| Total Capacity | Up to 55 lb (25 kg) |
| Size | 26.77 x 16.54 x 21.65 in |

**ABOUT THIS MANUAL:** This manual was written to help you get the most performance, comfort, enjoyment and safety when your child is riding his or her new tricycle. It is important for you to understand your child's new tricycle, how your child should use it and what you need to do to keep your child safe. This manual contains many "Warnings" and "Cautions" concerning the consequences of failing to maintain or inspect your tricycle. Because any incident can result in serious injury or even death, we do not repeat the warning of possible serious injury or death each time such a warning is mentioned.

**RIDE AT YOUR OWN RISK AND ALWAYS USE COMMON SENSE:** This manual contains many warnings and cautions concerning the consequences of failing to inspect, maintain or properly use your tricycle. Because any fall can result in serious injury or even death, we do not repeat the warning of possible serious injury or death each time such a possibility is mentioned in this manual or the risk of falling leads to a warning. Always wear a properly fitted helmet. Always wear appropriate clothing and shoes. Never ride barefoot or in sandals and make sure that shoelaces or other fasteners are tied and kept away from the wheels of the tricycle.

**⚠GENERAL WARNING: Riding a tricycle can be a dangerous activity, even under the best of circumstances. Proper maintenance of your new tricycle is your responsibility and helps reduce the risk of injury. Certain conditions may cause components to fail without fault of the manufacturer. The tricycle can and is intended to move, and it is therefore possible to lose control, fall off and/or get into dangerous situations that no amount of care, instruction or expertise can eliminate. If such a thing does occur, your child can become seriously injured or die, even when using safety equipment and other safety precautions. The following manual is ONLY a guide to assist you.**

**⚠WARNING: TO AVOID SERIOUS INJURY–Continuous adult supervision required; never use near motor vehicles; never use near streets, swimming pools, hills, steps, or sloped driveways; always wear a helmet and shoes when using the tricycle; allow only one rider at a time.**

**⚠WARNING: This tricycle is intended to be ridden on smooth, level ground. Do not ride in loose dirt, sand, or gravel, which could damage moving parts. Do not ride in rain, snow, or mud, or store the tricycle outside without covering. Water can damage components. Store the tricycle indoors when not in use or in a covered location to avoid long term exposure to rain, excessive sun, or other inclement weather.**

**⚠WARNING: Adult assembly required. Choking hazard to children under the age of 3 years. Contains small parts prior to assembly.**

# USE, OPERATION, & SAFETY

You should read this manual completely before letting your child ride your new tricycle. The age grade of 2 to 5 years old is based on United States government guidance on child development and appropriate toys, but young children are all different. If your child walks and runs with confidence, then the tricycle will help your child develop balancing skills and learn about steering. **The tricycle has no brake**. To stop, your child merely stops pedaling and stands up. You can not expect your child to understand how difficult it is to stop on hills or at speed, and your close supervision and sound limits about speed and grade are required for your child's safety. So encourage play and having fun with the tricycle, but keep it on flat surfaces or gentle slopes, always wear shoes (never barefoot, sandals or flip flops), and avoid traffic and pedestrians.

**Remember only you are the best judge of whether your child is at the appropriate development stage for safe play with the tricycle**. Stopping is obviously very important. The seat on the tricycle is low to promote learning balance skills and to keep both of your child's feet close to the ground. Adjust the seat for comfort, but no higher than what will allow your child to have both feet on the ground at the same time while seated.

Always have your child wear a properly fitted helmet and appropriate clothes and shoes. Additional safety equipment including knee pads and elbow pads can also be used. The helmet is not only a good idea but required in many communities. To protect your child, the helmet must comply with CPSC, 16 CFR Section 1203 requirements and be worn correctly.

**CORRECT FITTING**

Make sure your helmet covers your forehead.

**INCORRECT FITTING**

Forehead is exposed and vulnerable to serious injury.

