The foregoing LED replacement lamp and driver warranties apply only to direct purchases from Current and to lamps operated in lighting equipment designed and approved for the application and in environmental conditions (temperature, humidity and air movement) within the normal specified operating range of the system, but does not apply to failures caused by acts of God or as a result of any improper storage or installation, abuse, misuse, abnormal use, or use in violation of any applicable recommendations of Current or any standard, code or instructions for use in installations, including, but not limited to, those contained in the National Electrical Code, the Standards for Safety of Underwriters Laboratory, Inc., Standards for the International Electrotechnical Commission, Standards for the American National Standards Institute or, in Canada, the Canadian Standards Association.
