

## ANTIFUNGAL CREAMS

### 1% CLOTRIMAZOLE

WeCare Antifungal Cream is a soothing topical ointment formulated with 1% clotrimazole to help relieve discomfort from superficial fungal skin infections. The non-greasy formula is designed to ease symptoms such as itching, scaling, cracking, and burning associated with common conditions, including athlete's foot and jock itch. Available in 1 oz. and 4 oz. tubes, the cream is well-suited for a wide range of care environments, including home care, long-term care facilities, and first-aid kits.
