

TOP TIP: To quickly freshen up the scourers, pop them in a suitable container with some clean water and microwave for 30 seconds or so... wait a minute or two before removing as they'll still be hot.

Spontex products are designed and tested to high standards.

USAGE GUIDELINES: Test on an inconspicuous area of the surface to be cleaned before use. Machine washable up to 40°C.

WARNING: To avoid suffocation please keep this wrapper away from babies and small children.

EFFICIENT & ULTRA FLEXIBLE

2 Flexy Fresh

Spontex Flexy Fresh sponge scourers are efficient and ultra flexible. Thanks to their special scouring surface and exclusive wavy shape, they can be twisted and scrunched up to get into all those awkward spots like the bottom of glasses and saucepans. They are non scratch too making them ideal for all your washing up, even the most delicate.

DID YOU KNOW?

The scouring side has a special treatment that provides 99.9% antibacterial protection meaning the scourers stay fresh for a long time*.

When it comes to the environment, at Spontex we don't throw in the sponge!

Our Flexy Fresh sponge scourers can be washed and reused multiple times. When they are no longer fit for their intended use why not find them a new purpose like cleaning shoes.
