

Infinex is the innovative, patented, LED aluminum extrusion system by Tresco Lighting. Gone are the days of set fixture sizes, simply choose your style, cut to desired length and assemble to create a customized LED fixture. Designed by our in-house engineers and made in the USA, Infinex carries a UL safety certification and is available in six profiles with an array of installation options.

Infinex is designed for easy DIY application. We also offer prefabricated custom solutions with a minimum quantity order.

US PATENT NO: D783,533 and 9,618,194

6 profiles to choose from

Clear, frosted and milk diffusers snap on/off for easy installation and removal.

FlexTape® slides into proprietary power feed end cap

CUSTOM SOLUTIONS

Take control of your lighting through Tresco's custom Infinex solutions. From length, to light output, to screw versus magnetic mounting, you dictate the options of your unique fixture. Once decided, we will manufacture it in our USA headquarters. No more worries about international shipping delays or extended holidays. Every light is quality checked and bears the cULus marking denoting its safe operation. Don't settle for something "close", choose Infinex and get exactly what you want. Go to trescolighting.com to submit your project and receive a custom quote.

CUSTOM FULLY ASSEMBLED FIXTURES NO MINIMUM REQUIREMENT MADE IN THE U.S.A. AND SHIPS WITHIN 7 DAYS!

6 unique profiles 30 light output options Black or white cords (multiple lengths) 4"- 96" (101 mm - 2438 mm) fixture lengths in 1/16" (1.6 mm) increments 3 diffuser options (clear, frosted, milk) Bulk, individual, or kit packaged No minimum quantity required Quick turnaround

NEW: INFINEX INTEGRATED CONTROL OPTIONS

Dimmer/Motion Combo

Features:

Controls are elegantly and fully integrated into the made-to-order Infinex fixture

ON/OFF and dimming controls use a glowing digital button for easy visual recognition

An optional fully-integrated occupancy sensor available to automatically turn the fixture off after 30-minutes of no activity or Tresco® can customize the desired time delay

Easily switch between manual and occupancy sensor modes

Returns to last setting when turned on

Typical Applications:

- Hospitality applications utilizing the integrated occupancy sensor for:
 - Hotel or hospital closet, vanity or headboard lighting
 - Task lighting for nurses' stations
- Attach under: furniture and bathroom cabinetry
- Office furniture: task lighting under overhead shelves, bins, cabinets and privacy booths
- Under residential or commercial cabinetry to illuminate a countertop and/or backsplash
- Retail: utilize the integrated occupancy sensor to turn display lighting on when customers approach

Dimmer Only

Touch ON/OFF Gradual dimming from 100%-5% Power failure memory (retains last setting) 10 hour automatic energy saving shutoff

Dimmer/Motion Sensor Combo

4 step dimming 100/75/50/25 30 minute preset motion sensor* Motion sensor can be deactivated Dimmer works in motion sensor mode or standalone mode 10 hour automatic energy saving shutoff in dimmer only mode *Motion sensor time can be customized by Tresco® Lighting

Not sold individually for DIY Infinex

Aluminum extrusions can be cut by various pieces of equipment. For the best performance and longest life, use a saw blade designed for non-ferrous, thin stock on your miter saw. It is also highly recommended to cut extrusion with diffuser securely attached via clamps, tape, stretch wrap etc. to prevent unwanted cracking of diffuser.

EXTRUSION STYLES AND FEATURES

Features

U-Clip mounting allows fixture to be rotated in 15° increments either direction (30°, 15°, 0°, -15°, -30°)

Uses Infinex starter leads

Satin Nickel Black

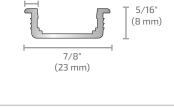

RECESSED

Profile

1/16" (2 mm)

End Caps Sold Separately

Features

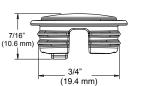

Grooved sides allow extrusion to pressure fit into place*

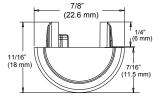

Uses standard FlexTape® starter lead

*With Endcap: Route a channel in wood 21/64" (8.33 mm) depth minimum x .750" (19 mm) width and pressure fit this extrusion in place.

Without Endcap: Route a channel in wood 9/32" (7.14 mm) depth minimum \times .750" (19 mm) width and pressure fit this extrusion in place.

Recessed extrusion uses standard FlexTape® starter lead. (L-LED-TPEPKT-2M-1, L-24B2SPKT-2M-1)

Recessed End Cap Dimensions:
