The New ROBERTS® Carpet Row Finder is designed with a rubberized comfort grip, with palm rest and finger grooves for improved control and smoother movement. The 5.9" 24-gauge stainless steel blade offers durability and reduced flexing while the comb-profile helps separate carpet fibers. Smooth, rounded ends are ideal for use with Berber or level loop carpet types with no sharp edges to risk damage to the carpet fiber. The Carpet Row Finder is a universal tool for commercial or residential use.
