93047710	LHMBDBLCK	LHM BLACK BARN DOOR
93047708	LHSBDBLCK	LHS BLACK BARN DOOR

IMPORTANT SAFETY INSTRUCTIONS

When installing or using this track system, basic safety precautions should always be followed, including the following:

- Read all instructions
- Do not install this track in damp or wet locations.
- Do not cut any track sections.
- Do not install any part of a track system less than 5 feet above the floor.
- Do not install any luminaire assembly closer than 6 inches from any curtain, or similar combustible material.
- Disconnect electrical power before adding to or changing the configuration of the track.
- Do not attempt to energize anything other than lighting track luminaires on the track. To reduce the risk of fire and electric shock, do not attempt to connect power tools, extension cords, appliances, and the like to the track.
- Do not connect a track to more than one branch circuit unless the track is constructed so that it can be used with more than one branch circuit. Check with a qualified electrician. Although the track lighting system may seem to operate acceptably, a dangerous overload of the neutral may occur and result in a risk of fire.

SAVE THESE INSTRUCTIONS

For future reference when adding fixtures or changing the track configuration.

Installation of Barn Door on the LHX Series Track Light

- 1 Begin with fixture disconnected from the track.

- 2 Slide the barn door accessory over the top of the fixture, ensuring that the flexible silver metal ring on the inside of the accessory sits completely around the outside of the fixture.

- 3 Tighten down the screw on the outside of the accessory, cinching the flexible silver metal ring tight around the fixture.

- 4 Once screw is tightened, check that the accessory is securely attached.
