

INTEGRITY®

INTEGRITY®
Incontinence Products by Standard Textile

STANDARD
TEXTILE est. 1940

New technology. New results.

A LEAP FORWARD.

Patented Integrity® underpads are manufactured with Integralknit™, an innovative fabric-forming technology. This unique construction produces exceptional strength and durability while eliminating the problems and product failures associated with traditional quilted-style underpads. You can count on no broken stitching or bunching, as well as exceptional laundry performance.

BETTER LAUNDRY PERFORMANCE.

With a composite face/soaker made of a rayon-enhanced nonwoven and a barrier of premium-quality blue polyknit vinyl, Integrity® effectively contains fluids and is gentle on the skin. Integrity Plus is available in a laminated unipad construction that extends service life, enhances durability, reduces mechanical damage, and folds more easily and efficiently. Even with all of these performance advantages, Integrity delivers the absolutely lowest cost per use of any reusable underpad.

80/20 Polyester/Rayon

Merrowed on
Four Sides

33" x 36"
36" x 41"
