Sonance Mariner MX speakers are sleek, minimalistic, surface mounted outdoor speakers suitable for exceptional music enjoyment that delights without compromising exterior designs. The speakers feature Sinusoidal Textured Waveguides technology and Sonance VX transducers to achieve full balanced music dispersion and clarity outdoors. Exceptional performance, along with the MX Grille Clip System and enhanced Sonance FastMount Bracket Systems, make Mariner MX the leading outdoor surface mounted product on the market.

MX KEY FEATURES

FEATURES AND BENEFITS

- VX Transducer Technology:** Exceptional audio performance and playback with crisp fidelity.
- Sinusoidal Textured Waveguide:** Ensures consistent tonality and wide dispersion for even, balanced audio coverage.
- Grille Clip System:** Grille retention to securely hold grilles in place during exposure to extreme temperature fluctuations and outdoor elements.
- FastMount Bracket System:** Simply snap speakers into the bracket for easy installation, then speaker angle can be locked into place for precision positioning that doesn't sag over time.
- IP66 Outdoor Rated:** Outstanding resilience versus water, dust, and harsh outdoor environments.
