DIVE Integrated Chemistry & Physics
Sample Lessons Week 1 & 2

Watch the **Getting Started Video**

Sample Lab Pages

1. Select the link here: Sample ICP Lab Manual
2. Print or view the pages for the lessons you want to complete.

Assignments

The Teacher Guide for detailed instructions for each assignment.

1. **Terms Flashcards**

   Click the link, then **Flashcards** (top left), and **Both Sides** (right menu). Read through the cards twice, change to **Definition First** and try to come up with the term. Do this several times each day.

2. **Reading Assignments:**

   Internet Textbook Click the link in the chart below and read as instructed.

   Physical Textbook If you are using a physical textbook, find the Reading Syllabus for your text on page 5 of the Teacher Guide above. In the Textbook column below, write the pages assigned for each week.

3. **Video Lectures**

   Take notes and work examples with Dr.Shormann. Pause and rewind as needed.

4. **Review Questions** (in Workbook & Lab Manual above)

   This is not a quiz. Use your lecture notes and vocabulary to answer the questions. Grade and correct your work using the video solutions at the end of the lecture.

5. **Video Lab**

   Watch the video lab and fill out the lab activity sheet found in the DIVE Workbook and Lab Manual printed in step 2.

Assignment Chart

Complete the assignments in left to right order: Terms, Reading, Lecture, Review Questions. For detailed instructions, see the steps above.

Week	Terms Flashcards	Reading Assignment Internet Textbook	Physical Textbook (#2 Above)	DIVE Lecture	Review Questions (See #4 above)	Video Lab (See #5 above)
1	Set 1	What is Science?		1	1	Video Lab 1 Microscope Info for Lab 1

2	Set 2	Scientific Method		**2**	**2**	Video Lab 2
