21598	Nitrile Gloves X-Large	50 ct.	10

The QEP® 9 mil Nitrile Gloves deliver protection with exceptional durability—standing up to grout, thinset, adhesives, and constant contact with wet tools. Engineered for tile installers, they excel during grout application, cutting, placing, and tile adjustment. The latex-free construction ensures safe, irritation-free wear and the high tensile strength prevents tearing even in the most demanding conditions. Diamond-textured fingertips provide superior grip in both wet and dry environments, while the flexible, form-fitting material enhances dexterity and tactile sensitivity for touch screens making these gloves a trusted choice for professional jobs. Available in Medium, Large, and Extra Large sizes in 50 ct. boxes.

Professional Tools. Professional Results.
