PRODUCT INFO

The QEP® Xtreme™ 4-3/8" Rough Surfaces Double Suction Cup features a durable die-cast aluminum body with a rubber non-slip grip and uses two stain-free, non-marring suction pads to deliver strong, stable holding power for lifting larger or heavier materials. The rubber pads are designed with a concentric lip which enhance grip on smooth, or textured non-porous materials. For ease of use, the tool includes quick-release levers and two convenient tabs that allow fast attachment and removal.

Professional Tools. Professional Results.