**⚠ WARNING: Always wear a properly fitted helmet when you ride your tricycle. Do not ride at night. Avoid riding in wet conditions.**

# SAFE RIDING PRACTICES & WARNINGS

The tricycle is intended to allow children to learn at their own pace while feeling safe that they are not going to fall. Have them start by sitting on the tricycle and pushing the pedals with their feet. Your responsibility is to set limits on speed and appropriate location for play. Be aware that young children often can master riding, and still will lose their balance and fall while at play. So part of your supervision is that they not leave the tricycle or other toys around the ground where they play as they may fall on them. It is also your responsibility to maintain the tricycle after correctly assembling it. Children should be made aware of all possible riding hazards and correct riding behavior before they take off on their tricycle! Please explain to them as often as necessary:

- Always wear a properly fitted helmet.
- Always keep the chin strap on the helmet securely buckled.
- Observe the age and weight limitations on the cover of this manual.
- Never have more than one rider and never try to tow anything.
- Do not ride at night.
- Do not ride in wet weather. Wet weather impairs traction, stopping ability, and visibility.
- Obey all applicable, local laws when riding the tricycle.
- Do not ride near swimming pools, ditches or drop offs.
- Do not ride if parts are broken or worn until fixed or replaced by your parent.
- Always ride on smooth surfaces or gentle slopes and avoid too much speed.
- Do not ride on surfaces with sand, gravel, dirt, leaves, or other debris.
- Do not ride on streets, around cars, on hills, barefoot, or in skateboard or vehicle traffic.
- Speed is a danger. This product has no brake. Avoid hills, stunts, jumps, and bumps.
- Avoid sharp turns, bumps, drainage grates, trick stages, ramps, half pipes, skateboard parks, and empty swimming pools.

# B BEFORE YOU BEGIN ASSEMBLY

The tricycle is to be assembled by an adult. As shipped in the box it is partially assembled and contains potentially hazardous sharp edges and points on screws and axle rods. The box contains a package of small parts, cap nuts and fasteners that pose a swallowing hazard to small children. Assemble the tricycle without your child's help and keep these hazards away from your child until assembly is complete.

**ESTIMATED ASSEMBLY TIME:** You should allow approximately 20 minutes for assembly.

Before assembling your tricycle, make sure you have all parts shown in the diagram on page 7. The components of your tricycle might differ. Some of the parts shown might be optional and not part of your tricycle's standard equipment.

## DO NOT RETURN THIS ITEM TO THE STORE

Please contact Dynacraft customer service for assistance.

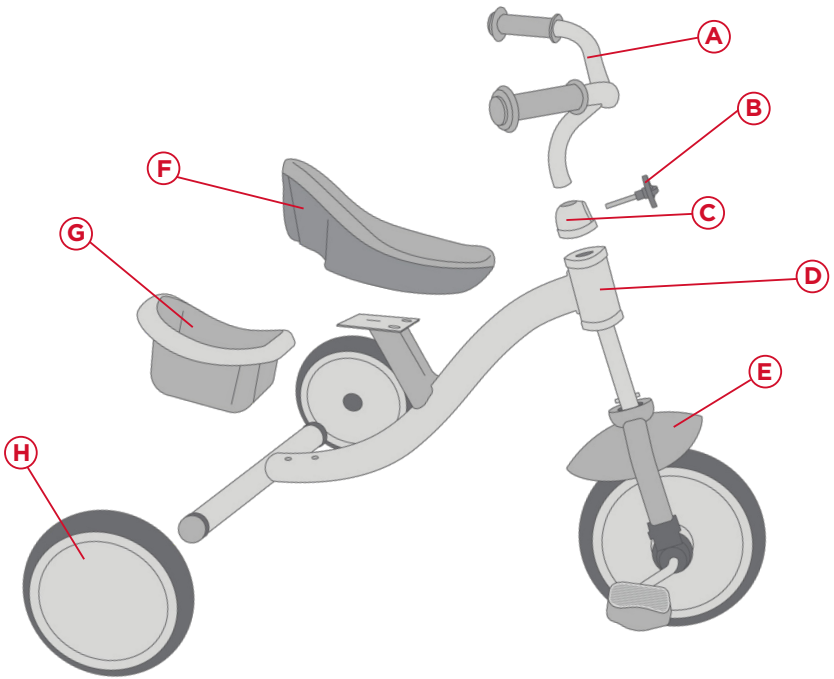

**dynacraftwheels.com/contact or 1-800-551-0032**

If you experience a problem with this product, or are missing a part, please contact our customer service team at dynacraftwheels.com/contact, rather than return this product to the store. Please identify all parts before assembly and save all packaging material until assembly is complete to ensure that no parts are discarded.

