

Recessed **LED** Gimbal Downlight

DCG - Select

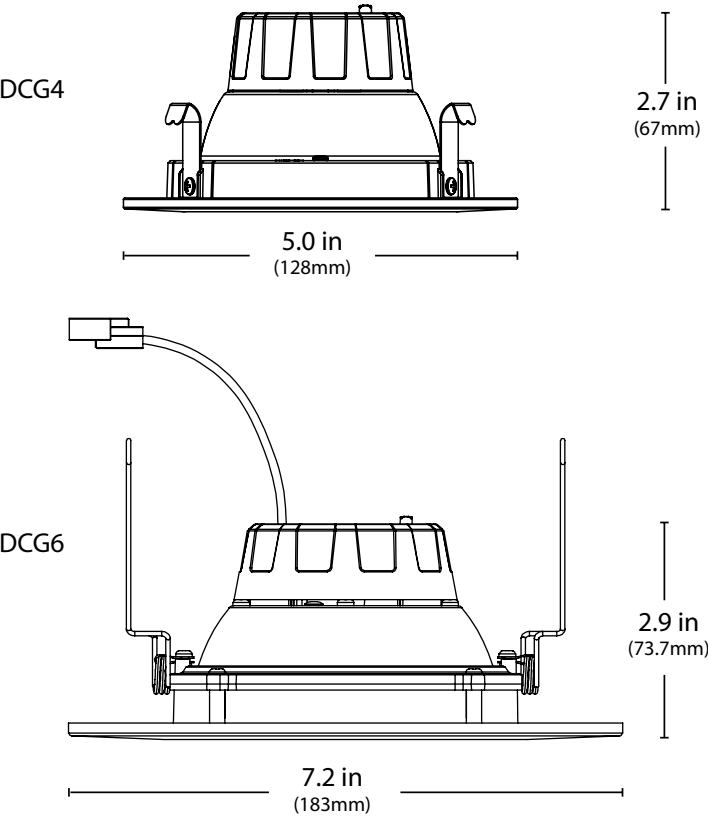

DCG - Select

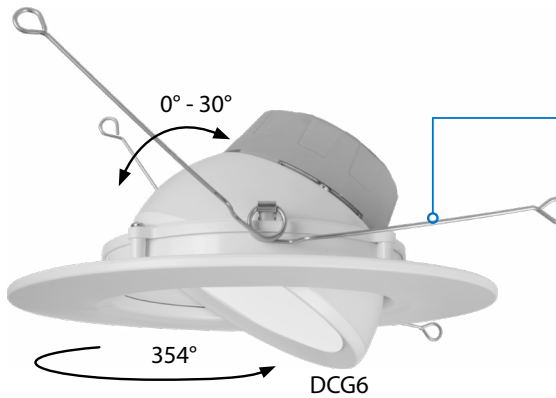

Recessed LED Gimbal Downlight

The DCG Recessed LED Gimbal Downlight Series provides an economical and straightforward solution for transitioning from traditional incandescent lighting to a durable, energy-efficient LED system. Its userfriendly twist-and-turn mechanism ensures precise gimbal positioning, offering up to 350° of rotation and 30° of adjustable tilt for the 4" version and up to 354° of rotation and 30° of adjustable tilt for the 6" model, making it a versatile solution for sloped ceilings and wall wash applications. With its sleek, flush-mounted design, the DCG not only delivers exceptional functionality but also enhances the aesthetic appeal of any interior space.

Dimensions

FEATURES

Steel Torsion Springs (DCG6)

Compatible with most 5" & 6" recessed housings with a fully captured, steel v-spring mounting system.

IDEAL Connector Base

Includes IDEAL quick-connect plug with Edison base adapter to fit most recessed housings. GU24 adapter sold separately.

New Compact Size

Features an integrated driver, perfect for IC-rated and shallow housings.

Polymer Construction

Durable, lightweight, and resistant to rust.

Steel Friction Clips (DCG4)

Compatible with 4" recessed housings using a steel, friction clip mounting system.

Performance Data
