Shade & Texture Index

Main Street has a shade variation of V3.

This porcelain tile product is produced with a V3 variation. Expect that the amount of color and texture on each piece may vary significantly. Inspect the product upon delivery and for best results, blend tile from several cartons during installation.

Get Planked!

Our Porcelain Stone[®] products are available in popular plank shapes with no minimum order and quick fulfillment.

See website for more details and sizes.

Recommended Use

Main Street is recommended for interior floors, walls, countertops, and exterior walls in both residential and commercial applications. Main Street is not recommended for exterior horizontal surfaces or exterior paving. If offset pattern is required for tiles 15 inches or longer, Crossville® recommends an offset of not greater than 33%. If an offset greater than 33% is specified, specifier and owner must approve mock-up and lippage. See CrossvilleInc.com for detailed installation instructions.

Environmentally Conscious

Main Street is made using Crossville's EcoCycle Tile Process™, it contains a minimum 4 percent pre-consumer third-party recycled content and is Green Squared® Certified. Through these recycling processes Crossville recycles nearly 12 million pounds of previously discarded filtrate and fired tile waste. In addition to its own fired waste recycling, Crossville also accepts and recycles reclaimed, previously installed tile through its Tile Take-Back™ Program. For more information, visit CrossvilleInc.com/green.

Wet Area Use Mainstreet Mosaics

Crossville® produces the Main Street mosaics with the Cross-Sheen® (UPS) finish. The AcuTest™ Wet Dynamic COF of the Main Street UPS finish is $\geq .60$. Their small sizes ensure frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning. This information is provided so that customers may make a realistic and informed decision when comparing Main Street to other tile products in wet area environments, such as residential/commercial bathrooms, showers, and interior pool deck

Care and Maintenance

Regular cleaning is the best way to keep Main Street tile looking good for years to come. Use clean, hot water (combined with a household cleaner for more aggressive cleaning). Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville® products is available at CrossvilleInc.com.

Our Warranty

Crossville Inc. guarantees that its products will meet or exceed the performance specifications outlined in ANSI A137.1- 2012 and in the performance data section of the Crossville, Inc. general product catalog. For complete details check our website at CrossvilleInc.com.

Information listed here is subject to change. Please refer to CrossvilleInc.com for the latest, most accurate information.

CrossvilleInc.com
