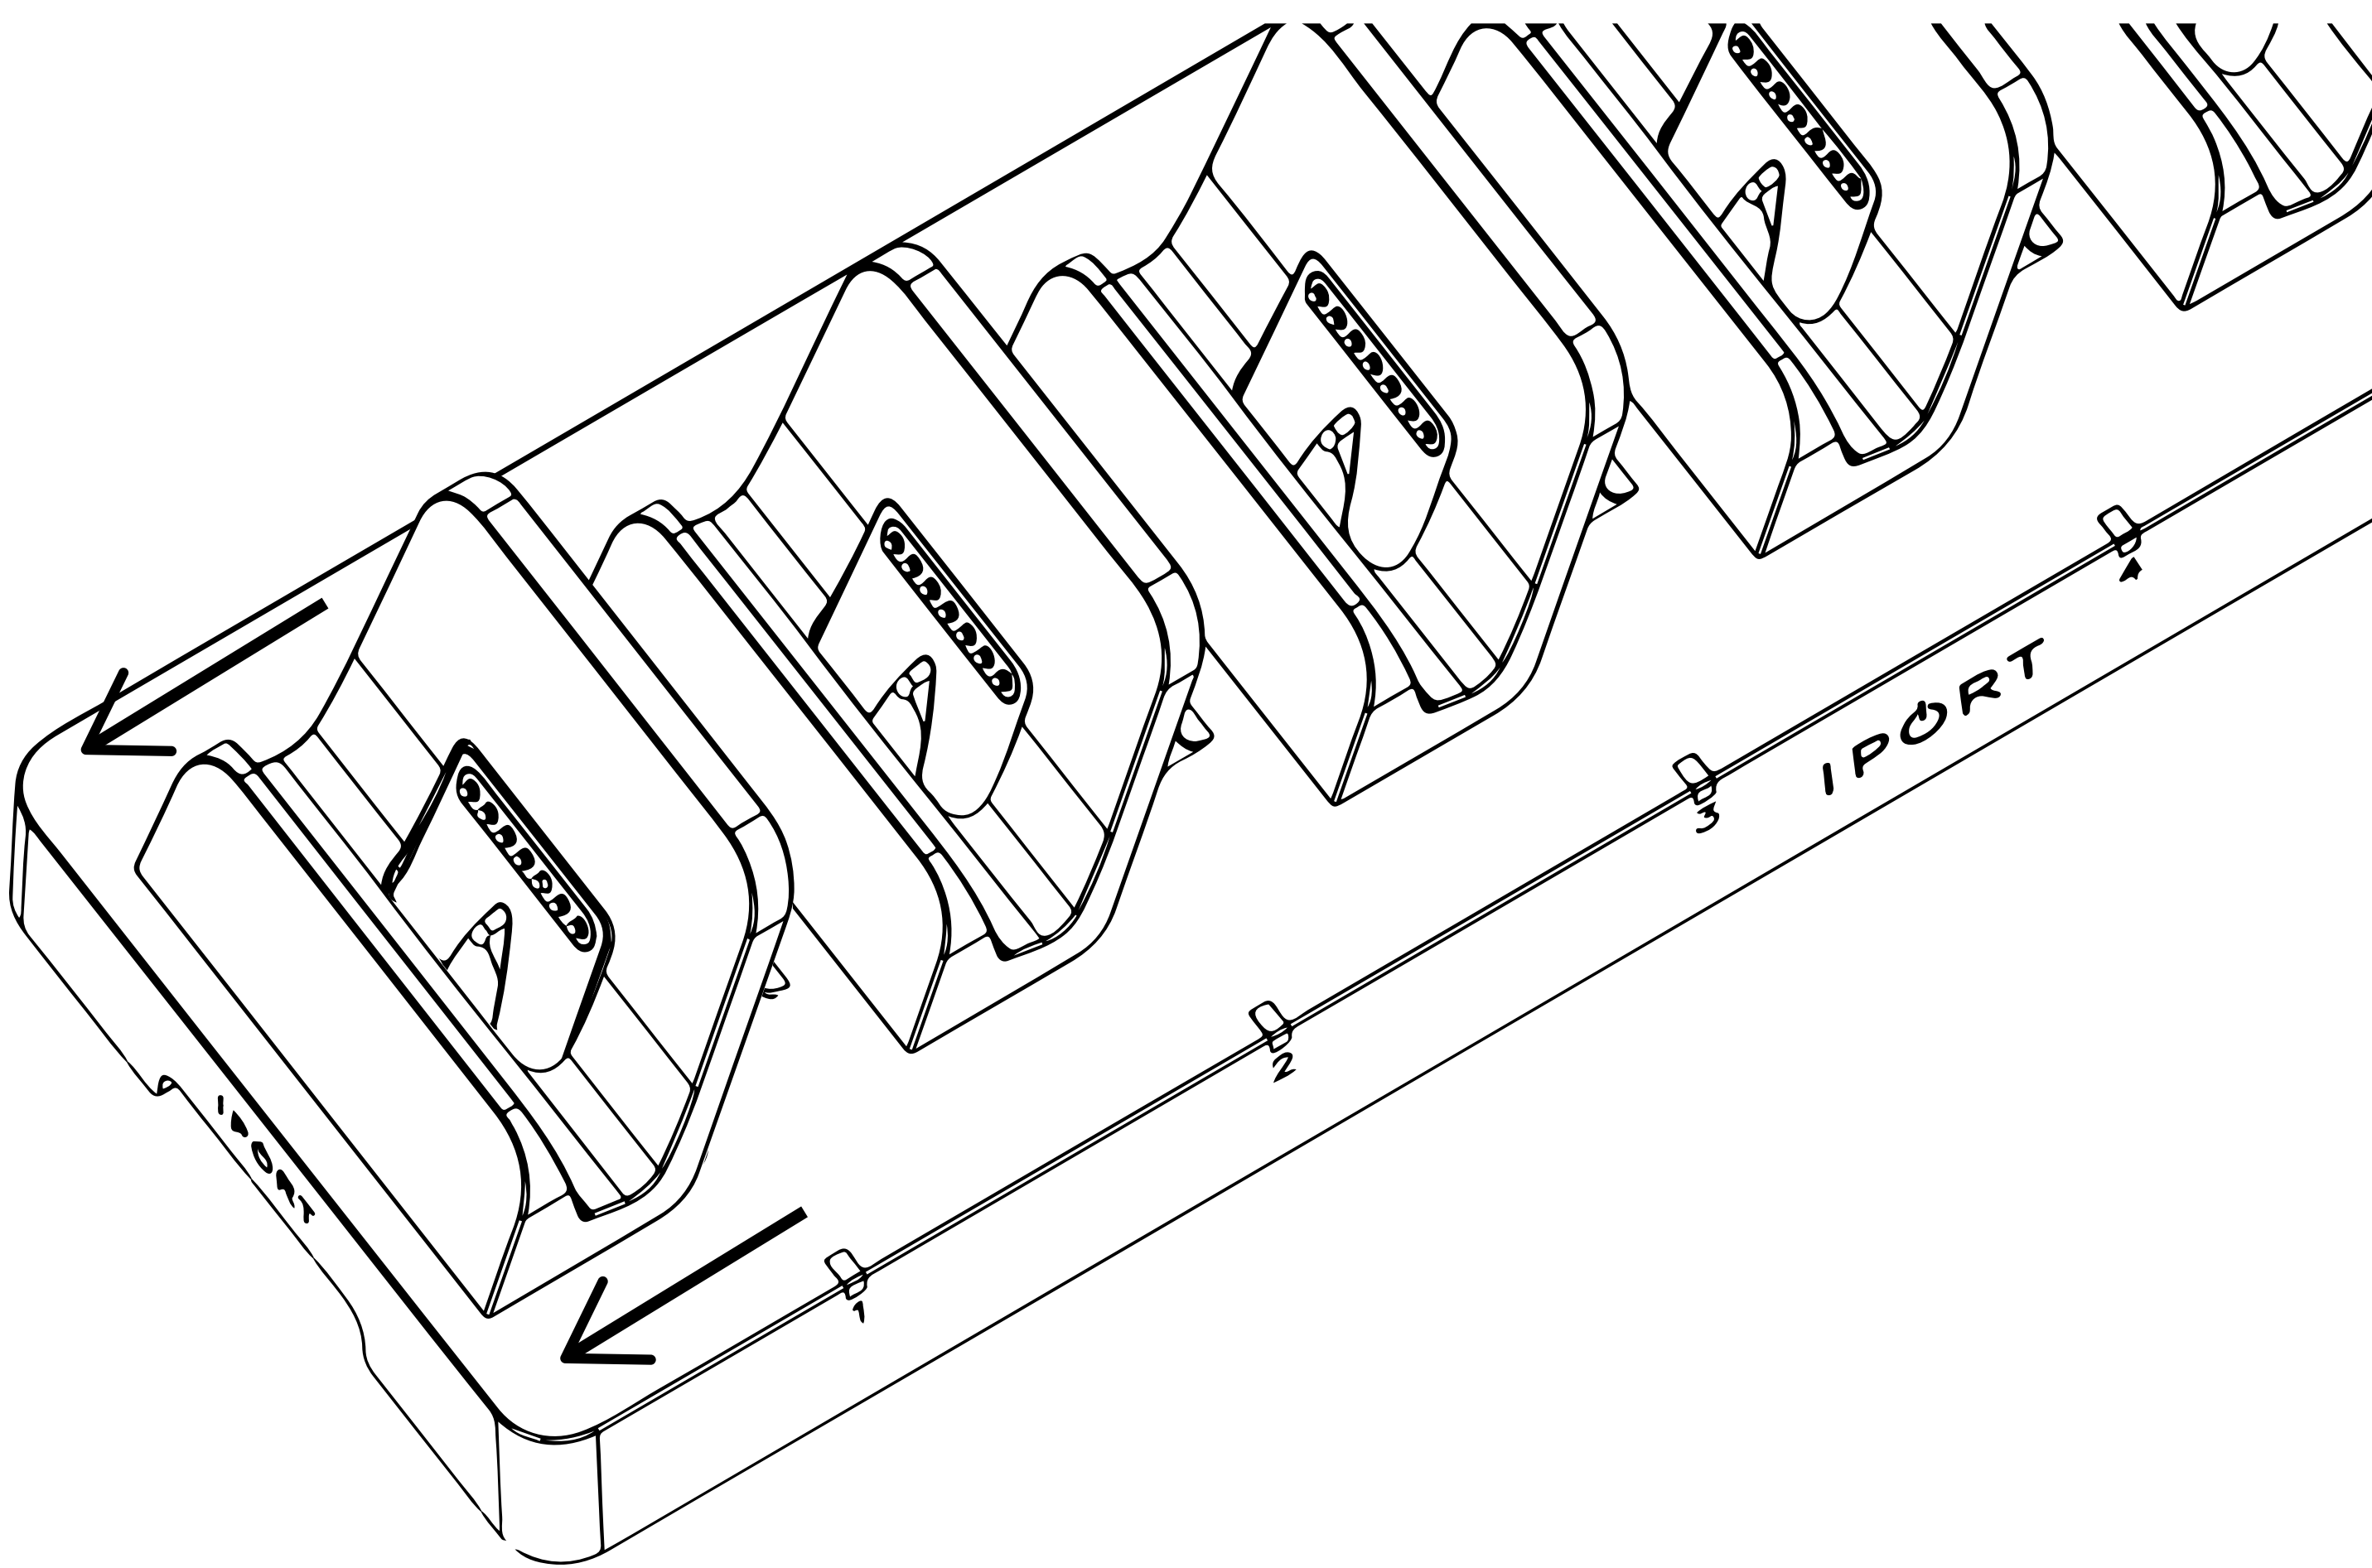

5. Optional - to securely mount MulitDock to a desk or table, remove the first and last charging cradles (see step 6), insert the provided screws through the four openings on the MultiDock and hand tighten with a screwdriver. Reinstall the charging cradles.
