**NOTE:** Measurements are body measurements to help determine what size garment a person should order. For best results, measure over fitted undergarments. If your measurement falls between sizes, it is recommended that the larger size be purchased.

#### 1 CHEST

Stand up straight with your arms relaxed at your sides. Measure around the fullest part of your chest, under your arms and across your shoulder blades, ensuring the tape is level.

#### 2 WAIST

Measure around your natural waist, where your waist bends side to side. **NOTE:** This may not be the smallest point.
