

## S-RF1 Floor Stand

### Stands that perform

The S-RF1 Floor Stand provides the perfect platform for your speakers to perform. Designed to partner Reference 1 Meta speakers, they boast a mounting system with integrated cable management that allows wires to be hidden, a pillar that can be loaded with inert filler to further improve stability, and spike discs to protect wooden floors, these are exceptionally well-considered stands for an exceptional loudspeaker.

### Engineered to maximise performance

The S-RF1 Floor Stand has been engineered to maximise the acoustic performance of Reference 1 Meta, with its height dictated by KEF's UK engineering team. When mounted on the floor stand, the speaker's Uni-Q driver array is located at precisely the same height as those on the floorstanding models in the range, which also enhances system cohesion when used in a home theatre set up.

### Perfectly match for Reference 1 Meta

The S-RF1 Floor Stand offers a visually harmonious design that seamlessly blends with the Reference 1 Meta. Mimicking the Reference 1 Meta's aesthetics, the stand features a metallic deco panel, creating a cohesive and elegant look. The S-RF1 Floor Stand is available in two finishes, Carbon Black and Mineral White.

### Specifications

Dimensions with plinth (H x W x D)	542 x 260 x 387 mm (21.4 x 10.2 x 15.2 in.)
Weight	7.95 kg (17.5 lbs) per stand
Unit measurement	Pair
