NATURAL COLLECTION

NC3 | NC5QT

SOLD AS EACH

James by Sonance introduces The Natural Collection, an on-wall speaker and subwoofer collection featuring the ability to mix materials and finishes to design a solution that belongs in the space. Built in five designer-selected wood options and nine carefully curated grille fabric choices, the design possibilities are endless. Available in two performance levels and two orientations, to closely match the size of your TV. A small minimalistic footprint speaker option is also available for spaces without a TV for comfortable audio. Visible by design. Designed for the Room.

DESIGNED BY YOU, FOR YOU

CABINET

Refined wood construction built to complement the room, not compete with it. Visible by design. Built for spaces where every element is intentional. Five designer-selected finishes that bring a natural wood aesthetic to any designed space.

Modern Brown Modern Teak Sand Gold Modern White Black

FABRIC

Nine fabric color options to complement any room palette. Custom grille frame gives you the option to order as a fabric-ready solution to match the room exactly.

White Eggshell Quartz Desert Sand Moleskin

Medium Grey Verte Papier Silver Papier Black

CONFIGURATION

Build a Natural Collection speaker with a 1, 2, or 3-channel configuration, in choice of NC3 or NC5QT performance. Display matched sizing for 55", 65", 75", and 85" Frame TV* displays in either HTL (Horizontal Thin Line) or VTL (Vertical Thin Line) orientations.

POSITIONING

On-wall audio built around the room, not the other way around. Pair NC3 or NC5QT speakers with the NC10-SUB subwoofer for a complete Natural Collection system.
