INSTRUCTIONS

1. Pre-set the shelf on your desired location and mark the location with a light pencil mark. Use tape or pencil to transcribe the location of the wall into the crown bracket.
2. Hold the bracket against the wall and mark with pencil the locations of the bracket screw holes, but before that check the alignment of both ends if the bracket has the same distance on the floor or sealing surface. Please see measurement reference in **FIGURE 01**.
3. Drill a hole on each mark's and then tap anchor into hole until flush with surface.
4. Tighten the screw while maintaining constant pressure on the anchor to set. Remove screw and install through wall bracket hole then re-insert screw into the anchor body and tighten until snug against wall. Please see **FIGURE 02**
5. Install the shelf on the wall bracket as illustrated on **FIGURE 01** or **FIGURE 03**.
