

# PRODUCT SPECS

## 30" ALUMINIZED CARBON PARA-ARAMID BLEND JACKET

Foundry / High Heat Protection • Part #600-ACK-SIZE-CS

### GARMENT FEATURES

- 30" length (approximately 76 cm)
- Made from 19 oz. / sq. yd. aluminized Carbon para-aramid blend
- Protects from radiant heat up to 2000°F and high contact heat (400-600°F)
- Covered Snap front closure with split leather tabs
- Adjustable snap wrist closure
- Unlined, Made in USA
- Sewn with Kevlar® thread for seam strength and heat resistance
- Part #600-ACK-SIZE-CS

### ABOUT ALUMINIZED CARBON PARA-ARAMID BLEND

Aluminized para-aramid blend provides protection from radiant heat temperatures up to 2000°F, and from contact / working heat temperatures of 400°F to 600°F. It is a very durable fabric, and provides excellent abrasion resistance in addition to its thermal protective properties.
