

NICOR[®]

DLRv6P

RECESSED LED DOWNLIGHT

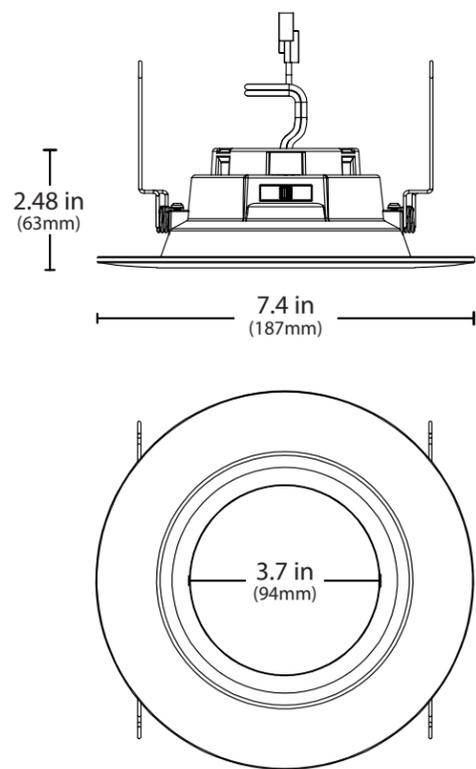

DLRv6P

Recessed LED Downlight

The DLRv6P is the newest generation of NICOR retrofit downlights, available in Selectable CCT models. Designed for both new construction and retrofitting, the polymer trimmed DLRv6P is available in white or black and fits standard 5" or 6" housings and the patented new-construction frame. With an impressive output of over 90 LPW, 90+ CRI, and an R9 value greater than 50, it meets the latest certification standards. A switch on the driver cap allows for easy CCT adjustment to 2700, 3000, 3500, 4000, or 5000K. The DLRv6P system, when combined with the frame, offers an energy-efficient and cost-effective solution for high-quality lighting.

Dimensions

FEATURES

Superior Light Quality

High-quality lighting at 95 CRI with an impressive R9 value over 75 to ensure true color rendering in any environment

Construction

Durable anti-rust polymer body for corrosion resistance, reduced weight, low-maintenance, and improved efficiency

Easy Installation

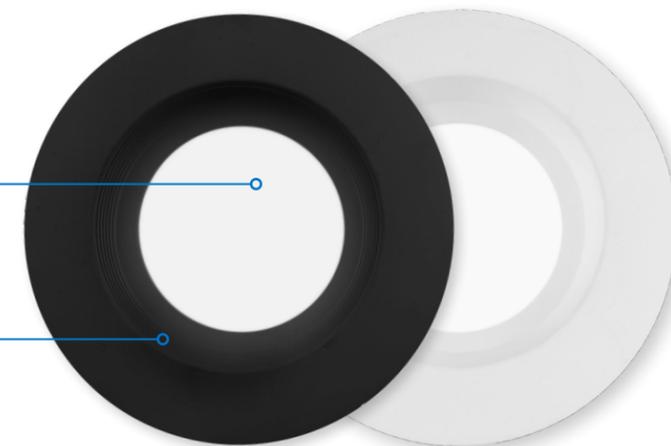

Fits standard 5" & 6" housings with a torsion spring mounting system for straightforward installation

Selectable CCTs

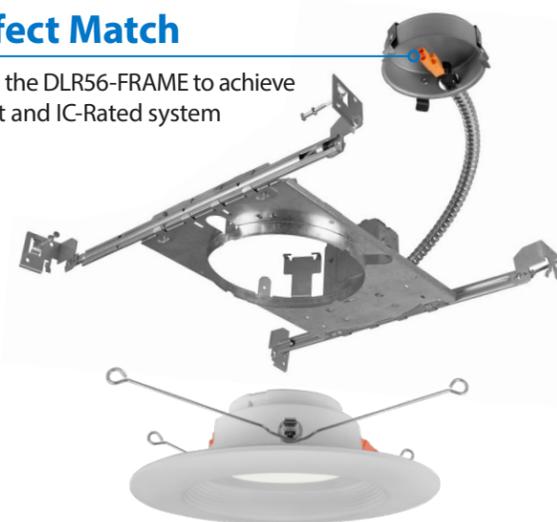

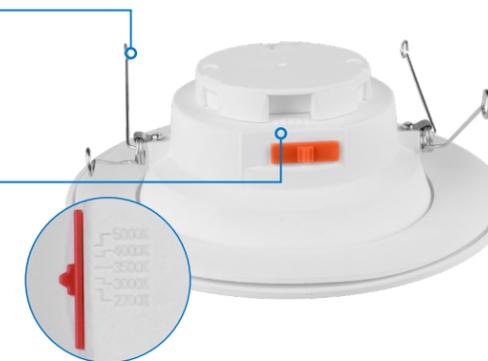

Easily adjust the color temperature from warm white (2700K) to daylight (5000K) or any setting in-between

A Perfect Match

Pair it with the DLR56-FRAME to achieve an Airtight and IC-Rated system

Baffle Smooth