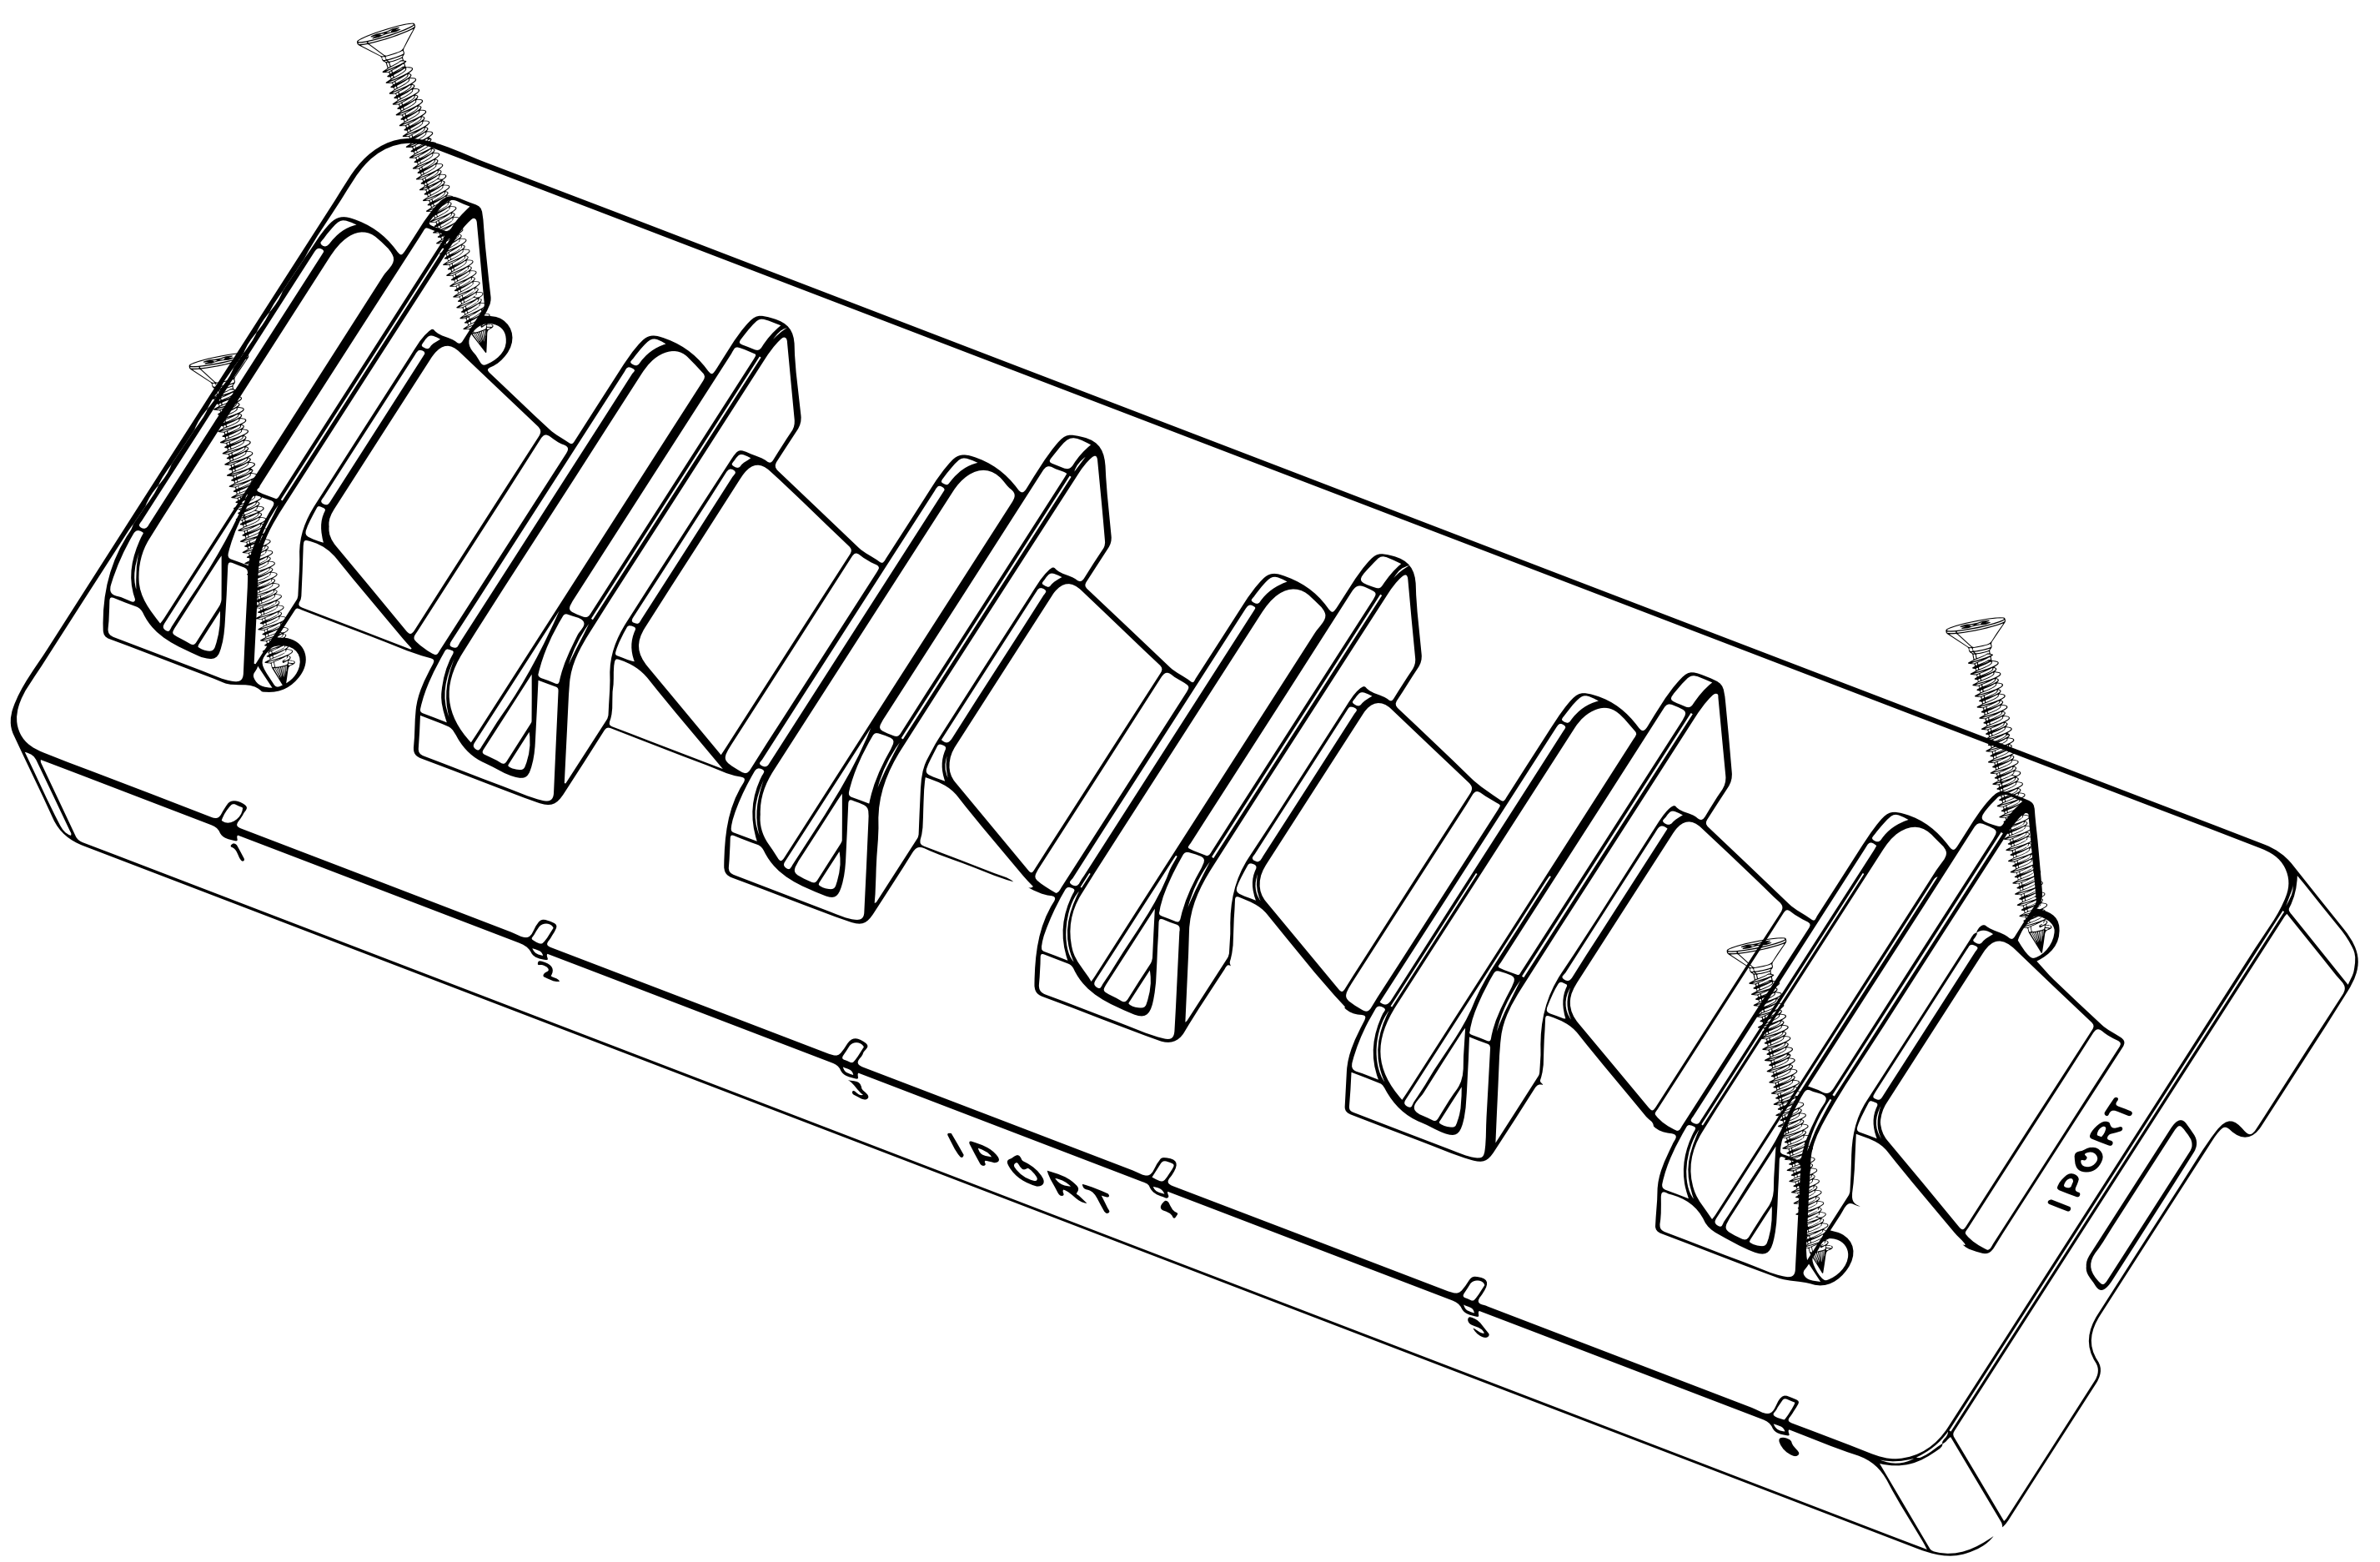