**⚠WARNING: DO NOT USE NON-ORIGINAL OR NON-RECOMMENDED PRODUCTS WITH YOUR TRICYCLE. Altering of the original components or use of non-recommended replacement parts or accessories may or may not be compatible with the design may cause an unsafe condition resulting in serious injury or death. Doing so will also void your warranty. Contact our Customer Service Team for original replacement parts at dynacraftwheels.com/contact.**

**PARTS**

**A.** Handlebar x1
**B.** Knob Screw x1
**C.** Protective Cap x1
**D.** Frame x1
**E.** Front Wheel Assembly x1
**F.** Seat x1
**G.** Rear Storage Basket x1
**H.** Rear Wheel x2

**⚠WARNING: Children can be harmed by small parts, sharp edges and sharp points in the tricycle's unassembled state. In the unassembled state, this package contains small parts. Adult assembly is required; children should not handle parts, or help in assembly of the tricycle.**

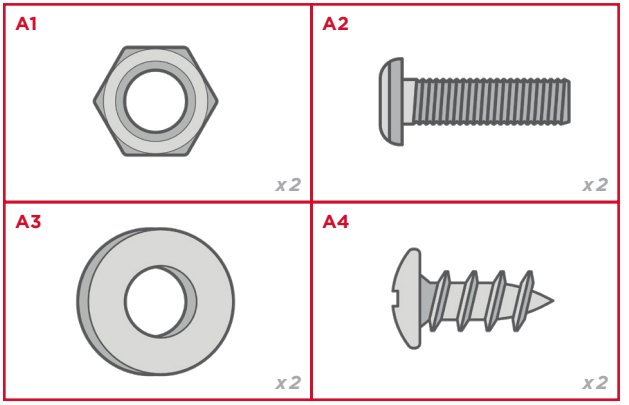

# PARTS DIAGRAM

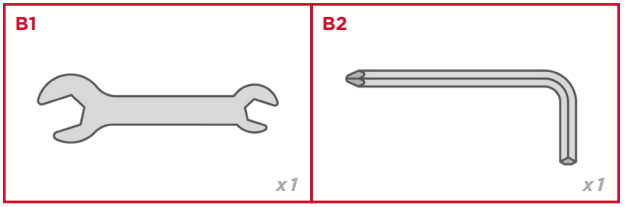

**HARDWARE**

**A1.** M8 Nut x2
**A2.** M8x15 Machine Screw x2
**A3.** Washer x2
**A4.** M4x10 Screw x2

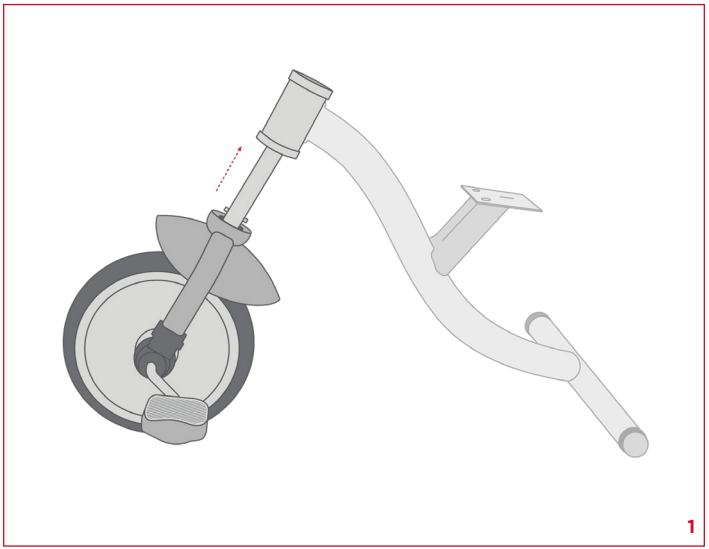

**TOOLS INCLUDED**

**B1.** Open End Wrench x1
**B2.** Multi-Function Tool x1

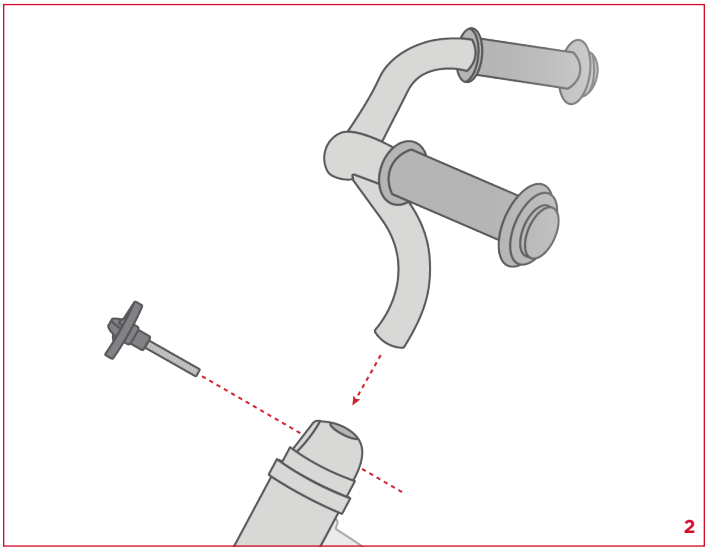

## FRONT WHEEL

- Insert the fork of the front wheel assembly **E** into the head tube of the frame **D**.

