NATURAL COLLECTION

MATERIAL SAMPLE BOX

Design your space, down to the sound. The James Natural Collection on-wall audio is handcrafted in stunning wood finishes, built to compose the look and feel of a room. Every element in a well-designed space is chosen with intention. The Natural Collection holds that same standard. Available in two performance levels and five designer-selected finishes, these on-wall speakers bring a natural wood aesthetic to any room, whether anchoring a living space, flanking a display, or adding warmth to a room that simply deserves better audio. This is not audio that disappears into the room, this is audio designed for it. Leverage this Natural Collection Material Sample Box to help your clients design a system for their room.

NATURAL COLLECTION MATERIAL SAMPLE BOX

Five finishes. Nine fabrics. One standard. A handheld designer kit that tells the Natural Collection's full material story.

WHAT'S INSIDE

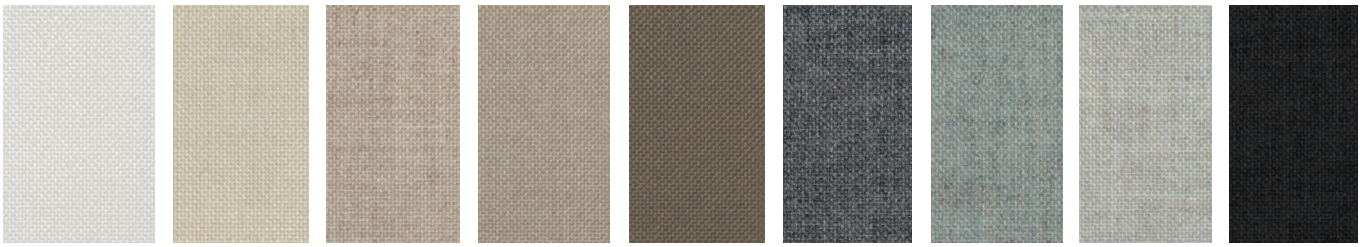

- Five finish chips: Modern Brown, Modern Teak, Modern White, Black, Sand Gold. Modern Brown and Modern Teak are made from real wood veneer. Modern White, Black, and Sand Gold finishes are each made from hand painted wood.
- Nine premium woven fabric swatches in the curated Natural Collection palette
- Magnetic flap box to hold the materials in one place; includes QR Code inside flap to launch Natural Collection Design Tool

WOOD SPEAKER FINISHES

Modern Brown | Modern Teak | Sand Gold | Modern White | Black

FINISH WITH FABRIC

White | Eggshell | Quartz | Desert Sand | Moleskin | Medium Grey | Verte Papier | Silver Papier | Black

*Designer Fabric Frame: if none of the above fabrics suit the design, the client can supply their own fabric and select the "Designer Fabric Frame" to apply their material in the field.

HOW TO USE THE MATERIAL SAMPLE BOX

- Lead with the room. Ask the client what materials are already specified.
- Match the finish to the room's wood story. Match the fabric to the room's textile story.
- Launch the Natural Collection Design Tool on **natural-collection.sonance.com** to configure and design a solution live with the client.
- Close on configuration: orientation, dimension, and channels are decisions the room makes.
