

# ANTIFUNGAL CREAMS

## 2% MICONAZOLE NITRATE

WeCare Antifungal Creams are soothing topical ointments formulated to help relieve discomfort from superficial fungal skin infections. The non-greasy formula is designed to ease symptoms such as itching, scaling, cracking, and burning associated with common conditions, including athlete's foot and jock itch. Available in a variety of convenient sizes, the cream is well-suited for a wide range of care environments, including home care, long-term care facilities, and first-aid kits.