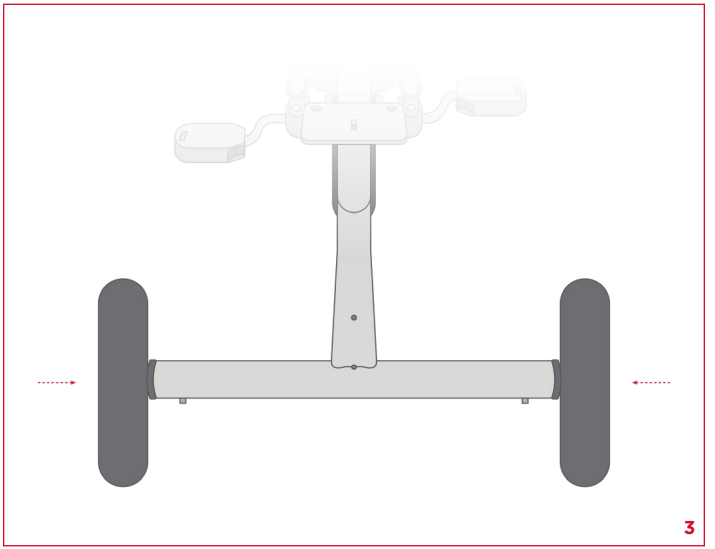

## HANDLEBAR

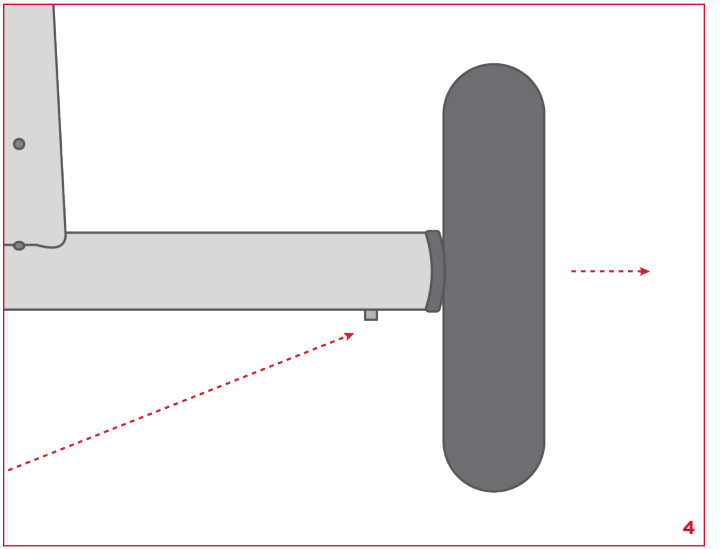

- Slide the protective cap **C** onto the front fork stem, ensure the flat side of the cap facing forward. Align the holes of the cap and the front fork stem.
- Insert the handlebar stem **A** into the head tube of the frame.
- Align the holes of fork stem and handlebar stem, then secure them by tightening the knob screw **B**.

**⚠WARNING: Failure to properly install the handlebar and the front fork assembly can result in