

INSTALLATION INSTRUCTIONS

EDGE SPACER

FEATURES

Spacer for pull-out frame

PARTS

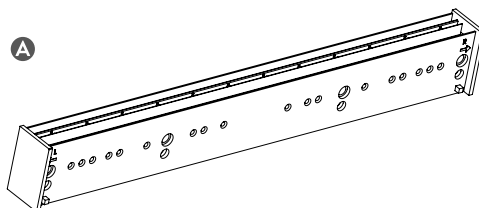

A. Spacer

B. M4x35mm Self-tapping Screws

MAINTENANCE

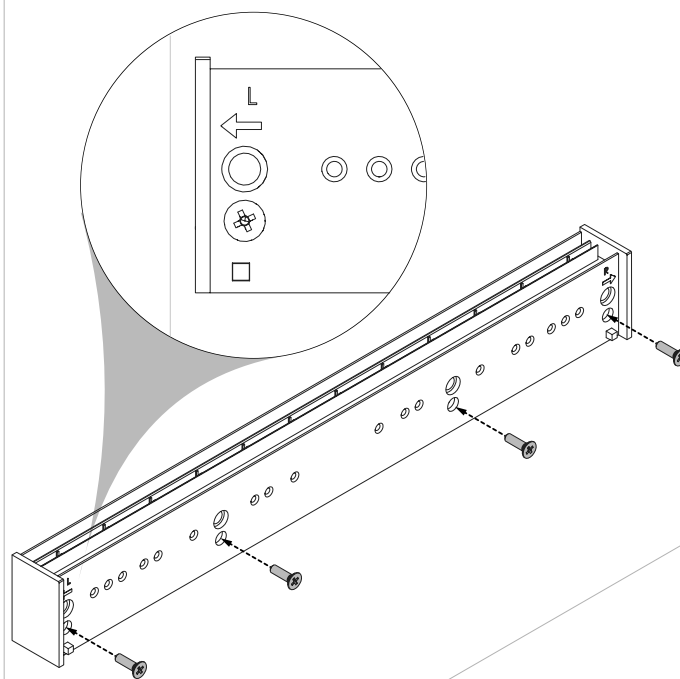

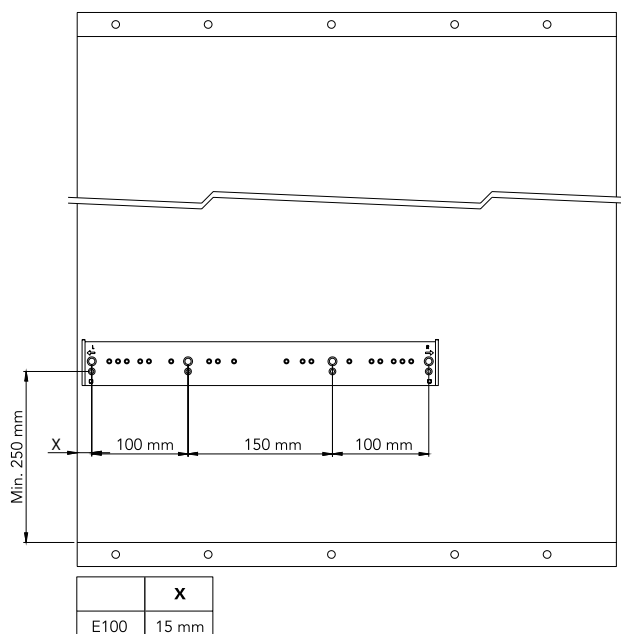

Clean with a soft, dry cloth.

Avoid using solvents or abrasive.

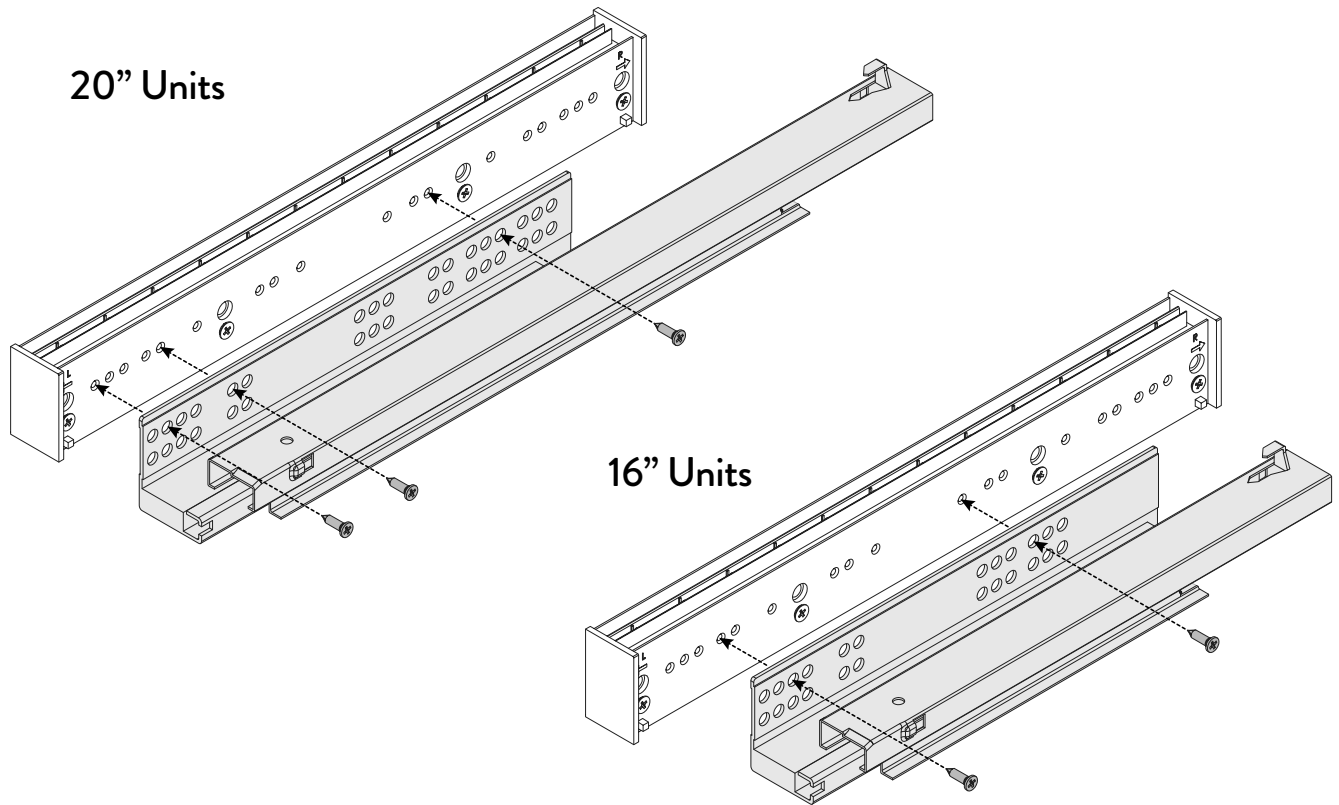

1

Measure and mark the hole locations for your spacer, using the measurements below. Then, attach the spacer to cabinet using (4) M4x35 Self-tapping Screws per side.

2

Attach the Slides to the spacers into the correct holes, see below. Then continue with the assembly of the frame.

3

Insert the cover into the spacer.
