

OCTANS - OSA

LED Adjustable Sconce

The Octans LED Adjustable Sconce provides uniform light distribution with optimal output in a compact, seamless design. Using a separable hinged backplate, the Octans is easy to install on walls or directly to a J-Box, and is adjustable from 0 to 90-degrees. It is an economical and efficient replacement for a traditional wall pack, ideal for accent or general purpose exterior lighting. The Octans can also be used as a flood light for certain applications.

- Die-cast aluminum housing
- Toolless, separable hinged backplate for easy installation and maintenance
- Toolless, adjustable range of 0° to 90°
- UV- and fire-resistant lens
- Clear, injection-molded acrylic lens creates uniform light distribution while maximizing lumen output
- 4000K and 5000K CCTs
- Available in 30, 50, 80, and 120 watt
- Photocell optional
- 0-10 VDC dimming
- Integrated level included in back plate
- 120-277VAC
