### EASY POSITIONING

Fence moves with turning knob with positive stops at 22.5°, 145°, and 90°

**Slide-in tile aligns with flip-up rip guide to ensure a secure and straight cut**

**Fence rotates, providing multiple cutting angles and flexibility**

Accessible, standard screw head for fast and easy scoring wheel replacement

The QEP® KATANA™ SR Cutter Series offers smooth cutting for all tile types. The series includes two models: The SR-31 and SR-41, both with an adjustable fence with positive stops at 22.5, 45, and 90 degrees. These cutters have an extended handle for maximum breaking power, an adjustable flip-up rip guide and a full-length 20" spring, loaded side wing support arms. The clear rear view ball bearing 7/8" scoring wheel with quick release breaker bar, and heavy-duty cast aluminum base with coated steel spring plate makes the KATANA™ Single Rail Tile Cutter Series a preferred choice for professional installers.
