

WPC4 LED LINEAR WRAP

NICOR[®]

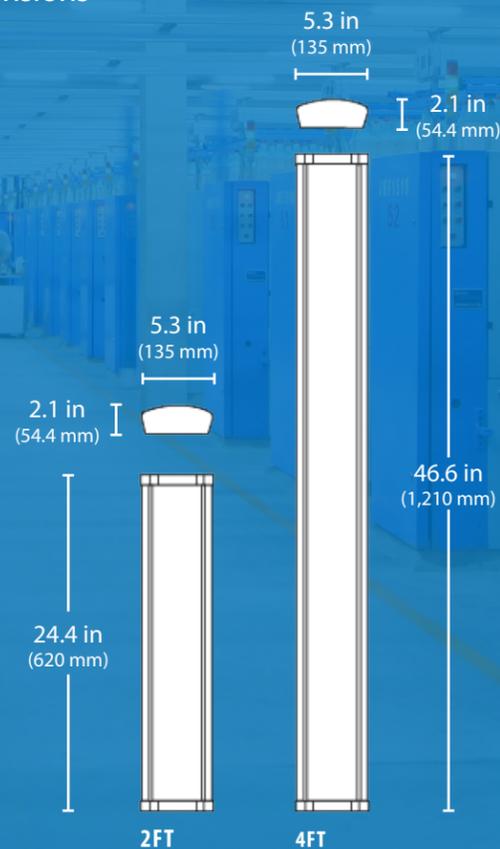

WPC4

LED Linear Wrap

The WPC4 LED Linear Wrap is a cost-effective, energy-efficient alternative to traditional fluorescent wrap fixtures. Its modern, low-profile design features a curved, milky-white lens for uniform light distribution and an enhanced aesthetic without hot-spots. The WPC4 offers field-selectable wattage and CCT, allowing customization of both light output and color temperature on-site. Available CCT options include 3000K, 3500K, 4000K, 5000K, and 6500K, with four selectable lumen outputs to suit a variety of application needs. An integrated lens latch provides tool-free access for easy installation and maintenance. Suitable for surface mounting on ceilings or walls, the WPC4 is ideal for retail, warehouse, residential utility, light commercial, and industrial environments.

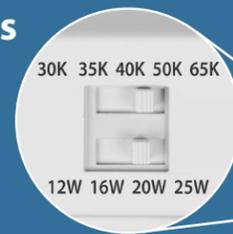

Dimensions

FEATURES

Selectable Switches

Offers quick control to easily switch between different selectable CCTs and Wattages

Low Profile Design

Suitable surface mounting on ceilings or walls to accommodate a range of applications.

Optical System

Precision engineered polystyrene diffuser for uniform light distribution without hotspots