the handlebars falling off and cause risk of injury. Periodically check to ensure the handlebar is securely tightened.**

## REAR WHEEL

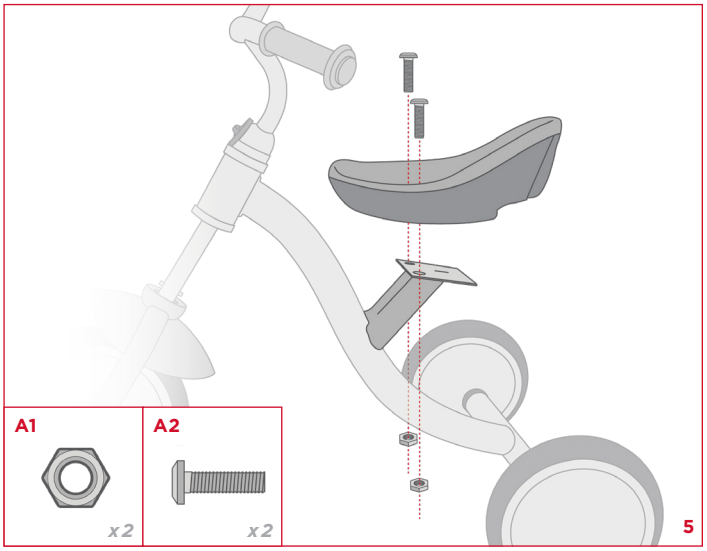

- Slide one rear wheel **H** onto the axle on the rear deck. Snap firmly until it clicks and locks into place.
- Repeat the step on the other end of the deck.

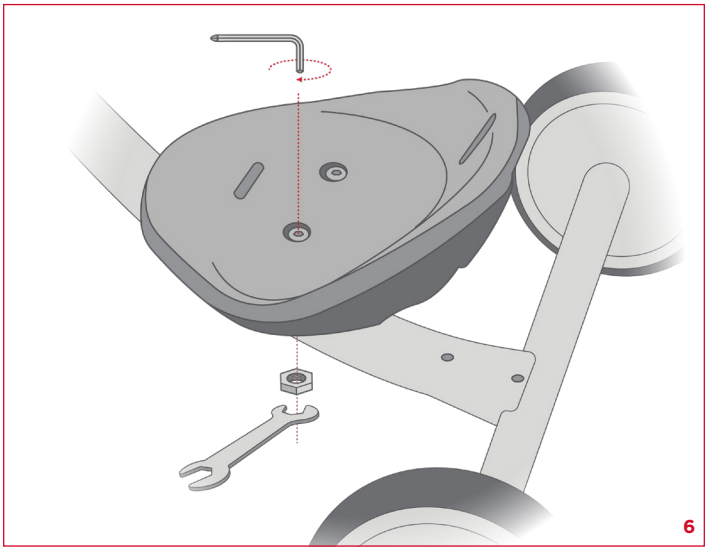

**NOTE:** To disassemble the wheel, press the button located under the deck while simultaneously pulling the wheel outwards away from the frame.

