

USB to Bluetooth Adapter

USBBTOOTH1

USBBTOOTH2

Introduction

Thank you for purchasing a StarTech.com USB to Bluetooth adapter. This USB Bluetooth adapter uses the latest Bluetooth technology and design, allowing it to obtain optimal reception from any Bluetooth device in range. Suitable for all desktop or notebook computers to wirelessly connect and synchronize with other Bluetooth enabled devices.

Features

- Fully compliant with USB specification rev. 1.1
- Compliant with Bluetooth specification v1.1/v.1.2
- No external power supply required
- Allows you to connect up to 7 Bluetooth enabled devices, simultaneously

Before You Begin

System Requirements

- Available USB Port (1)
- Operating system: Windows 98SE, ME, 2000 or XP

Contents

This package should contain:

- USB to Bluetooth Adapter (1)
- Driver/software CD (1)
- User Manual (1)

Installation

Installing the USB to Bluetooth adapter

1. Insert the driver/software CD into the CD-ROM drive.
2. Open Windows Explorer. Locate and double-click on the CD-ROM drive.
3. Open the **Bluetooth** folder, followed by the **ISSC** folder.
4. Double-click on the **Setup.exe** file, and select the appropriate installation language. Follow the prompts and instructions to complete installation.
5. Once installation has completed, restart Windows.
6. Once Windows has restarted, connect the USB Bluetooth adapter to any available USB port. Windows will automatically detect and install the USB Bluetooth adapter driver.

Using the USB to Bluetooth adapter

For detailed instructions on the use and capability of the USB to Bluetooth adapter, please refer to the software application user guide located on the driver/software CD. This file is located in the **\\BLUETOOTH\\ISSC\\USER GUIDE** folder.

Specifications

Bluetooth version compatibility	1.1/1.2
Maximum Data Transfer Rate	723 kbps(asymmetrical) 432 kbps (symmetrical)
Operating Frequency	2.40-2.48 GHz
Operating system support	Windows 98SE/ME/2000/XP and higher
Bus Type	USB
Connectors	USB Type A Male
Chipset	ISSC

Support, Warranty Information, and Regulatory Compliance Statement

If you ever need help with your product, visit www.startech.com/support and access our comprehensive selection of online tools, documentation, and downloads. This product is backed by a one-year warranty. In addition, StarTech.com warrants its products against defects in materials and workmanship for the periods noted, following the initial date of purchase. During this period, the products may be returned for repair, or replacement with equivalent products at our discretion. The warranty covers parts and labor costs only. StarTech.com does not warrant its products from defects or damages arising from misuse, abuse, alteration, or normal wear and tear.
Limitation of Liability: In no event shall the liability of StarTech.com Ltd. and StarTech.com USA LLP (or their officers, directors, employees or agents) for any damages (whether direct or indirect, special, punitive, incidental, consequential, or otherwise), loss of profits, loss of business, or any pecuniary loss, arising out of or related to the use of the product exceed the actual price paid for the product. Some states do not allow the exclusion or limitation of incidental or consequential damages. If such laws apply, the limitations or exclusions contained in this statement may not apply to you.

FCC Compliance Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
