

IXE

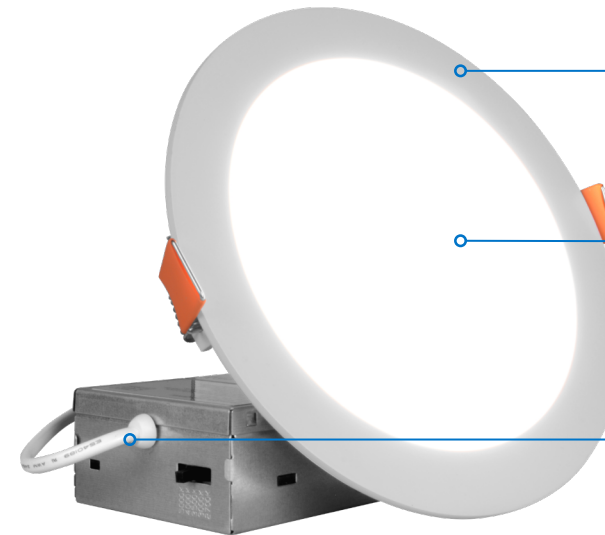

Canless Edge-Lit Recessed LED Downlight

The IXE 6-inch Canless LED Downlight presents a clean and attractive low-profile design that's incredibly easy to install. Choose from 2700K, 3000K, 3500K, 4000K, and 5000K for true customized lighting in any room. The edge-lit technology provides consistent lighting with an extremely thin fixture depth at just 0.38". The separate, off-board driver and spring-loaded retention tabs eliminate the need for a recessed housing. A plenum-rated cable links the downlight to the remote driver, keeping heat away from vital components for an increased product lifespan. The IXE is Insulation Contact rated (IC-rated), Airtight, Wet-Location rated, and protected by NICOR's 5-Year Limited Warranty. Available in 12-packs, delivered ready to install and use right out of the box, no other parts or components required.

Dimensions

FEATURES

Cast-Aluminum Housing

Lightweight and durable. Helps direct heat away from vital electrical components

High-Performance LEDs

Even light distribution, maximum lumen output, and true color definition

Selectable Color Temperature

Choose between 2700K, 3000K, 3500K, 4000K, or 5000K

Easy Installation

Spring-loaded retention tabs, push-in wire connectors, and cut-out template help make installation a breeze.

Flicker-Free Dimming

Dimmable to 10% with TRIAC dimmers. Compatible with most major branded dimmers. See spec-sheet to see our recommendations.

Available Finishes

The IXE features a white powder-coat finish, standard on all models. Customize it with your choice of black, nickel, or oil-rubbed bronze trim finishes.

Ordering Information					Example: IXE61120S8RDWH		
Series	Size	Version	Voltage	CCT's	CRI	Shape	Trim Color
