

A modern outdoor living space featuring a glass-walled room with a white interior, a stone tile patio, and a large beige armchair. The room has a minimalist design with a white wall, a black shelf, and a small wooden stool. The patio is made of large, dark grey stone tiles. In the background, there are lush green trees and a white wall with two black light fixtures. The overall aesthetic is clean, modern, and sophisticated.

POOL & OUTDOOR LIFESTYLES

BY EMSER TILE®

THE **EMSER** STORY

Established in 1968 and headquartered in Los Angeles, California, Emser Tile® is a leading designer, producer and marketer of the world's finest tile and natural stone. By offering unparalleled service and a vast selection of products, Emser Tile® is a comprehensive source for interior and exterior products that include porcelain, ceramic, glass, decorative accents, metal, quarry, mosaics, natural and engineered stone, cut-to-size products, setting materials and custom manufactured products made to your specifications. Our nationwide service network includes state of the art distribution centers and local sales and service locations to combine a strong national presence with tailored, local service. Building upon over 50 years of service, our dedication and commitment to our customers remains as strong as ever and is the core of our business and our culture.

Our services are tailored to customers' specific requirements. Emser Tile® offers exclusive programs that help retailers, home builders, commercial builders, contractors, architects and designers exceed their customers' expectations and requirements while keeping projects on schedule and within budget.

Our global network brings the latest trends, technologies and innovations for ceramic and porcelain tile, glass, natural stone, decorative, mosaic and metal products. We continue to offer the most compelling and extensive portfolio of colors, finishes, patterns and textures, accompanied by a broad assortment of coordinating trim and accent pieces.

Our expansive capacity translates into a vast selection of products and immediate distribution. With Emser Tile®, customers have quick access to unique and first-to-market products. With our local sales and service locations and global network of factory alliances, Emser Tile® has the infrastructure to logistically support any size project on a domestic or international level.

PRIORITIZING SUSTAINABILITY

CORPORATE EFFORTS

Emser Tile® is committed to reducing the environmental impact not only of our corporate headquarters and local sales and service locations, but also all of our distribution centers nationwide.

Our initiatives to do so include:

- Reusing technology, including cell phones, computers, and electronic equipment, through our suppliers and a third-party electronics recycling provider;
- Recycling paper through a third-party shred and recycle service;
- Automating facility lights that operate based on areas in use;
- Programming thermostats for optimal indoor temperatures while maintaining energy efficiency;
- Using low-flow and no-flush plumbing fixtures that preserve water;
- Prioritizing recycled content in office supplies;
- Emser Tile® operates strategically placed distribution centers and local sales and service locations throughout the United States. Having multiple facilities allows us to maximize the volume of every truckload for the most efficient transportation of our products, and in turn, minimizing our carbon footprint

MANUFACTURING, DISTRIBUTION & INSTALLATION

Our transparency efforts specifically complement green friendly builds that are focused around environmental impact in addition to worker health and safety. Unlike other types of hard and soft flooring, the longevity of ceramic, porcelain, and natural stone prevents frequent replacement, reducing the emissions and carbon footprints related to manufacturing, transportation and disposal of waste. With a potential cradle to grave lifecycle of 100+ years, studies have shown that over a 20-year span, ceramic, porcelain, and natural stone products are more cost-effective and sustainable than any other flooring material.

For enhanced eco-friendly attributes, all products and packaging are 100% recyclable, allowing them to be easily diverted from landfills post construction. The inherent characteristics of these surfaces allow for easy installation and cleaning without the use of toxic, high VOC, or harsh chemicals, while also displaying natural antimicrobial properties reducing potential bacteria and mold growth making them a very hygienic option.

Through innovative design, these dense body products can be installed in a way that enhances indoor air quality, creating building efficiency by controlling ambient room temperatures of a space, all while reducing heating and air conditioning costs. Partnered with a Low/No VOC setting materials system, including an installation system warranty, the health, safety and longevity of the application can be optimized.

MATERIAL RESOURCES

Emser Tile® chooses to work with suppliers that recycle the maximum amount of material possible back into the raw bisque, which is then reused to make new tiles. Understanding the importance of water conservation, Emser Tile® suppliers also recycle and reuse water during the manufacturing process. All glazes used in the production of ceramic and porcelain tile are water based and contain zero solvents, reducing potential Volatile Organic Compound (VOC) emissions during production and further eliminating any off-gassing of our finished floor products to 0 g/L through the firing stage of manufacturing. All overseas suppliers are required to be transparent in raw ingredient reporting up to 1000ppm, allowing Emser to meet OSHA Safety Data Sheet (SDS) requirements, as well as Health Product Declarations (HPD v2.1). Preference is given to manufacturers with upgraded kiln equipment that are able to better control heat emission and indoor air quality at the factory level.

