

SPEEDKNIT™ KEVLAR HEAT SLEEVE WIDE TOP SS3C05

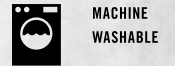

HEAT-RESISTANT ARM PROTECTION

From welding bays to production lines, our Kevlar® Heat Sleeves provide dependable arm protection where heat and sharp edges are part of the job. Constructed from 100% Kevlar®, they offer essential thermal resistance with ANSI A3 and CE Level C cut protection. A modified knit forms comfortably around the bicep, while a hook and loop closure allows for adjustable expansion and a secure fit. Each 18" sleeve includes thumbholes to stay in place and is machine washable. One size fits all. Sold in pairs.

FEATURES

- Includes two 18" sleeves with designated thumbholes.
- 100% Kevlar® construction provides critical heat resistance as well as ANSI A3 and CE Level C cut resistance.
- Modified knit pattern forms comfortable around the bicep.
- Wide top hook and loop closure provides a secure fit.
