

DRIFTSTONE

Driftstone dinnerware is anything but average. Its range of organic, earthen colors and gently curving rims add distinct character to your presentations. Simple and natural, Driftstone serves locally sourced, sustainable and farm-to-table entrees with casual flair. This modern dinnerware follows today's trends with coupe shapes and a subdued satin matte finish that is a beautifully natural alternative for the traditional tabletop.

FEATURES & BENEFITS

- Driftstone dinnerware is available in a variety of earthen colorways and coupe shapes for a modern, laid back presentation
- Use alongside durable Driftstone melamine options that let you create a cohesive style across your venue, indoors and out
- Fully Vitrified: Fired at temperatures greater than 2300°F to achieve a stronger and harder material that minimizes absorption of moisture, odor and bacteria
