Important Information about the Tattoos and Markers

The tattoo transfers and the tattoo markers are specially formulated from water-based, non-toxic, skin friendly inks. Tattoos will wear off in 1-3 days. They can be removed by applying adhesive tape and peeling it off as shown, or by applying rubbing alcohol on a cotton ball and dabbing them off. They can also be removed using plain old soap and water and a little soaking and scrubbing.

SENSITIVE SKIN WARNING - IF YOU EXPERIENCE ANY REDNESS OR SKIN IRRITATION WHEN USING THE TATTOOS, DISCONTINUE USE AND REMOVE THE TATTOO IMMEDIATELY.
