

Full-Motion Monitor Mount

Swivel, Tilt, and Extend | Easy Installation

Install a computer monitor inside any compatible CarePod™ Wall-Mounted Workstation with our full-motion monitor mount. Featuring a single-stud wall plate, this sturdy, steel-crafted mount is secured using the wide horizontal slots at the rear of the CarePod. Attach a monitor and then swivel, tilt, and extend for an ideal viewing angle. This full-motion monitor mount creates a more optimal, ergonomic workspace for caregivers, especially when shared by people of varying heights.

Features:

- Compatible with 75mm and 100mm VESA standard patterns
- Supports monitors up to 34 inches and up to 33 pounds
- Swivels at three points with 180-degree rotation
- Tilts 15 degrees up and 15 degrees down
- Folds in when not in use

Compatible with various monitor sizes

Supporting more comfortable and productive EHR workflows, our full-motion monitor mount complements any compatible CarePod™ Wall-Mounted Workstation. Alternatively, the mount can be fastened separately to a wall. Accommodating a range of monitor sizes and both curved and flat backs, the mount's articulating arm offers a full range of motion. Caregivers can adjust the screen position to their preferred placement, with the mount easily folding back in for storage when not in use.

The monitor mount also includes holes designed for efficient cable and wire management. Installation is simple with the provided hardware and easy-to-follow instructions.
