

TRUFIG

BY SONANCE

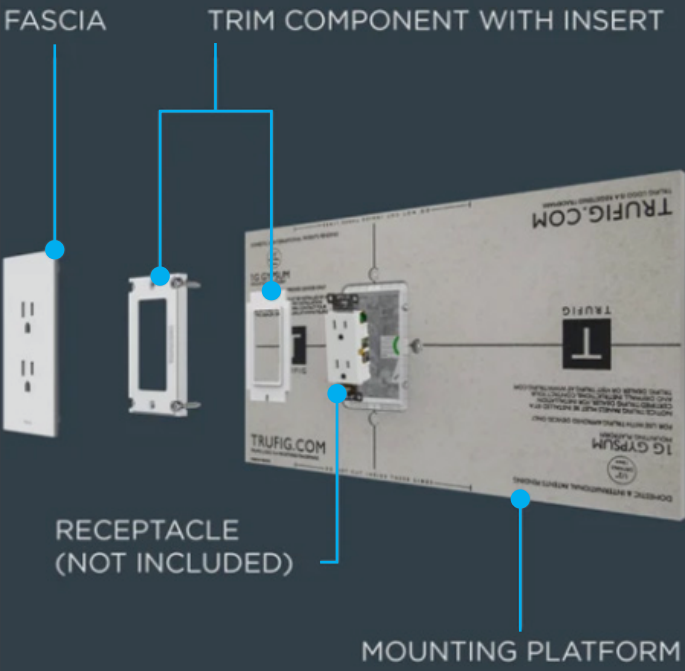

RECEPTACLES | BLANKS

TRUFIG solutions for power receptacles allow outlets to hide in plain sight with TRUFIG fascias that can be painted to blend in with the surrounding surface. TRUFIG Mounting Platforms provide precision alignment and placement to maintain architectural design.

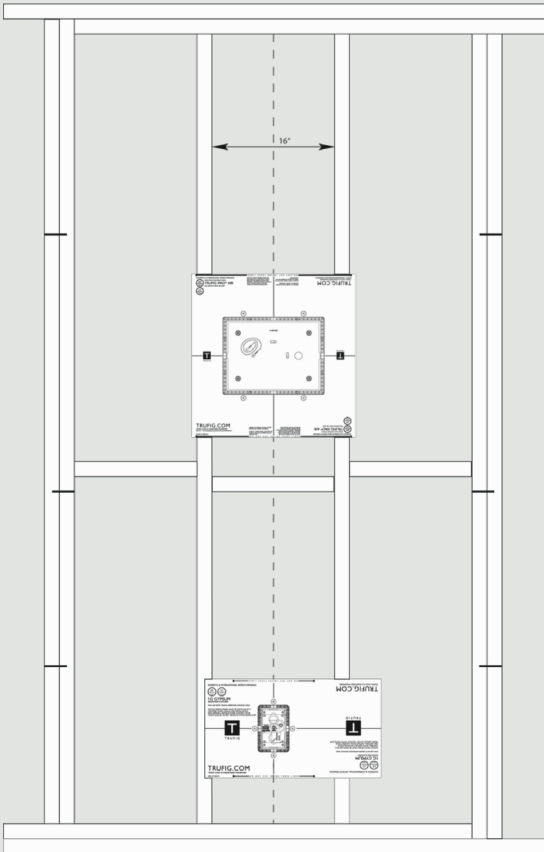

TRUFIG MOUNTING SYSTEM

TRUFIG Mounting Platforms allow for a repeatable, high-quality result across multiple technologies and in a variety of installation surfaces. No more “one-offs” to hide outlets in base boards and back-splashes. The installation process incorporates traditional trade methods ensuring fast, error-free outcomes.

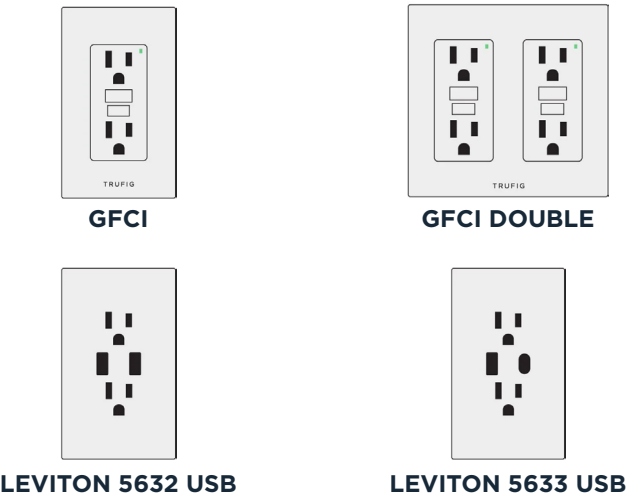

PRECISION ALIGNMENT

With TRUFIG mounting platforms, installers can easily align multiple devices within the wall's framing structure. Offering flexible placement that can be cut-to-fit and positioned to accommodate various alignment scenarios, while the engineered installation process ensures a completely professional finish.
