ARLO

Story has always been important to us. It is what has driven us from the very beginning and it is what continues to inspire us today. Our story begins with porcelain tiles, surfaces that are both technically excellent and beautifully satisfying to the eye. Arlo is a testament to our commitment to creating products that are both functional and aesthetic.

The Arlo collection from VITL brings the beauty of metal to life, following the unpredictable paths and surprising colors that oxidization creates on its surface. Captivating and contemporary, the precision of the metal look meets the experimentation and transformations visualized by high-level design, resulting in a porcelain tile collection with extraordinary visual power. The collection is available in a variety of sizes and shapes, making it easy to create unique and stylish spaces. Whether you're looking for a simple accent or a complete overhaul, this collection has something for everyone. So take a walk on the wild side and explore the possibilities today.

Material

Porcelain

Product Characteristics

Breaking Strength (ASTM C648 or ISO 10545-4)	Range of ≥1300 N to ≥10,000 N
Chemical Resistance (ASTM C650 or ISO 10545-13)	Resistant
DCOF	>0.42
Deep Scratch Resistance - Unglazed (ISO 10545-6)	≤145 mm³
Frost Resistance (ASTM C1026 or ISO 10545-12)	Resistant
Mohs Hardness - EN101	Not Applicable
Water Absorption (ASTM C373 or ISO 10545-3)	≤0.1%
Certifications	LEED
Country of Origin	Italy
Shade Variation Code	v3

PORCELAIN CARE & MAINTENANCE

INITIAL CLEANING

Proper cleaning after installation is essential for future maintenance. Remove excess grout using clean water and a sponge. If grout leaves behind a white haze, it can be wiped off using a clean cloth after grout has cured. Stubborn residue may require the use of a grout haze remover solution or neutral detergent. Thoroughly rinse the area with clean water and dry with a clean towel or wet vacuum.

ROUTINE MAINTENANCE

Immediately wipe up any spills and clean the area using a damp cloth or sponge. Remove loose soil using a broom or vacuum. To remove stubborn surface debris, use a scraper or putty knife. Wipe the area with a PH-neutral and soapless cleaner. Rinse with clear water and wipe dry to prevent residue. Do not use cleaning wax, oil-based cleaners, ammonia, sealants, or products containing acid or bleach for routine maintenance. Avoid using abrasive cleaning products such as steel wool.

WHEN IT MUST BE GREAT.

WHEN IT MUST BE READY.

WHEN IT MUST BE EXTRAORDINARY.

WHEN IT MATTERS MOST.
