

Travel Walker with Wheels

The DME Care Solutions Travel Walker with Wheels is a compact, height-adjustable mobility aid featuring a lightweight steel frame and an easy, tool-free folding mechanism. Designed to fold smaller than standard walkers, it offers added convenience for travel and storage.

- Lightweight red steel frame construction
- Folds smaller than standard walkers for easy portability
- Tool-free folding mechanism for quick setup and storage
- Legs are adjustable from 29.15" to 36.15" for personalized comfort
- 5" front wheels help improve maneuverability
- Rear ski glide tips reduce floor marking
- Includes dual side storage bags