Due to their raw ingredient profiles, all products are Red List Free, Conflict Mineral Free, Lead Free and compliant to OSHA Silica Standards as well as Prop 65.

GREEN GUIDE

At Emser Tile®, we embrace our responsibility to protect the planet and create sustainable processes in everything that we do. We hold the same standard for our suppliers and trade partners, and work alongside them to ensure that they adhere to maintaining and improving their standards. Emser Tile®'s Green Building Initiative features a systematic three-prong approach:

- Implementing company-wide environmentally conscious practices in the workplace at all Emser locations throughout North America, including distribution centers. This is a combined effort also shared by our trade partners.
- Practicing transparency of raw materials sourcing with our suppliers, so that we know exactly what ingredients are going into the products we sell down to 1000ppm.
- Educating employees and customers alike through internal and external training programs such as CEU/CES classes regarding health, safety and welfare standards related to material sourcing, manufacturing and installation.

Coined the Nutrition Label for products, Emser Tile has been awarded the Declare Label for its transparency in product lifecycle. From where it comes from, what it's made from, to where it goes, Emser Tile's notation of "Red List Free" can fulfill the credit disclosure requirements for LEED v4.

Declare.

As one of the top design trends of the year, outdoor projects emphasize the element of comfort, style, and safety, as more individuals look to entertain, exercise, and relax in the open air. These skillfully designed open-air retreats provide an extension of interior living and working spaces, as we see a blurring of the lines between interior and exterior environments.

MOOD™

DESIGNED FOR
THOSE WHO
WANT TO
SURROUND
THEMSELVES
WITH NATURAL
BEAUTY.

Mood™ is reminiscent of the quartzite stone from Vals, in the canton of the Grisons, Switzerland, translated into a durable porcelain tile. Offered in large scale format and trendy hues, Mood is designed for those who want to surround themselves with natural beauty. A complementary river stone companion tile and offset mosaic round out the line to make a truly stunning statement in any setting.

SEAMLESS INDOOR/OUTDOOR TRANSITIONS

SOURCE™

The clean, natural design aesthetic of Source™ is amplified through its neutral color palette. The contemporary shapes and smooth, matte finish make Source™ the tile of choice.

All patterns to all colorways available in 1" Hex on 11"x11", 3" Hex on 9"x10" and 2x2 on 12"x12 Mesh."
Penny 11"x12" available in Black, Fawn, Pure White and Smoke.

UPTOWN™

Transform your patios, terraces, and outdoor living areas into calming retreats from daily life.

Uptown™ recreates concrete with subtle texturing and color variation. Available in neutral earthy tones, creating a timeless urban aesthetic. Suitable for shower and outdoor applications.

BUILDING PRODUCTS

THE PROTECTIVE BARRIER AGAINST WATER FOR ALL SITUATIONS

Litokol® epoxy grout and epoxy setting products are highly prized throughout the design and construction industry for their high level of performance as well as for the aesthetics that they bring to the table. Litokol®, with its headquarters in Rubiera, Italy, has been promoting innovative solutions for professionals in the construction industry and the design world since 1968. These innovative products are ideal for many tile and design applications. One of those applications is “wet area” environments. Traditionally, wet environments have been a problem for grout, particularly those that are cement based. Here we will talk about how Litokol®’s Starlike grout is perfect for outdoor application and other environments where moisture can be an issue for inferior grout products. Litokol® offers a variety of vibrant and colors for all design project.

LATICRETE®

Choose LATICRETE® adhesives and mortars to ensure installations go faster, easier, and with predictable results time after time.

LATICRETE® adhesives and mortars have re-set the standard for industry performance. From high-strength construction epoxy adhesive to thinset or thick bed mortar, LATICRETE® adhesives are custom-formulated to deliver speed and efficiency on the entire range of applications.

Whatever the application... tile, stone, marble, glass, brick, even large and heavy tile installation solutions; LATICRETE® adhesive and mortar products offer major advantages in terms of speed and productivity over the competition.

Different projects call for different features; LATICRETE® adhesive products are designed to meet these specific needs. Thinset adhesives and mortars feature unique wetting characteristics, products reinforced with special ingredients for unmatched non-sag performance, products with long open times, and products built with antimicrobial protection to inhibit the growth of stain-causing mold and mildew. The experts at LATICRETE® have thought of everything to make adhesive installations go faster, easier, and with predictable results time after time. When specifications call for mortars and adhesives, trust your reputation to the experts at LATICRETE®.

LATICRETE® offers a limited and lifetime Warranty.