## SEAT

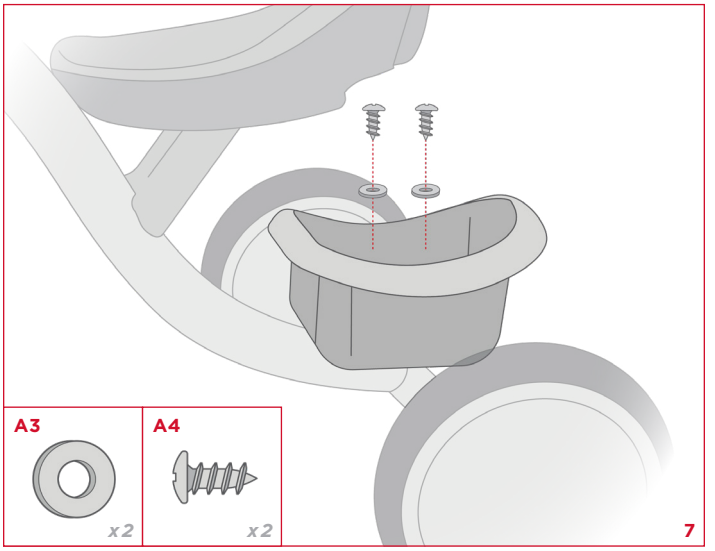

- Attach the seat **F** to the frame. Secure it by inserting **A2** through the top.

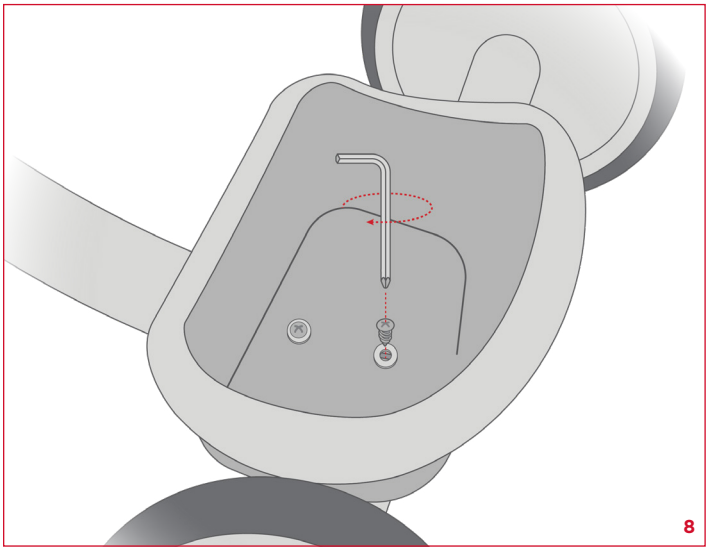

- Thread **A1** over **A2** underneath the frame.
- While holding **A2** in place with the open end wrench **B1**, tighten **A1** with the Allen end of muti-function tool **B2**.

## REAR BASKET

- Thread **A3** under **A4** and position the rear storage basket **G** over the frame.

- Attach the basket by securing it with Phillips head end of the multi-function tool **B2**. Ensure that all screws are securely tightened.

Check your tricycle and its components against the following checklist. In addition, if you have a crash or accident, even a minor one, always inspect the tricycle thoroughly before riding again:

- Check that wheels are straight.
- Check attachment of bolt-on wheels.
- Check handlebar and stem for signs of stress and fatigue.
- Inspect your tires for wear or damage.
- Check the attachment of the handlebar.
- Check the wheels to see if they can spin smoothly
- Periodically inspect the tricycle for wear and damage.
- To clean the tricycle, use mild soap and water solution and clean cloth. Rinse clean with water to remove soap residue.

