

# LASH XL™

LEVEL ALIGN SPACE HOLD

## Tile Leveling System

### CLIPS

2-part system (each part sold separately)

### WEDGES

For Tile up to 1/2" Thick

**LEVEL**  
Notched flat base for maximum adhesive coverage

1/32"  
1 mm

1/16"  
1.5 mm

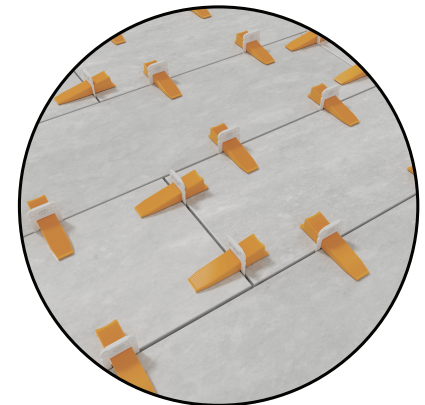

1/8"  
3 mm

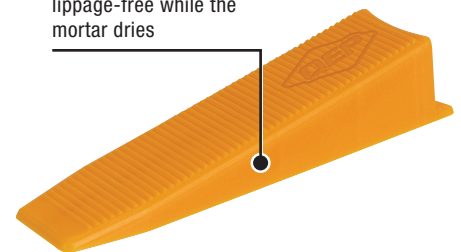

3/16"  
5 mm

**DESIGN**  
Notches on each side of the clip allow clear break well below tile surface

**HOLD**  
Ensures the surface is lippage-free while the mortar dries

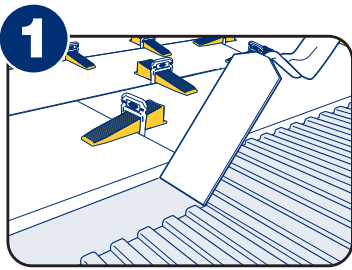

SCAN HERE FOR PRODUCT INFO

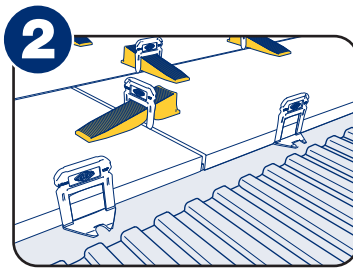

Lash XL™ is a two-part system that ensures large format tile surfaces are leveled and consistently spaced during installation. The Wedges are used in conjunction with the Leveling Clips (sold separately) to produce even grout lines and align neighboring tile delivering a lippage-free surface. The Leveling Clips are produced in 4 popular grout line widths - 1/32", 1/16", 1/8", and 3/16". For quick and easy removal, Clips are designed to break off below the surface of the tile with a simple kick in the direction of the grout line, or strike of a rubber head mallet. The Wedges can be saved and reused on the next project. Lash XL Tile Leveling System eliminates uneven tiles and delivers professional tile installation results.

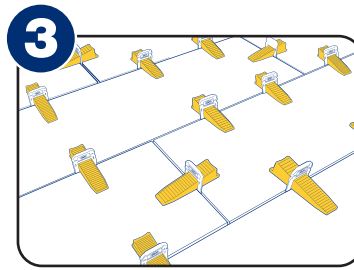

## Easy to install and remove!

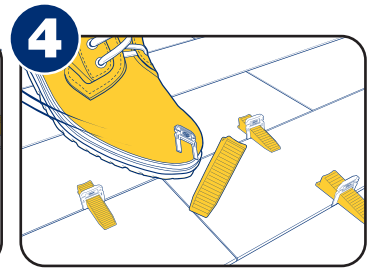

**1**  
Clean excess thinset along tile edge

**2**  
Insert Clip approximately 2" from each end of the tile

**3**  
Secure wedge into clips to level, align space and hold the tiles

**4**  
Once the mortar sets, break-off in direction of grout line within 24 hours

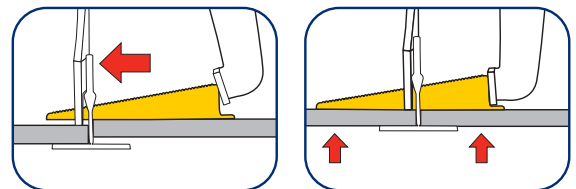

*Tile Leveling System should be used with a minimum 3/8" depth trowel notch to apply the setting material. Back buttering your tile is always recommended.*

## 99784 Pro Pliers

### PERFORMANCE

Stop pin allows for proper pressure

- Ensure wedges are set properly in the leveling clips every time (one to two clicks)
- Can also be used with the Original LASH® Tile Leveling System and most Tile Leveling Systems
