

# CORVUS - OWG

## LED Wallpack

The Corvus LED Wallpack features the classic design of a traditional wallpack with enhanced performance and efficiency. With output up to 120 lumens per watt, the Corvus delivers uniform light distribution with minimized glare and is easy to install on walls or directly to a J-Box with its separable hinged backplate. The Corvus has three knockouts for through-wiring or sensor additions and is an ideal solution for security and perimeter lighting.

- Die-cast aluminum housing
- Three ½" knockouts for conduit feed or sensors
- Toolless, separable hinged backplate for easy installation and maintenance
- Tempered, clear prismatic glass
- 4000K and 5000K CCTs
- Available in 50 and 80 watt
- Photocell optional
- 0-10 VDC dimming on 80 watt
- 120-277VAC