**WARNING: A tricycle that does not work properly can cause you to lose control and fall. Inspect the entire tricycle thoroughly before every ride and do not ride it until any problem has been corrected.**

# F LIMITED WARRANTY

This Limited Warranty (“Warranty”) extends only to the original retail purchaser, who must provide proof of purchase to validate any claim. As noted below, certain aspects of this Warranty can be extended free of charge to original retailer purchasers who also register their product using the provided online registration form. Proper registration via Dynacraft’s online registration form is the only way to obtain these noted extensions. This Warranty is not transferable to anyone else and is the only warranty for your Dynacraft product, to the extent permitted by law. No other express or implied warranty is given, and except to the extent prohibited by applicable law, any implied warranty of merchantability or fitness for a particular purpose on this product is hereby disclaimed. Part or model specifications are subject to change without notice. By purchasing and using your new tricycle you agree to be bound by the terms of this Warranty as set out below. This Warranty is subject to change without notice.

### WHAT DOES THIS LIMITED WARRANTY COVER?

This Warranty covers all parts of the tricycle to be free from defects in workmanship and materials. This Warranty is only effective if: the tricycle is used under normal conditions for its intended purposes, by a person that properly fits and is capable of controlling the tricycle; and the tricycle receives all necessary maintenance and adjustments.

**USEFUL LIFE:** This tricycle, like any other item has a useful life. A lifetime warranty on the frame does not mean and is not intended to imply that the tricycle will last forever. The length of the useful life of this tricycle will vary depending on the type of product, riding and storage conditions, and the care the tricycle receives.

### WHAT IS NOT COVERED BY THIS LIMITED WARRANTY?

This Warranty does not include labor and transportation charges. You, the original purchaser will be responsible for labor or transportation charges associated with the repair or replacement of the frame or other components covered under this Warranty. Those original purchasers who qualify for the extended version of this Warranty will have transportation charges waived for the duration of the Limited Warranty period.

The tricycle frame and components have been manufactured for general transportation and recreational use by average riders, and the tricycles are not intended for trick riding, ramp riding, jumping, aggressive riding or any similar, extreme activities. This Warranty does not cover normal wear and tear, paint, rust, or normal maintenance items. This Warranty does not cover claimed defects, malfunctions, or failures that result from abuse, neglect, improper assembly, improper maintenance, lack of maintenance, alteration, misuse, crashes, or any similar damage.

**THIS WARRANTY WILL BE VOID IF THE TRICYCLE IS EVER:** used in any competitive sport; used in any of the extreme activities, or similar activities mentioned above; installed with a motor or modified in any other way; ridden by more than one person at a time; rented or used for commercial purposes; or used in a manner contrary to the instructions in the Owner's Manual included with this product. Dynacraft will not be liable for incidental or consequential loss or damage, due directly or indirectly from use of this product.

### FOR HOW LONG DOES THIS LIMITED WARRANTY LAST?

The frame is warrantied for the Useful Life of this tricycle. All other components, with the exclusion of components subject to normal wear and tear are warrantied for a period of one year after the original date of purchase. Defective components subject to normal wear and tear will be replaced by Dynacraft at no charge for a period of 30 days from the original date of purchase. For those original purchasers who qualify for the extended version of this Warranty, this period will be lengthened to 90 days from date of purchase. Components subject to the normal wear and tear exclusion include but are not limited to: tires; grips; and saddles.

### WHAT WILL DYNACRAFT DO TO HONOR THIS LIMITED WARRANTY?

Dynacraft will replace, without charge to the customer, any frame or component confirmed to be defective with the same or a functionally equivalent part. You, the original purchaser will be responsible for any and all labor or transportation charges connected with the replacement or repair of the frame or other components covered under this Warranty.

### HOW DO YOU MAKE A CLAIM UNDER THIS LIMITED WARRANTY?

Warranty claims should be submitted via Dynacraft's online portal at dynacraftwheels.com/contact. Please have your proof of purchase available before contacting to validate your claim.

Products can be registered at **dynacraftwheels.com/register**.

# DO NOT RETURN THIS ITEM TO THE STORE

Please contact Dynacraft customer service for assistance.

**dynacraftwheels.com/contact or 1-800-551-0032**

Please have the following information available:

Model Number
Example: 8000-00

Production Date
Example: MM.DD.YYYY

Serial Number
Example: DXXXX00000000

This information is provided on a white sticker located on your unit and is required to help us handle your request. Please do not remove the sticker from your unit.
