SOLD AS EACH

James On Wall Quadratech models are built for ultimate performance in surface mounted applications. Engineered leveraging iterative machine learning, the James Quadratech tweeter design provides superior dispersion and fidelity to optimize these On Wall models for music and entertainment applications. James On Wall Series is built-to-order for precision height/length to match the needs of the project, and ordered in any one of the 12+ standard colors at no additional cost.

KEY FEATURES

FEATURES AND BENEFITS

- Quadrature tweeter design
- Marine grade aluminum construction for long-lasting performance indoors and outdoors (specify Marine Model when ordering)
- Low impedance or 70V/100V configurations
- Simple through-hole installation
- 16+ standard colors (included) or select a custom finish for an upcharge
- Custom Laser Print service available for speaker and grille
