OAL5 LED Area Light

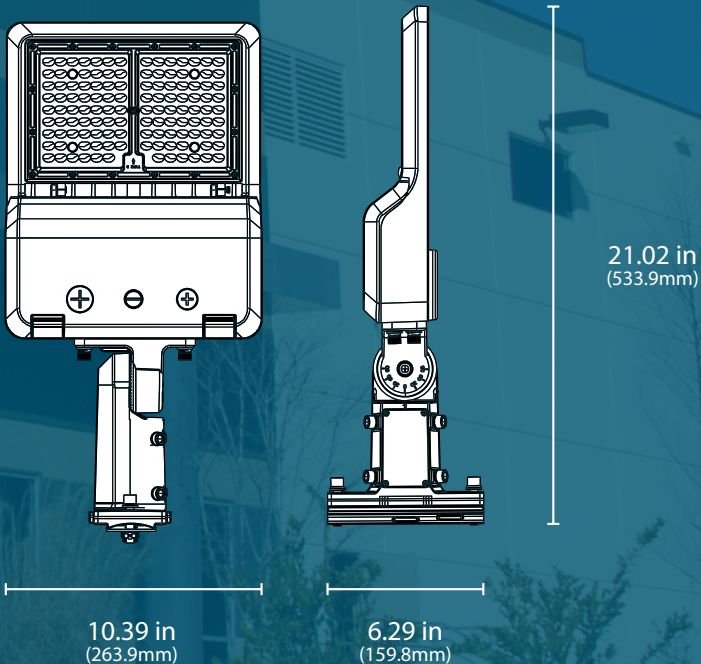

OAL5

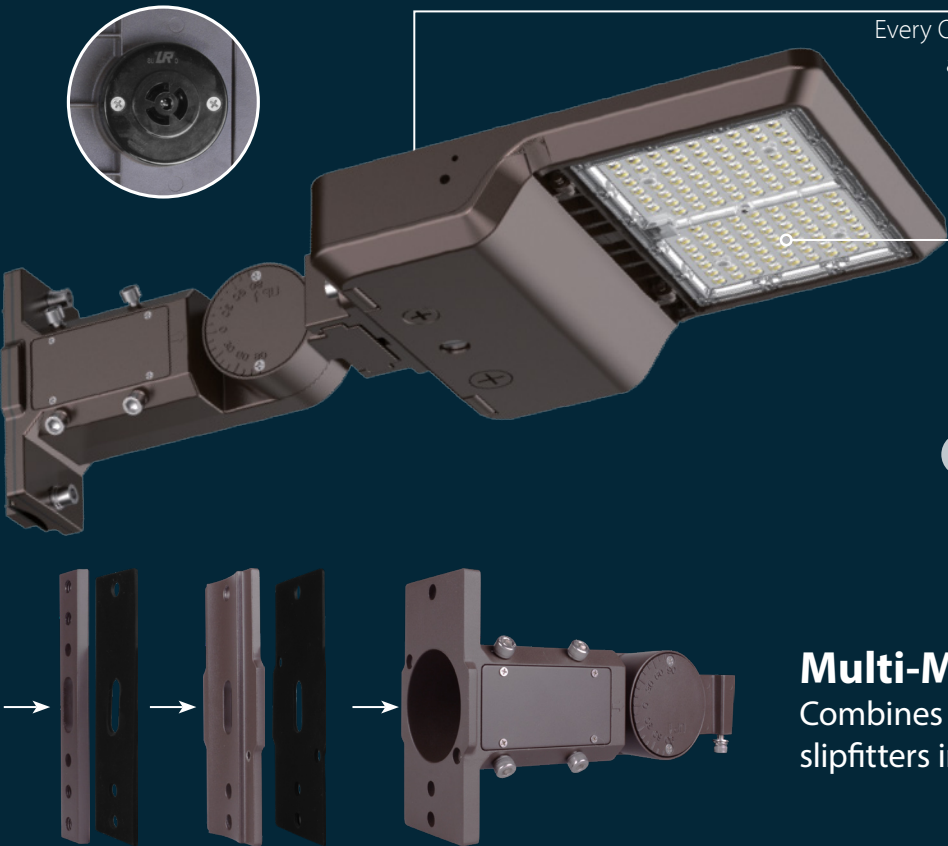

LED Area Light

The OAL5 LED Area Light delivers high efficiency with maximum energy savings and advanced controls to suit a variety of applications. Its robust, low-profile housing is comprised of die-cast aluminum and includes an adjustable, multi-function mounting arm (pole+slipfitter) for simpler, quicker installation. The OAL5 is a versatile fixture offering 50/60/80W selectability with 3/4/5K CCT and distribution options of Type II, III, IV and V. It is ideal for lower mounting heights in parking lots, recreational or public venues, walkways, campuses, and other commercial environments.

Dimensions

FEATURES

3-Pin Photocell Receptacle & Shunt

Every OAL5 comes standard with a 3-pin receptacle and shunt, with a 7-pin option also available.

Field Swappable lenses

Quickly adapt or replace lenses on-site for versatile lighting solutions.

Multi-Mount Arm

Combines straight arms, pole arms, and slipfitters into a quick-install dovetail design

Select the Perfect Light

The OAL5 LED Area light features low selectable wattage (high-voltage option available) and color temperature options via an integrated switch located on the front
