

DynaGo Quad 6 - Aluminum Rollators

The DME Care Solutions DynaGo Quad 6 is a durable, lightweight 4-wheel rollator designed for safe, comfortable mobility. Featuring an ergonomic design, it offers reliable support both indoors and outdoors. Ideal for use in hospitals, medical facilities, long-term care residences, and home care environments.

- Lightweight, yet durable aluminum frame supports comfortable, stable mobility
- Locking deluxe braking system offers improved safety and control
- Ergonomic handles adjust arm height from 30.5" to 36.5" for customized comfort
- Tool-free removable padded backrest provides added support
- Flip-up padded seat opens to integrated storage pouch
- Easily folds for transport and compact storage
- 6" non-marking wheels provide smooth indoor and outdoor maneuverability
