

AIRCO KLEEN

Technical Data Sheet

Creation Date 19/04/2021

Version 2

Removes and prevents unpleasant odours, leaving a fresh odour in the vehicle.

Where to use?

Can be used with all air conditioning systems in cars, mobil homes, trucks and agriculture machines, especially after a period of inactivity (winter).

How does it work?

With a unique and effortless one push application method CRC Airco Kleen leaves a fresh scent and prevents unpleasant odours.

What to expect?

CRC Airco Kleen reconditions the air conditioning system in an optimal way by means of its unique application method, leaving a fresh odour in the vehicle.

Be prepared

- Before use, carefully read and observe the warning texts on the label
- Dispose empty cans according to your local legislation.

Help for a good application

- Activate the recirculation at full power, set to cold and recirculation with dashboard venting fully open.
- Make sure that the temperature in the car is below 28-degree C.
- Shake the can well.
- Start the spray with a single press by the actuator into the cap.
- Get out of the car and close all doors and windows.
- Leave engine and air conditioning running in the unoccupied car for 10 minutes.
- Ventilate the vehicle fully with open doors, air condition on full power and recirculation off.
- Ensure complete ventilation.
