

# TIRE SHINE

Technical Data Sheet

Creation Date 20/11 /2018

Version I

CRC Tire Shine is your best help to make tires look like new again. This amazingly effective product is so simple, so quick, so clean and ... so easy!

## Where to use?

The most effective product to clean and protect all sorts of tires. Not recommended for two wheel vehicles.

## How does it work?

Just spray on to clean and protect tyres. No wiping or washing needed. Tire Shine penetrates and cleans the rubber tire wall and will make it flexible. Tire Shine removes tyre stains and scuff marks, making tyres looking like new again.

## What to expect?

Tire Shine will penetrate and clean all sorts of tires. It will remove stains and protect against discoloration and oxidation. It will leave a film that repels dirt and has no influence on drive and brake behaviour when applied properly.

## Be prepared

- Before use, carefully read and observe the warning texts on the label
- Always make sure to have a good ventilation.
- Avoid open fire or other sources of ignition in the same room.
- Wear protective nitril gloves.
- Dispose empty cans according to your local legislation.

## Help for a good application

- Wash off excessive deposits of mud and dirt.
- Shake well before using.
- Spray generously and evenly over the tyre from approx. 30 cm. Avoid overspray on brake parts and floors.
- Wipe off overspray on painted or Aluminium surfaces.

## Technical data (Aerosol)