6. To remove or change the charging cradle, slide the cradle towards the front of the Multidock then pull up.

7. **To reinstall the charging cradle, place the cradle into the two holes in front of the dock and slide backward until the cradle snaps into place.**
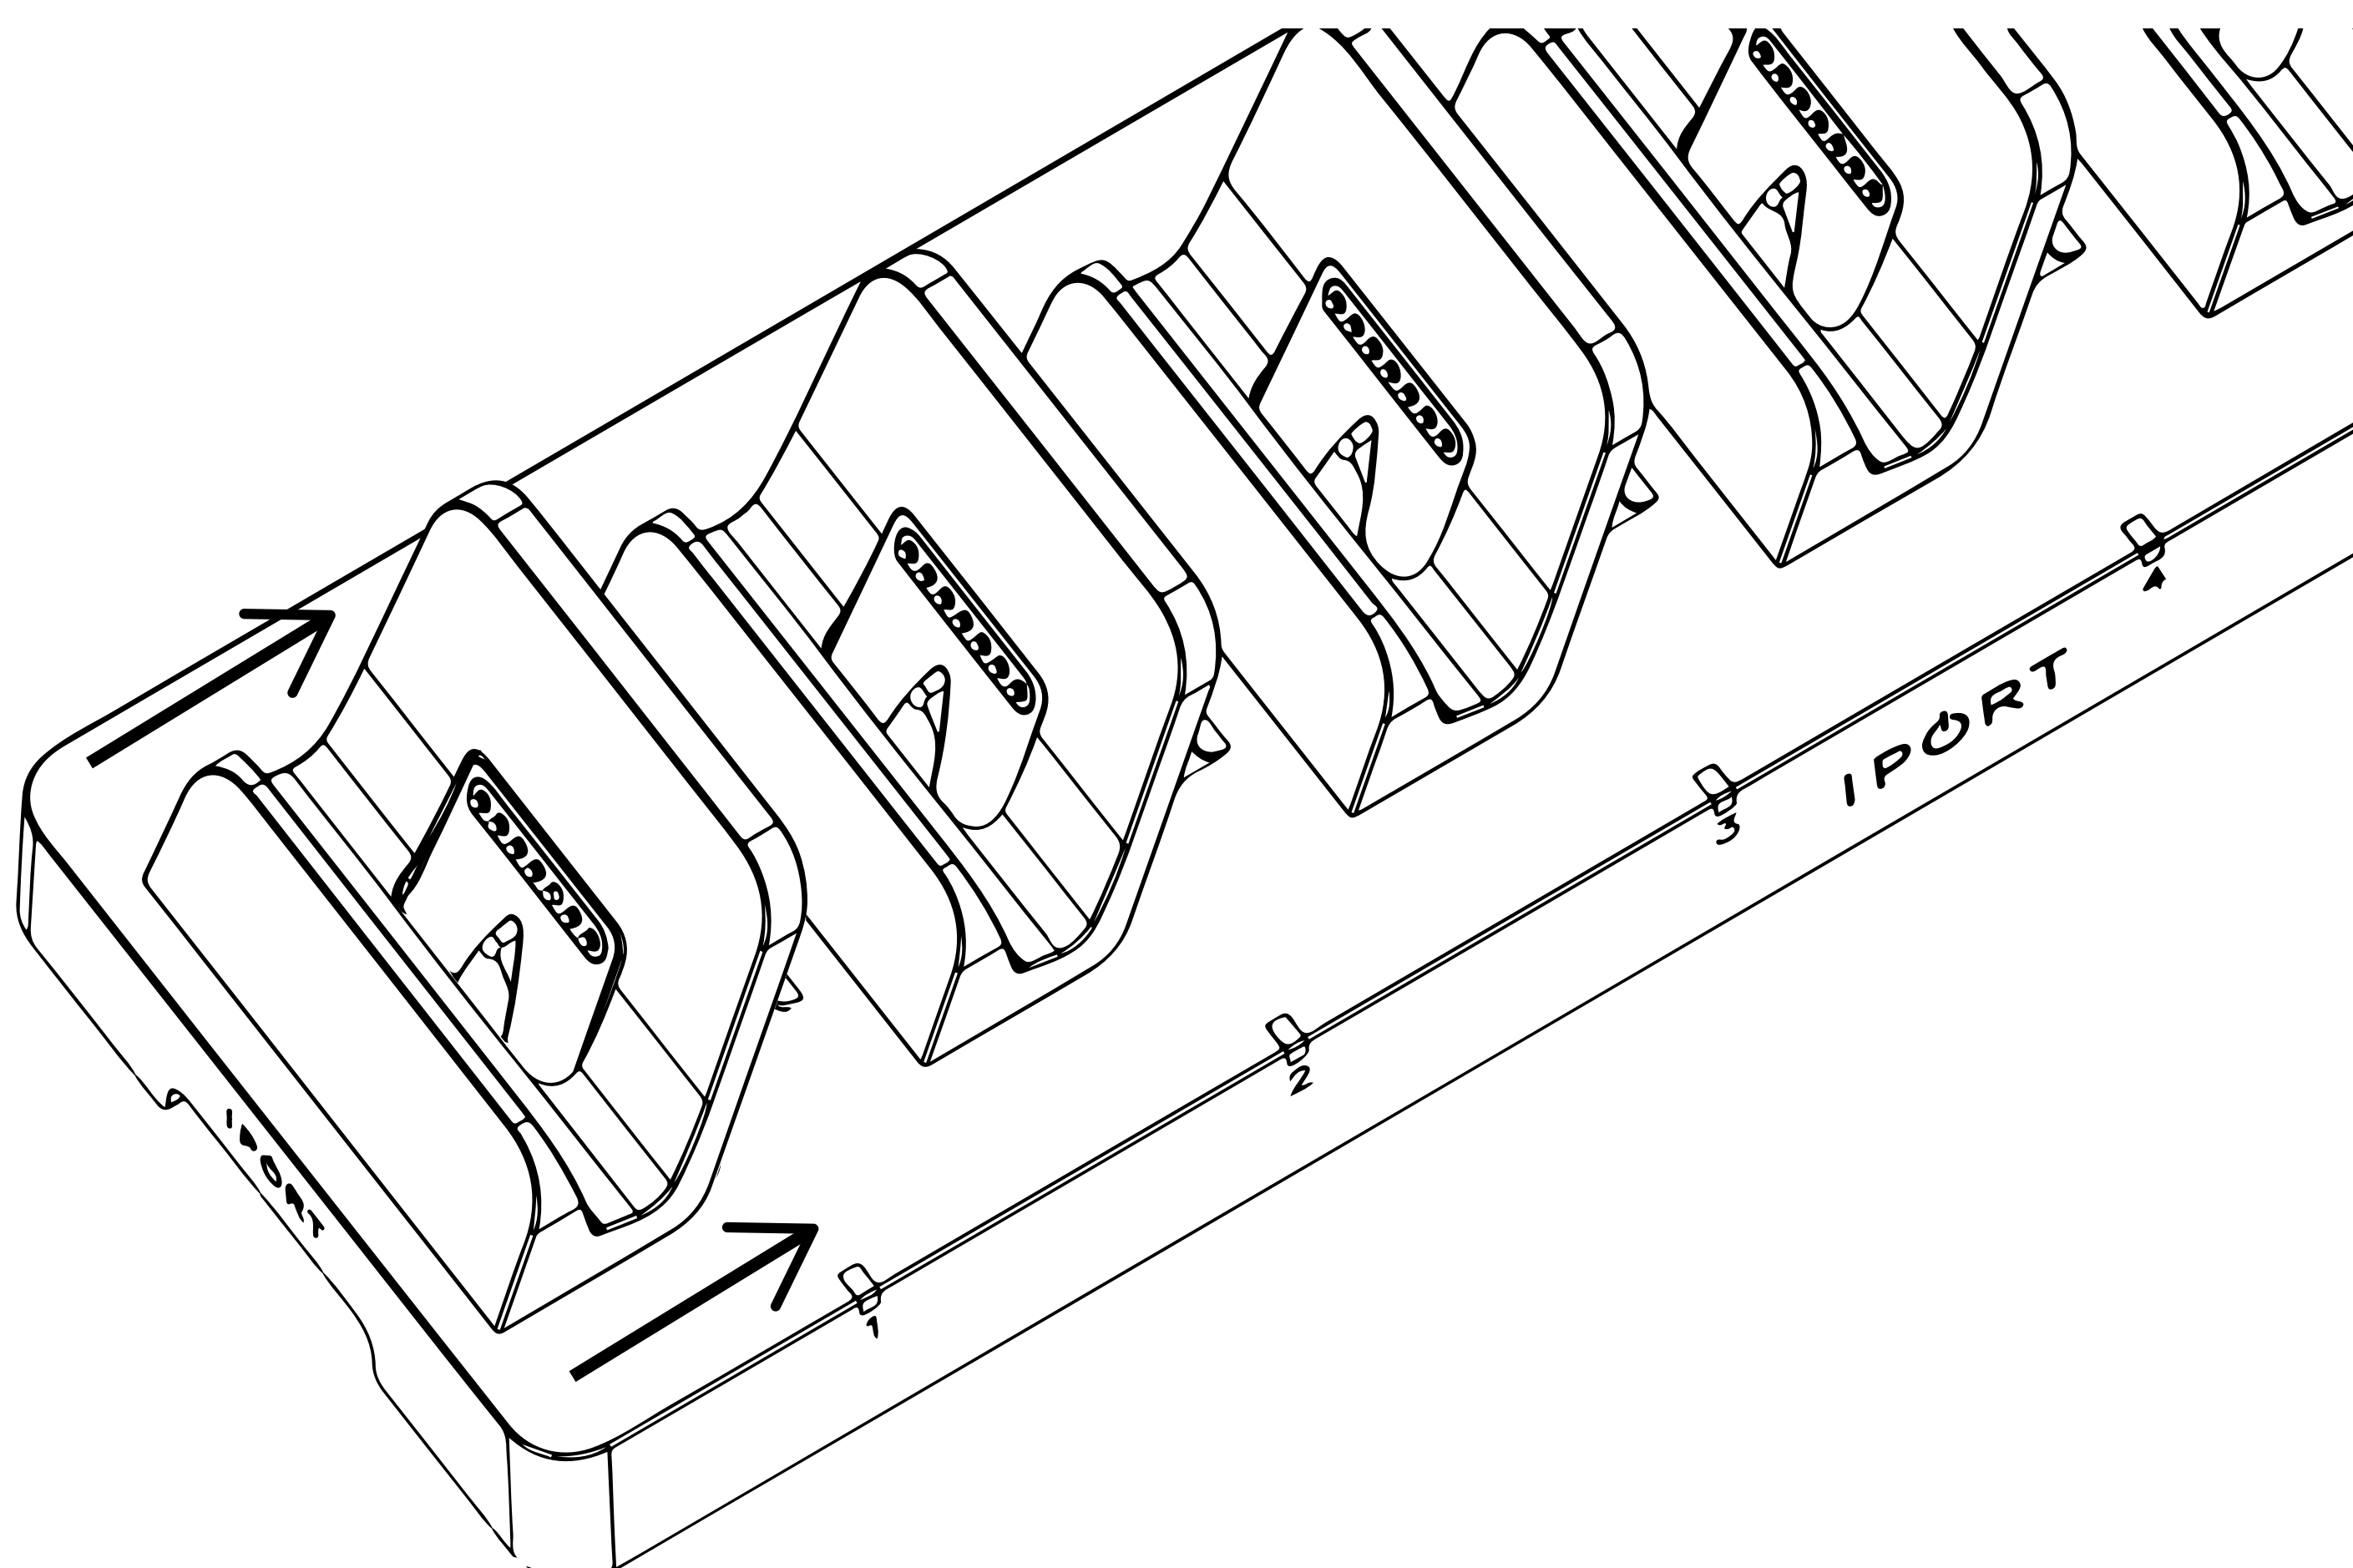

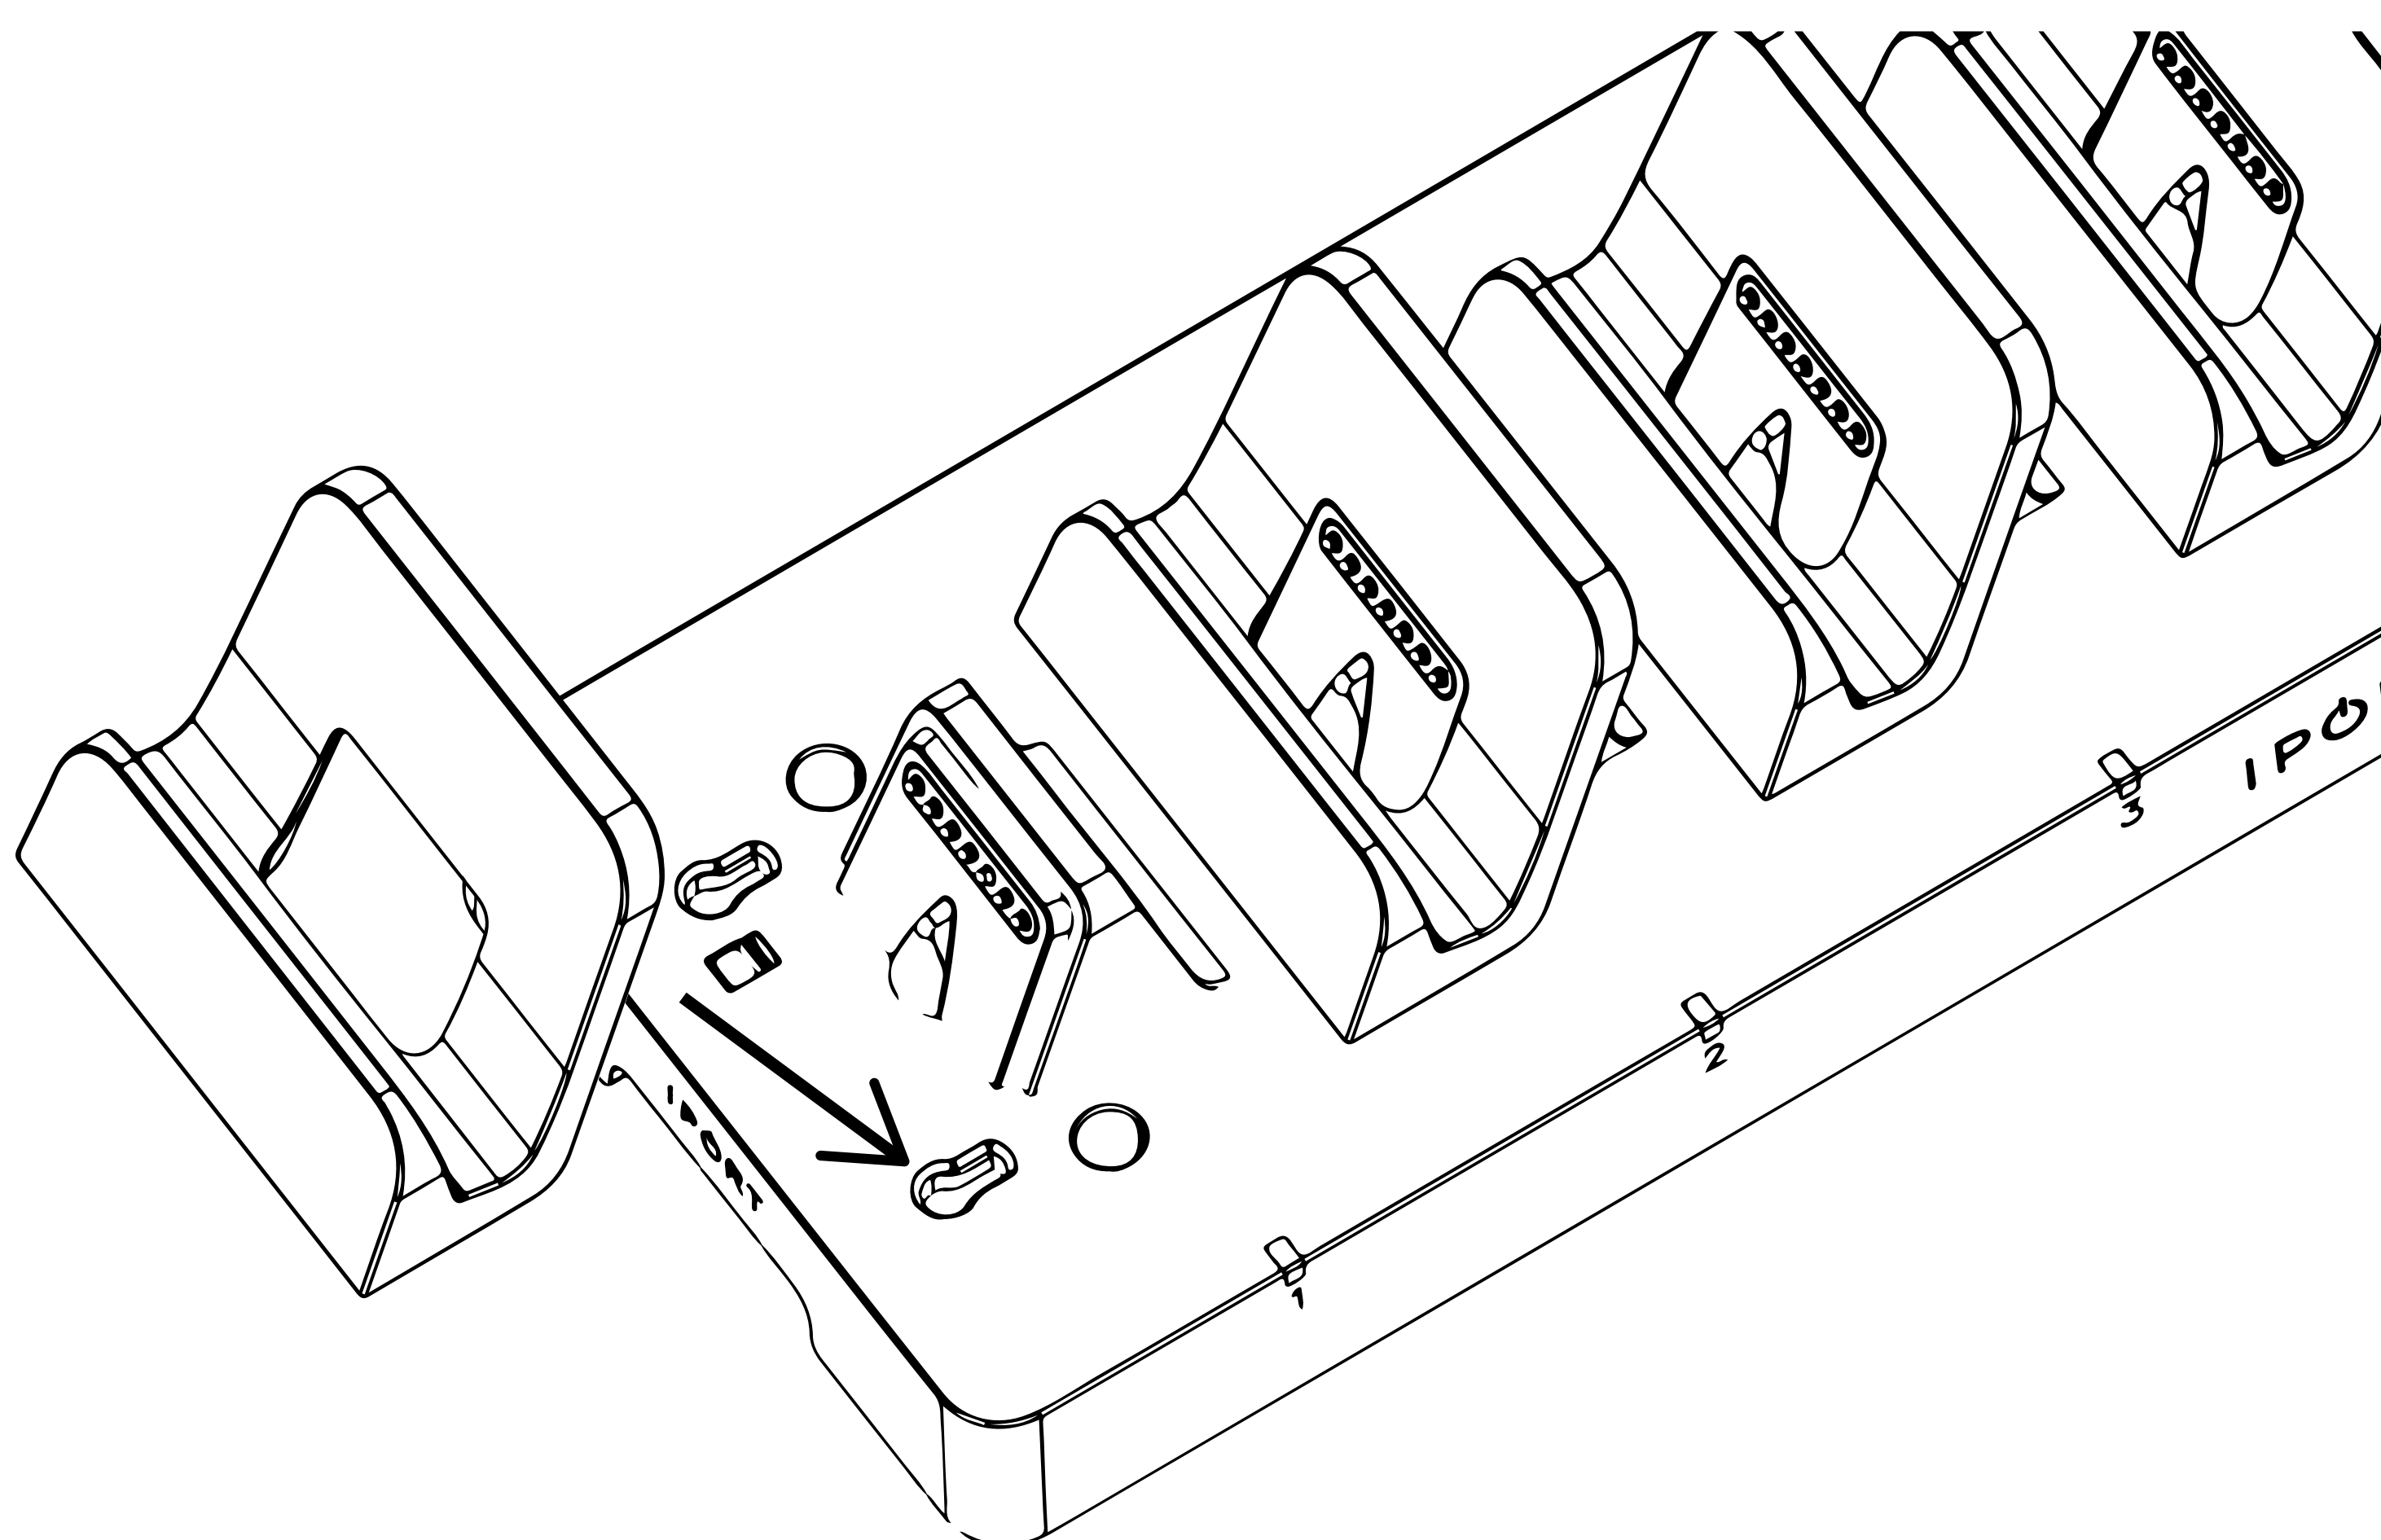

8. **Place the iPad facing forward into one of the 6 charging cradles. Make sure the cradle's alignment tab engages with the recess on the case to ensure proper alignment. The LED will turn on when the case is properly docked.**

Note: The LED's may take a few seconds to identify the correct charging status of the iPad. When the iPad is fully charged, the LED will change from red to green.
