

NICOR[®] DLR7

RECESSED LED DOWNLIGHT

FEATURES & BENEFITS

Visual Aesthetic & Application

The DLRv7 features a clean white finish with optional magnetic trim covers in Black, Oil-Rubbed Bronze, and Nickel. Available in 4" and 5/6" sizes, it's ideal for both retrofit and new construction, offering a versatile solution that complements a wide range of interiors.

Performance

Delivering over 105 lm/W with 90+ CRI and R9 > 50, the DLRv7 ensures efficient, high-quality lighting. Adjustable lumen output and CCT (2700K–5000K) provide flexibility, while the diffuser maintains uniform light and performance across various temperatures.

Controls

Dual micro-switches on the driver cap allow easy selection of lumen output and CCT. The fixture is also dimmable to 5% with compatible TRIAC dimmers, enabling precise lighting control without added components.

Installation

The DLRv7 installs quickly. Using a quick connector and spring or friction-fit mounting. It's compatible with most recessed housings and NICOR's new construction frames. This fixture includes an EVA gasket and socket string for simple setup.

Certifications

ENERGY STAR[®], Title 20/24, RoHS, and FCC compliant, the DLRv7 is wet-location rated and closet-safe. It meets rigorous testing standards and supports airtight installations when paired with NICOR frames.

Warranty

NICOR offers a 5-year limited warranty for the DLRv7. While it doesn't cover power surges, surge protection is recommended to ensure long-term reliability and protect against electrical damage.
