

LSC28F Select

Selectable CCT & Output LED Foldable Linear Strip

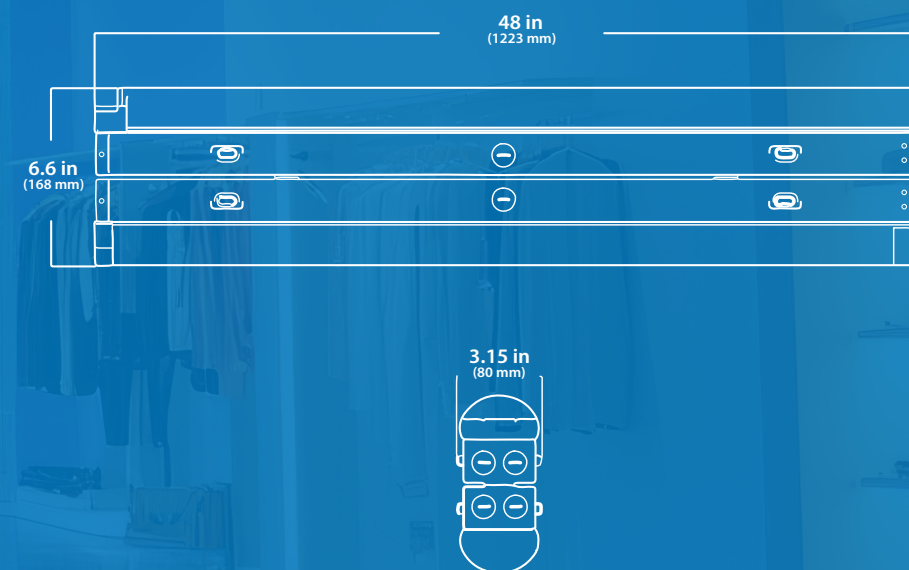

8 Feet of Light in 4 Foot Package

LSC82F Select

Selectable CCT & Output LED Foldable Linear Strip

The LSC28F Select LED Foldable Linear Strip combines high-output performance with a foldable 8 ft design that reduces to 4 ft for easier shipping, handling, and installation. With selectable CCT and wattage, this versatile fixture adapts to a wide range of applications while helping reduce SKU complexity. Designed for surface mounting or continuous row installations, it delivers consistent, energy-efficient illumination for warehouse, retail, utility, and light commercial environments.

Dimensions

FEATURES

Foldable Design

Folds from 8 ft to 4 ft for easier transport, handling, and installation

Easy Installation

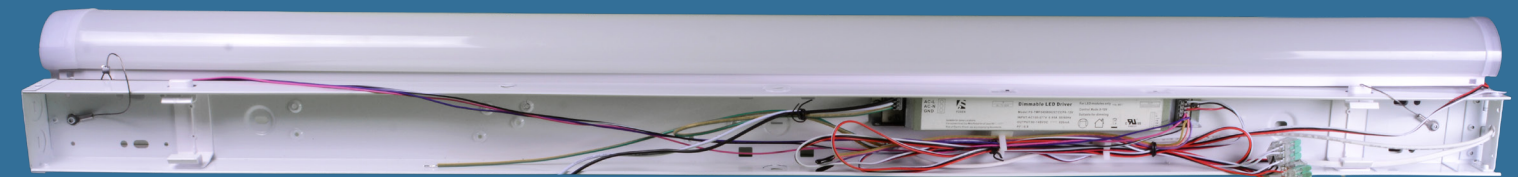

Quick-release buttons and safety-strap retained light chamber support single-person installation.
